APRIL.

Weavers' task-table.—Approving generally, with remarks, — submitted by the Collector of Ganjám for his district.

PROCEEDINGS OF THE BOARD OF REVENUE
(Revenue Settlement, Land Records and Agriculture.)

Read—the following letter from H. D. TAYLOR, Esq., Acting Collector of Ganjám, to the Famine Secretary to the Commissioner of Revenue Settlement, Land Records and Agriculture, dated Chatrapur, 16th April 1897, Dis. No. 319-F.:—

As directed in B.P., dated 10th February 1897, No. 121, I have the honour to submit for approval my weavers' task-table for this district.

2. The compilation of the same has taken a considerably longer time than was expected owing to discrepancies in the statements given by various Divisional Officers, some of which have not even now been satisfactorily reconciled.

3. A list was at first drawn up consisting of 36 samples of cloth of different counts and sizes. The list so prepared was circulated to Divisional Officers for revision, and, if possible, reduction with a view to simplification of accounts. The list has now been reduced to 25 in number, and it is possible that in practice it may require revision and be capable of still further reduction. If it is observed that the weavers apply to weave one particular pattern of cloth to the neglect of the others, it may be assumed that the terms under which that particular cloth is manufactured are more advantageous than for other cloths.

4. The details of the task-table have been ascertained partly by actual experiment, partly by observation of people working in their houses and partly by enquiries made both from manufacturers and merchants. The chief difficultes met with consist in the fact that Uriya cloths are totally distinct from Telugu cloths in the matter of coloured border, and in the fact that the common measure in use is the cubit which varies from place to place. It may, however, be roughly taken as equivalent to 19½ inches.

5. I enclose a copy of the temporary task-table which has been prepared by me. Some 300 weavers of Sómpéta have now come in for advances on these terms, and inquiries are also being made at Aska. Weavers at other parts have not yet come in and ask for slightly higher terms and I feel certain that if slightly higher terms are offered, there will be a considerable rush for advances.

6. Contract for the supply of thread at the various depôts has been entered into with a Berhampur merchant after calling for tenders.

7. I propose to advance white thread of the various counts only and to give in cash in advance (1) the value of paste and oil and (2) the value of coloured thread required for borders. The latter is but a small amount, and to maintain separate set of accounts for it in the depôt, would considerably multiply the work.

8. I have already reported that the dependants of weavers on relief at their own trade—whether Telugus or Uriyas will not come into kitchens—will have to be granted a separate kitchen controlled by the head of their caste at each large centre, but I doubt that they will agree to do so.

9. I would again urge the desirability of granting a B wage for weavers and the calculation of the woman's share of the work at a full day, even if she only is actually employed in subsidiary weaving operations for half a day only. She has to work for the men of the family, her work is limited by the men's work and she cannot perform any other remunerative employment except perhaps the collection of fire wood which is not allowed for in the wage.

10. I request that I may be informed by wire whether the task-table is approved pending the result of actual experience.

Enclosure I.

Proceedings of the Collector of Ganjám, dated Chatrapur, 14th March 1897, R. C. No. 526-Famine.

Order.—Pending the preparation and sanction by Government, of a detailed task-table for all kinds of cloth to be woven under famine relief in the district, the Acting Collector directs that the following samples of cloth only shall be woven for the present:—

	Thread.	Cubits.
(1) Man's cloth—		
(*a*) Rekkachapu (Telugu)	No. 20	13×2.
(*b*) Khoddi (Uriya)	Nos. 12 & 14	13×2.
(2) Woman's cloth—		
(*a*) Pancha (Telugu)	No. 16	18×2.
(*b*) Khoddi (Uriya)	Nos. 14 & 16	18×2.
(3) Woman's cloth (Uriya)	No. 12	13×2.

The cloth will be plain unbordered and white twist only will be used for the present.

2. The wages will be calculated at the wage of 1 man and ½ woman for C class for the period shown in columns 12, 13 and 14 of the temporary task-table regulated by the price of the week in which payment is made. This wage will be based on ragi in the Principal Assistant Collector's Division and on ¾ ragi and ¼ rice elsewhere.

