For orders.

Please see notes under G.O.

No 5052 of 10-12-96, relative to a proposal to introduce the use of a special water-marked paper for plaints &c in this Presidency and the letter of the same date addressed to the marginally noted Government on the subject. In that letter information was asked for on the following points:—

1. Introduction of the use of the paper into the Province or State.
 2. Working of the system since its introduction.
 3. The agreement under which the paper is supplied.
 4. Its first cost at the mill.
 5. The means used for its distribution and sale, and
 6. The modifications or orders under which its use in Courts or otherwise has been laid down or enjoined.
2. The Chief Commissioner Assam states that marked paper is

 I made the inquiry & have submitted myself to the results in para 4 of my letter of 12/1/97.

I agree with the Secy. and would like again to the H.C. ask them to reconsider their opinion in the light of the replies we have recd. from the Govts. which should be sent for perusal with a specimen sheet. It should be pointed out that the proposal is not to give the mills a monopoly, but to put it to tender for the supply, by which it will make a considerable profit without (so far as I can see) the least detriment to the people. In the mean time, if the Hon. Mr. from agrees, steps may be taken to introduce the paper in all the offices.

 I agree. Steps may be taken accordingly.

Bengal.

To provide against adhesive Court fee stamps being affixed to documents written on paper unfitted for the purposes of record, the Government of India approved of a special kind of paper for use with Court fee labels; and the use of it was authorized by a Circular order of 1872 issued by the High Court.

The system has been in force now for nearly 25 years and has worked well without complaints of exactions or inconvenience to the public.

A copy of the Contract with the Public similar to those which regulate the custody and sale of stamps entered into Rs 3-1-0 with the Co. per ream is attached of 480 sheets to the current weighing 7 lbs.

A circular order was issued in June 1872 by the High Court directing licensed vendors, all Judges, District Magistrates, Comrs and Magistrates, rate of 6 1/4 per of Rs. to have a permit is allowed notice put up to the on effect that no permission would be granted to the filing of a document written upon paper obviously unfitted for the purposes of record and that paper of an approved quality, can be obtained from the stamp Vendor attached to each Court.

forwarded, in August 1895 to the Government of N. W. Provinces and Oudh for favor of opinion, copy of a letter from the Govt. of Bengal suggesting the introduction of the paper in question into the N. W. Provinces and Oudh. That Government reported in March 1896 that the High Court of N. W. Provinces, the Judge Comr. of Oudh and the Board of Revenue are prepared to adopt the suggestion of the Government of Bengal and has since issued instructions to the Board to make the necessary arrangements in communication with the High Court, the Judge Comr. and the Comr. of Stamps for the issue of such rules as may be required and for the supply of the paper to the Treasuries.

~~Arrangements for the issue of the paper have not yet been made.~~

3. It will be seen from the foregoing that, while in Bengal, the Punjab and Mysore, the use of the special water-marked paper is introduced only in civil and Criminal Courts, in the Hyderabad Assigned districts, ^{and} N.W. Provinces and Oudh, it is or will be introduced in the Revenue offices also. Again while in Bengal, the Hyderabad Assigned districts and probably also ⁱⁿ N.W. Provinces and Oudh, the use of this paper is only suggested with the alternative of the use of any other paper equally durable, in the Punjab and Mysore this paper alone is required to be used. It is not clear under what authority an order to this effect can be issued.

4. Under the rules now in force in this Presidency every plaint, memorandum of appeal, written statement, petition, affidavit, deposition, application, memorandum or list of documents, copy of a document or other paper presented to or filed in the High Court, except documentary evidence,

I have not a Code to refer to at the moment but I think the H.C. C. could make such a rule under the Civil Pro. Code. ^{14/4/97}

This para bears out the above note.

has to be written or printed on foolscap folio paper — cream more machine drawing 19 lbs per ream or thereabouts, a specimen sheet of this paper is attached. It is priced in the local market at from Rs 12-0-0 to Rs 12-6-0 a ream of 480 full sheets, i.e. each of double the size of the paper forwarded by the Titaghur Mills Co. But it is understood that this superior paper is used only by the leading legal firms, and that the ordinary vakils generally use a paper of the same kind but a little thinner, drawing only 16 lbs ^{per ream} and, as this paper finds a large sale, there is a good supply of it always in the market. It can be had for Rs 8 or 8½ at the most for a ream of 480 full sheets or about Rs 4 for 480 half sheets of the size of the Titaghur mills paper. If, therefore, the special water-marked paper is prescribed in the place of that now ^{in use} ~~in use~~ the Lawyers or the parties will have to pay Rs 7½ a ream instead of about Rs 4-0-0 or Rs 6-0-0.

