Ordered that the

At Hon: the Secy of State
for India be addressed.

No: 17 d 8th July 97

The At Hon: the Secy of
State for India

My Lord,

In continuation
of our telegram of the 19th
May last
we have the honour
to forward for your Lordships
information a copy of the
statement made by the master
of S.S. "Kentigern" before the
Asst Magistrate of the District
of Malabar, setting forth the
circumstances under which
the fuel oil and sulphuric
acid shipped for the use of
the Gout Crichona Dept. Mil-
lons, were lost or had to be
thrown overboard. A copy of
this

this statement was submitted to us on the 17th ultimo but, as it referred only to the loss of the oil and the deck cargo of acids, we caused further enquiries to be made as to whether ~~any~~ all the acid was carried on deck and what had become of the animal charcoal ~~the~~ ^{the} ~~advice~~ ^{the} despatch of which together with the acid and oil in the same ship was advised in the Bi-Monthly Return of Stores of 15th April 1897 sent from the India Office

2. We now learn that the whole consignment of Sulphuric Acid and Fuel oil has been lost ~~and~~ ^{and} that ~~the~~ ^{only five} of animal charcoal ~~and~~ ^{casks} containing 10 cwt have ~~been~~ ^{been} safely landed at Calicut. We also understand from the Director of the Pout Cutchona Plantations, ~~Indragiri~~ ^{Indragiri} that he has a small quantity of the acid and charcoal in stock ~~and that with this as well as the charcoal now received~~ ^{and that with this as well as the charcoal now received} he will be able to carry on factory work during the remainder of the year

year, provided he is supplied with 15 tons of fuel oil at as early a date as possible. The application for the oil has already been made by us in our telegram quoted above and we now beg to add that the reason why in ~~that~~ ^{the} ~~telegram~~ ^{in question} we requested that the oil might be shipped to Madras was that the ~~port of Calicut~~ ^{port of Calicut} ~~the~~ ^{the} ~~western coast of this Port~~ would be closed during the South West monsoon.