3. No cash advance can be given except for cost of paste and oil in proportion to the amount of thread advanced and at the rate shown in column 10 of the statement, but the following allowance will be made to weavers bringing in cloth, duly woven, from a distance:—

From 2½ to 5 miles distance	Half a day's wage in a week.
Over 5 miles distance	One day's wage in a week.

Cloth, previously woven by weavers but not woven from thread advanced, cannot be accepted at the depôts.

4. Divisional Officers are requested carefully to watch the working of the task-table with a view to its revision, after actual experiment if necessary. They are requested to submit their proposed task-table in the form called for in B.P., dated 10th February 1897, No. 121, at a very early date.

5 Care should be taken to check the experimental table with the result of actual experience especially in reference to the figures entered in columns 4, 6, 12 and 13.

(Signed) H. D. TAYLOR,
Ag. Collector.

Resolution—dated 26th April 1897, No. 319.

The task-table is approved generally, and it may be adopted tentatively pending the preparation of a revised table on the lines of the Adóni task-table, as ordered in B.P. No. 278 of 1897. The Collector should, however, try to reduce the number of kinds of cloths to be woven.

2. The proposal to advance only white thread and to pay the cost of the other materials required is against the orders of Government communicated in B.P., dated 10th February 1897, No. 121; the course prescribed in that G.O. should be adopted.

3. The proposal to pay a full day's wage to women, though they may not be employed the whole day in subsidiary weaving operations, is approved, pending the revision of the task-table, when the point should be again considered and reported on. The question of granting B class wage to weavers is under investigation.

4. The figures in the task-table seem to require further checking. In the case of item No. 8 in the table, 12 cubits are shown to be equivalent to 18 feet, while 2 cubits are shown as equal to 2 feet 4 inches only. The description of the cloths as "male cloths" and "female cloths" should also be altered into "men's cloths" and "women's cloths."

5. The following telegram will be despatched to the Collector:—

"Weavers' task-table approved generally, but all thread required must be advanced. Money advances prohibited."

MAY.

Weavers' Task-table.

Recording Board's Proceedings approving, with remarks, the — for the Ganjám district.

GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

Read—the following Proceedings of the Board of Revenue (Revenue Settlement, Land Records and Agriculture), dated 26th April 1897, No. 319:—

Read—the following letter from H. D. TAYLOR, Esq., Acting Collector of Ganjám, to the Famine Secretary to the Commissioner of Revenue Settlement, Land Records and Agriculture, dated Chatrapur, 16th April 1897, Dis. No. 319-F.:—

As directed in B.P., dated 10th February 1897, No. 121, I have the honour to submit for approval my weavers' task-table for this district.

2. The compilation of the same has taken a considerably longer time than was expected owing to discrepancies in the statements given by various Divisional Officers, some of which have not even now been satisfactorily reconciled.

3. A list was at first drawn up consisting of 36 samples of cloth of different counts and sizes. The list so prepared was circulated to Divisional Officers for revision, and, if possible, reduction with a view to simplification of accounts. The list has now been reduced to 25 in number, and it is possible that in practice it may require revision and be capable of still further reduction. If it is observed that the weavers apply to weave one particular pattern of cloth to the neglect of the others, it may be assumed that the terms under which that particular cloth is manufactured are more advantageous than for other cloths.

4. The details of the task-table have been ascertained partly by actual experiment, partly by observation of people working in their houses and partly by enquiries made both from manufacturers and merchants. The chief difficultes met with consist in the fact that Uriya cloths are totally distinct from Telugu cloths in the matter of coloured border, and in the fact that the common measure in use is the cubit which varies from place to place. It may, however, be roughly taken as equivalent to 19½ inches.

5. I enclose a copy of the temporary task-table which has been prepared by me. Some 300 weavers of Sómpéta have now come in for advances on these terms, and inquiries are also being made at Aska. Weavers at other parts have not yet come in and ask for slightly higher terms and I feel certain that if slightly higher terms are offered, there will be a considerable rush for advances.

6. Contract for the supply of thread at the various depôts has been entered into with a Berhampur merchant after calling for tenders.

