The Board is requested to ascertain and report whether the claimants preferred any subsequent petitions in pursuance of the F.S.O's orders and how those petitions were disposed of.

MARCH.

Submitting to Government, for approval and publication in the *Fort St. George Gazette*, draft notification under section 16 of the Forest Act for the constitution of the Ponniar block in the Tiruvannámalai taluk, South Arcot District, as a reserved forest.

PROCEEDINGS OF THE BOARD OF REVENUE
(LAND REVENUE).

READ—the following letter from G. W. DANCE, Esq., Acting Collector of South Arcot, to the Secretary to the Commissioners of Land Revenue (through the Conservator of Forests, Central Circle), dated 5th June 1896, Forest C. No. 351 :—

I have the honour to report the conclusion of the settlement of the Ponniar proposed reserved forest No. 88 in the Tiruvannámalai taluk of this district.

2. I enclose the Forest Settlement-officer's letter, Ref. on No. 191, dated 15th February 1895, with its enclosures, namely :—

(1) B. Register of claims.
(2) Draft notification under section 16.
(3) Sketch-map.

3. Further, in accordance with orders, I append my District Forest-officer's statement of area and condition.

Statement of Area and Condition.

4. The area of the block as notified under section 4, was 50,000 acres, but on account of the exclusions ordered at settlement, nearly 414 acres have been thrown out, and 1,466 acres have been treated as enclosures free from reservation. The area of the block as settled is therefore 48,120 acres, which is the area entered in the sketch and the statement given above.

5. The submission to the Board of the Forest Settlement-officer's final report which was received in February 1895, was deferred for some time owing to the sketch-map having been sent to the Tiruvannámalai range officer for file in the Sub-Magistrate's Court in connection with a serious criminal case against certain forest subordinates, and after the sketch-map was received back, it was sent to the Forest Settlement-officer for reference in rectifying certain discrepancies noticed by the District Forest-officer in the Settlement records. The records were finally received back from the Forest Settlement-officer about the middle of September 1895, when the question of assigning the Husseinagaram tank to a Tanjore mirasidar was under report to the Board (*vide* Dis. No. 3026-Ver., dated 20th December 1895), and pending final orders on the subject, the Forest Settlement officer's final report was detained so that exclusions from the block, if any, ordered by the Board might be given effect to once for all. As the Board, however, does not seem to contemplate any exclusions, the papers are forwarded.

ENCLOSURE No. 1.

From M.R.Ry. C. RAJU SASTRIAR Avergal, Forest Settlement-officer, Trichinopoly, &c., Districts, to the Collector of South Arcot, dated Vijiamangalam, 15th February 1895, Ref. on No. 191.

I have the honour to report the conclusion of the settlement of the Ponniar block No. 88, Tiruvannámalai taluk, all the events noted in section 16 of the Madras Forest Act (V of 1882) having occurred.

2. This block comprises portions of 26 villages ; namely, Melvanakkambadi, Perasayppattu, Talaiyuru, Ariyakunjur, Pinjur, Sorappanandal, Sattanur, Viranam, Kilvanakkambadi, Tandarampattu, Olagalappadi, Malamanjanur, Velur, Veppurchekkadi, Tanippadi, Reddipalaiyam, Kilapasar, Melappasar, Vellalampatti, Elankunni, Kurumapatti, Manikkal, Puliyampatti, Karingalippadipatti, Tambunayakkampatti and Mannattyappatti. The notification under section 4 of the Forest Act, proposing the constitution of the block into a reserved forest, appeared in the *Fort St. George Gazette*, dated 9th December 1890, and the proclamation under section 6 was issued on the 17th idem, fixing 30th April 1891 as the date within which claims should be preferred in respect of it. The settlement of the block was commenced in the beginning of 1892, but after some progress, had to be postponed under urgent orders of the Board to proceed to Madura to work in that district. It was resumed towards the close of 1893 when I returned to the Tiruvannámalai taluk and completed on 3rd December 1894. The appeal time expired on the 1st instant, without any appeal being preferred.

3. One hundred and twenty-one claims were preferred in respect of this block. Of these one was transferred to Mr. W. C. McMurray, as it was found to relate to a block under settlement by him, and four were returned to the parties as being indefinite. The remaining claims related to temples, rights of way, burial and burning grounds, patta and sivoijama lands, local fund quarries, lands for grazing and extension of cultivation, and right to the use of the water-sources and to the usufruct of patta trees. Of these, the claims to sivoijama lands and lands for pasture and extension of cultivation were rejected as not based on right ; the claims to certain patta lands and quarries were dismissed, as the lands, &c., concerned were found to be outside the block ; three patta trees were surrendered to Government by the claimant, and certain lands, temples and burial and burning grounds were thrown out of the block by revision of its boundary. As the village-sites of Ariyakunjur and Veppurchekkadi lay within the block, they were demarcated out into two large enclosures with almost all the patta lands around them, and also some additional lands for extension of cultivation. Of the other lands claimed, 43·44 acres were acquired in exchange for other lands and 185·15 acres were excluded from reservation and left as enclosures within the block. The claims to 26 rights of way, ten temples, two burning grounds, and to the right to the usufruct of 48 patta tamarind trees and to the use of the water of five water-sources were also admitted.

4. I beg that three months time may be allowed for the promulgation of the final notification under section 16 from the probable date of its appearance in the *Fort St. George Gazette.*

RESOLUTION—Forest No. 116, dated 16th March 1897.

The draft final notification in respect of the Ponniar block, received with the letter read above, will be submitted to Government with the following remarks for approval and publication in the *Fort St. George Gazette*:—

(i) *Claim XII.*—Field No. 3 K, acquired in this case, as well as certain other numbers similarly dealt with in other claims, should have been marked on the sketch-map so as to admit of verification in this office.