They might just as well say this paper is E.
11/4/87.

In Murad only: but up Country the paper they use the Titaghur ^{paper} is good paper. Can not be got out of Murad in small quantities.
11/4/87.

The Government

x wide position was in
the court paper as the paper
is 18 in.

+ Certainly.
11/4/87.

The Government may sell this paper too at Rs 4 a ream and yet make some profit, but as in every other place where it is in use it is sold at Rs 7½ a ream, it is undesirable to sell it at a lower price in this Presidency alone, for then as observed by the Board of Revenue, Lower Provinces of Bengal in a similar connection, it would pay any one to buy paper here at Rs 4 or even Rs 5 a ream and sell it in Bengal ~~or~~ or Punjab or N. W. Provinces and Oudh at Rs 7-8-0.

5. The points for consideration are:—
(1) ^{Should} ~~whether~~ any steps ~~should~~ be taken by Government to see that documents filed in courts and offices are written or printed on paper fit for record? This seems desirable. Petitions are often written or printed on flimsy paper or ^{on} paper of very large dimensions and it is very inconvenient to handle them or file them with the record. If it is no hardship to require parties

parties to affix a stamp of Barman
or of one or two Rupees to their petitions,
there can be no hardship in requiring
them to write such petitions
on paper which, at the most is
in the case of very lengthy ones,
will cost only a few annas

(3) Should the introduction
of the paper be limited in the
first instance to Revenue Courts
and offices or should it be
extended to the Civil and
Criminal Courts also? If the

former, the Govt. may do the
needful in consultation with
the Board of Revenue. If the
latter, the intervention of
the High Court is necessary
and the papers will have to
be transmitted to that authority
for reconsideration of the
subject in the light of the
additional information
now available.

(3) Should the various
courts and offices be
required to insist upon the
use of one particular paper
alone to be supplied by
Government

I think Govt. should introduce it
in Revenue Office & send this
paper to the High Court to
introduce it in the Courts.

11/4/87.

I think Govt. should introduce
this particular paper.

11/4/87.

I submit this paper should
be sold by stamp vendors allowing
them a discount.

11/4/87.

Government as in Madras and
the Punjab or would it suffice
to notify the quality and size
of the paper the use of which
alone shall be allowed in the
Courts and offices - such as
cream wove paper drawing
not less than 14 lbs per mill -
rears of 480 full sheets, each
full sheet measuring $13\frac{1}{2}$ " by
 $17\frac{1}{2}$ "

The latter seems sufficient,
as it is not the object of Govt.
to make any revenue under
this source.

(4) Should the Government
undertake to supply the Public
with the paper of the prescribed
quality? In Madras and
some of the important towns
there may not be much difficulty
in procuring paper of the prescribed
quality, but in most of the
Mafassal places there would
be some difficulty and the
Government may arrange for the
sale of the paper to the public
through stamp vendors, as in
Bengal and other Provinces.

(5)

If the answer to no. (4) be in the affirmative,
(5) Should the Government
at once enter into a contract
with the Company for supply
of the paper for a long period
or should it do so only after
a trial for some time?

is yet the only Government which has entered into a contract with the Company is illegal but that Government is supplying the other British Provinces into which the use of the paper has been introduced. Mysore has not yet entered into any agreement with the Company. It first obtained a supply of 8000 reams on trial and it is reported that a proposal from the Company for a contract for a term of 15 years is under consideration.

In para 8 of their letter addressed to the Government, the Jilaghur Milk Company say that the only condition they seek is that the contract should be given to the milks for ten years with the option of

of renewal for another five -
years in the same terms if -
Satisfaction has been given.
The cost of the Dandy-roll for
producing any design & water-
mark which this Government
may decide upon adopting will
be defrayed by the Company, and
this Government will have to
pay only the actual cost of the
paper and the cost of conveyance
to Madras.

From the copy of the contract forwarded by the Government of Bengal it appears that that Government entered into an agreement with the Company for five years - from the 1st of April 1891 with the option of renewal for another five years. In the contract deed executed in April 1896 the clause relating to the renewal was, at the instance of the Board, omitted by Government. The reason for this is not given.

G.O. No 332 of 14th May 1897.

