Letter No. 1735 dated 7th May 1897 from the Executive Engineer Coimbator Division to the Superintending Engineer 4th Circle.

In returning the enclosures to your No. 210/C.I. dated 7th April 1897, I have the honour to report as follows on paras 4 and 5 of Collector's letter of 19th January 1897.

2. A reservation is certainly required for the new high level road.

3. The estimate and sections for the new High level road, were returned to me with your No. 64/C.I. dated 9th February 1897 with instructions to get out the plans neatly, to prepare an alternative estimate for the new road on the line suggested by the Municipal Council and to resubmit the two estimates together. The Municipal Council have not as yet formulated their proposals and I am waiting for them to get out the alternative estimate.

4. In para 5 of the Collector's letter 2 points seem to be raised, (1) Whether building on Church Hill is to be permitted or not and (2) that I have to send the Collector a survey of Church Hill

Hill and the Collector would then decide on the size and position of Suitable building blocks and make due provision for access to them. I believe I am not Concerned with the first point. As regards the second point I sent the Collector a tracing of a Contour Survey of Church Hill with my No. 1518 of 26-4-97

5. I would point out however that the instructions Contained in para 2 of G.C. No. 648 Miss. Rev. G.C. dy 14th February 1896 and G.C. No. 643 W dy 21st February 1896 appear to be cancelled by para 2 of G.C. No. 2848 W dy 2nd October 1896.

In para 6 of the Executive Engineer's letter printed with the latter G.C. it is suggest-ed that the Survey Department should demarcate the building sites.

6. The line of the new High Level Road has been pegged out and I can give the Survey Department the width of land required at each Cross station.

7. I cannot make a ground Survey as economically as the Survey Department and the latter have the great advantage of having field books on record and can easily and cheaply show any new work on their existing Surveys.

8. I would therefore suggest that I instruct my Sub Dv. Officer to show any Subordinate deputed by the Survey Department the line of the New High Level Road and give him the width of land required.

The Survey Department can then mark the line of the road and the reserve required for it on the existing Surveys and furnish the Collector with a Copy on which, under the Collector's instructions, building Sites Connecting roads &c can be marked out.

Note.

Upon an application

for a plot of land in the Church Hill Garden made by Surgeon Major Browning the Govt. in its order № 648 dd 24.2.96, declared that the reservation of the garden ordered in G.O. № 958 dd 13.8.80, was no longer necessary; but before disposing of the apps it called upon the Collector to prepare a plan of the whole plot laid out in building sites of convenient size and submit it to Govt. This plan has not yet been received. Sub mr F.W. Ashpitel in penal of his letter № 2909 dd 2.9.96, read in G.O. № 2843W dd 2.10.96 reported:- " while the survey was in progress, the idea of selling any portion of the Hill was apparently abandoned &c". There is no information in this office on this point and it is not known on what authority mr Ashpitel made the above statement. Hence para 2

in Rev. G.O. 4359 dd 5.11.96.

of the draft order. On receipt of the information therein called for, a note will be submitted dealing with the apps of the Sisters of the Church for a piece of land in the Church Hill garden.