7. I propose to advance white thread of the various counts only and to give in cash in advance (1) the value of paste and oil and (2) the value of coloured thread required for borders. The latter is but a small amount, and to maintain separate set of accounts for it in the depôt, would considerably multiply the work.

8. I have already reported that the dependants of weavers on relief at their own trade—whether Telugus or Uriyas will not come into kitchens—will have to be granted grain doles. I am now enquiring whether such persons would take cooked food in a separate kitchen controlled by the head of their caste at each large centre, but I doubt that they will agree to do so.

9. I would again urge the desirability of granting a B wage for weavers and the calculation of the woman's share of the work at a full day, even if she only is actually employed in subsidiary weaving operations for half a day only. She has to work for

the men of the family, her work is limited by the men's work and she cannot perform any other remunerative employment except perhaps the collection of fire wood which is not allowed for in the wage.

10. I request that I may be informed by wire whether the task-table is approved pending the result of actual experience.

Enclosure I.

Proceedings of the Collector of Ganjám, dated Chatrapur, 14th March 1897, R. C. No. 526-Famine.

Order.—Pending the preparation and sanction by Government, of a detailed task-table for all kinds of cloth to be woven under famine relief in the district, the Acting Collector directs that the following samples of cloth only shall be woven for the present:—

	Thread.	Cubits.
(1) Man's cloth—		
(*a*) Rekkachapu (Telugu)	No. 20	13×2.
(*b*) Khoddi (Uriya)	Nos. 12 & 14	13×2.
(2) Woman's cloth—		
(*a*) Pancha (Telugu)	No. 16	18×2.
(*b*) Khoddi (Uriya)	Nos. 14 & 16	18×2.
(3) Woman's cloth (Uriya)	No. 12	13×2.

The cloth will be plain unbordered and white twist only will be used for the present.

2. The wages will be calculated at the wage of 1 man and ½ woman for C class for the period shown in columns 12, 13 and 14 of the temporary task-table regulated by the price of the week in which payment is made. This wage will be based on ragi in the Principal Assistant Collector's Division and on ¼ ragi and ¼ rice elsewhere.

3. No cash advance can be given except for cost of paste and oil in proportion to the amount of thread advanced and at the rate shown in column 10 of the statement, but the following allowance will be made to weavers bringing in cloth, duly woven, from a distance:—

From 2½ to 5 miles distance	Half a day's wage in a week.
Over 5 miles distance	One day's wage in a week.

Cloth, previously woven by weavers but not woven from thread advanced, cannot be accepted at the depôts.

4. Divisional Officers are requested carefully to watch the working of the task-table with a view to its revision, after actual experiment if necessary. They are requested to submit their proposed task-table in the form called for in B.P., dated 10th February 1897, No. 121, at a very early date.

5 Care should be taken to check the experimental table with the result of actual experience especially in reference to the figures entered in columns 4, 6, 12 and 13.

(Signed) H. D. TAYLOR,
Ag. Collector.

Resolution—dated 26th April 1897, No. 319.

The task-table is approved generally, and it may be adopted tentatively pending the preparation of a revised table on the lines of the Adóni task-table, as ordered in B.P. No. 278 of 1897. The Collector should, however, try to reduce the number of kinds of cloths to be woven.

2. The proposal to advance only white thread and to pay the cost of the other materials required is against the orders of Government communicated in B.P., dated 10th February 1897, No. 121; the course prescribed in that G.O. should be adopted.

3. The proposal to pay a full day's wage to women, though they may not be employed the whole day in subsidiary weaving operations, is approved, pending the revision of the task-table, when the point should be again considered and reported on. The question of granting B class wage to weavers is under investigation.

4. The figures in the task-table seem to require further checking. In the case of item No. 8 in the table, 12 cubits are shown to be equivalent to 18 feet, while 2 cubits are shown as equal to 2 feet 4 inches only. The description of the cloths as "male cloths" and "female cloths" should also be altered into "men's cloths" and "women's cloths."

5. The following telegram will be despatched to the Collector:—

"Weavers' task-table approved generally, but all thread required must be advanced. Money advances prohibited.".