Mr Hamilton
Holmes, Agent to the Titon
Paper Mills Company
of Calcutta, in a letter
dated the 18th July 1896,
brought to the notice of
this Govt. that the Com-
pany manufacture a
special class of water-
marked paper to be used
for ^{petitions, documents} plaints &c requiring,
or used with, adhesive
Court fee labels or to be
added to Court fee stamp
papers, where the subject
matter of the plaints &c, ex-
tends beyond the first stamp
papers; that under a
notification issued by the
High Court of Calcutta in
1872 the paper manu-
-factured at the mills
was suggested for adoption
in all Courts in Bengal;
that the use of it has since
been

been introduced into the
Punjab, Assam, and several
other Provinces also; and
that all these Govts. get
their whole requirements
from the Mills at present.
The Agent at the same
time forwarded a few
samples of the paper sup-
plied by the Mill and
offered to supply paper
of similar quality, but
with a special water-
mark for Madras, if the
Govt. should be pleased
to introduce the use of
the paper into this Presi-
dency. He stated that
the Mill would charge
Rs 3-1-0 per ream
free ex mill and that the
Govt. by selling each sheet
at 3 pils - which was the
rate authorized by the
Govt of India, would
realize Rs 7-8-0, out
of which allowing for
transit charges, comes
to Vendors i.e. a sum of
annas

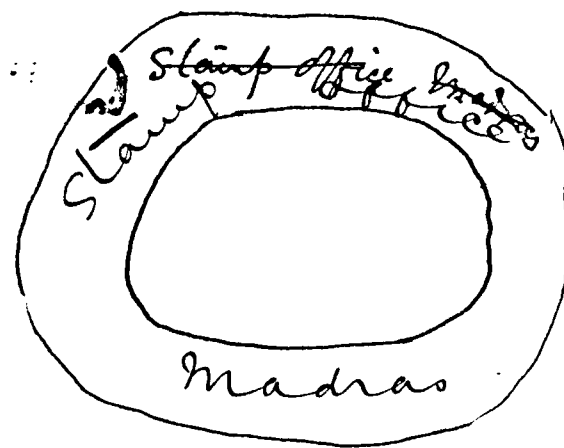

= 1 piece

100
annas 7, the Govt. could
make a net gain of Rs 4
per ream. He added that,
should the Govt. agree to
his proposal, the only
condition the Company
would seek to impose,
was that the Contract
should be given to the
Mill for a period of ten
years with the option
of renewal for another
few years, on the same
terms if satisfaction
be given.

2. Looking to the fact
that the petitions and other
documents filed in the
various offices and courts
in this Presidency,
are often written on
paper unfitted for the
purposes of record, and
that ~~these~~ ^{these results are} due, partly
at any rate, to the diffi-
culty which persons in-
ordinations especially,
experience in procuring
paper of good quality
in small quantities
at a moderate cost, the
Govt

which sometimes leads to
fraud & sometimes to the
destruction of valuable documents.

Govt was inclined to adopt
the proposals made by
Mr Holmes, as ~~thereby~~
~~a durable kind of paper~~
~~at a reasonably low~~
~~cost, can be made avail-~~
~~able at all stations and~~
~~to all persons who may~~
~~require it.~~ But before
finally sanctioning the
introduction of the
system into this Presi-
-dency, it addressed
the Govts of the Provinces
into which the system
was reported to have
been introduced, for
copies of the notifications
and orders laying down
or enjoining the use of
the paper and also for
information as to the
means used for its dis-
-tribution and sale
and as to the working
of the system generally.
The replies received are
read at the head of
these Progs. It will be
seen

110
Seen from them that,
while in some Provinces
the use of the paper has been
introduced into the Civil
and Criminal Courts only,
in others, it has been
introduced into the Revenue
offices as well; that in
all offices the paper is
made available to the
public through the
Agency of the Stamp Dept.,
and that the system has
on the whole worked
satisfactorily. In the
foregoing circumstances
the Govt resolves to intro-
-duce, as an experimental
measure in the first
instance, ^{into all the Rev Courts and Offices in this Pres.} the use of water-
marked paper of the quality
now in use in Bengal &c.,
but with a special mark
for Madras as noted in
the margin. For this
purpose a certain quantity
of the paper will be obtained
by the Dept. of Stamp & Stationery
from the mills, and made

of entering into a con-

Govt considers it
inadvisable to adopt
such a course at present.

5. With reference to
the letter from the Registrar
of

of the High Court of India
 Calcutta, Madras, Dis No 629,
 dated 25. 9-96, it is ob-
 served that what is pro-
 posed is not that any

 Govt. should purchase
 it from them at a certain
 rate and sell it uni-
 formly at all stations