(ii) *Claim XVII.*—The extent of the field excluded in this claim should have been recorded in the B. register.

(iii) *Claim LXX.*—The exact situation of the temple is not given. The same remark holds good in respect of the temples admitted as enclosures in claim XC. It is also noted that the path to the Thuval Mariamman kovil has not been described in the settlement records. The necessary insertions have been made in the register and notification in accordance with the map.

(iv) In the case of the Veppur-Chekkadi and Ariyakunjur villages demarcated out as enclosures, it would have been well if statistics regarding patta holdings and the extent allowed for extension of cultivation had been given in the settlement records, so as to enable the Board to see whether the usual margin of 200 per cent. of the occupied lands had been allowed in the case of these villages. The Collector is requested to see that the information is invariably supplied in future.

2. It would appear from a petition disposed of in Board's Proceedings, Forest Mis. No. 124, dated 28th January 1896, and subsequent correspondence noted on the margin, that the question of the assignment of a certain ruined tank known as the Hussain Agaram tank, said to have been included in the Pinjur and Ponniar blocks, is still under the consideration of the Board. The tank is, however, not indicated on the map submitted. There has already been considerable delay in the submission of this settlement report, and in the scrutiny of the settlement records in this office, and the Board does not consider it necessary to keep the matter pending till the question of the tank is decided. If it is eventually decided to give the tank over to private parties, the land can then be disafforested.

Board's Proceedings, Forest Mis. No. 728, dated 22nd May 1896.
Board's Proceedings (Revenue Settlement &c.), Mis. No. 3064, dated 20th June 1896.

3. The block covers an area of 48,120 acres as finally settled and may be declared "reserved" from the 30th June next.

Reserved Forest.

The draft notification, under section 16 of the Madras Forest Act, for the constitution of the Ponniar block in the Tiruvannámalai taluk as a —, ordered, with remarks, to be published in the Fort St. George and the South Arcot District Gazettes.

GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

Read—the following Proceedings of the Board of Revenue (Land Revenue), Forest No. 116, dated 16th March 1897 :—

Read—the following letter from G. W. DANCE, Esq., Acting Collector of South Arcot, to the Secretary to the Commissioners of Land Revenue (through the Conservator of Forests, Central Circle), dated 5th June 1896, Forest C. No. 351 :—

I have the honour to report the conclusion of the settlement of the Ponniar proposed reserved forest No. 88 in the Tiruvannámalai taluk of this district.

2. I enclose the Forest Settlement-officer's letter, Ref. on No. 191, dated 15th February 1895, with its enclosures, namely :—

(1) B. Register of claims.
(2) Draft notification under section 16.
(3) Sketch-map.

3. Further, in accordance with orders, I append my District Forest-officer's statement of area and condition.

Statement of Area and Condition.

Taluk.	Number and name of block.		Total area of the taluk.	Extent of Government land.		Area of reserves already notified under section 16.	Area of reserves under settlement.	Area of reserve now submitted.	Character of land proposed for reservation		Sketch-map.

4. The area of the block as notified under section 4, was 50,000 acres, but on account of the exclusions ordered at settlement, nearly 414 acres have been thrown out, and 1,466 acres have been treated as enclosures free from reservation. The area of the block as settled is therefore 48,120 acres, which is the area entered in the sketch and the statement given above.

5. The submission to the Board of the Forest Settlement-officer's final report which was received in February 1895, was deferred for some time owing to the sketch-map having been sent to the Tiruvannámalai range officer for file in the Sub-Magistrate's Court in connection with a serious criminal case against certain forest subordinates, and after the sketch-map was received back, it was sent to the Forest Settlement-officer for reference in rectifying certain discrepancies noticed by the District Forest-officer in the Settlement records. The records were finally received back from the Forest Settlement-officer about the middle of September 1895, when the question of assigning the Husseinagaram tank to a Tanjore mirasidar was under report to the Board (*vide* Dis. No. 3026-Ver., dated 20th December 1895), and pending final orders on the subject, the Forest Settlement-officer's final report was detained so that exclusions from the block, if any, ordered by the Board might be given effect to once for all. As the Board, however, does not seem to contemplate any exclusions, the papers are forwarded.

Enclosure No. 1.

From M.R.Ry. C. RAJU SASTRIAR Avergal, Forest Settlement-officer, Trichinopoly, &c. Districts, to the Collector of South Arcot, dated Vijiamangalam, 15th February 1895 Ref. on No. 191.

I have the honour to report the conclusion of the settlement of the Ponniar block No. 88 Tiruvannámalai taluk, all the events noted in section 16 of the Madras Forest Act (V of 1882 having occurred.

2. This block comprises portions of 26 villages ; namely, Melvanakkambadi, Perasayppattu, Talaiyuru, Ariyakunjur, Pinjur, Sorappanandal, Sattanur, Viranam, Kilvanakkambadi, Tandarampattu, Olagalappadi, Malamanjanur, Velur, Veppurchekkadi, Tanippadi, Reddipalaiyam, Kilapasar, Melappasar, Vellalampatti, Elankunni, Kurumapatti, Manikkal, Puliyampatti, Karingalippadipatti, Tambunayakkampatti and Mannattyappatti. The notification under section 4 of the Forest Act, proposing the constitution of the block into a reserved forest, appeared in the *Fort St. George Gazette*, dated 9th December 1890, and the proclamation under section 6 was issued on the 17th idem, fixing 30th April 1891 as the date within which claims should be preferred in respect of it. The settlement of the block was commenced in the beginning of 1892, but after some progress, had to be postponed under urgent orders of the Board to proceed to Madura to work in that district. It was resumed towards the close of 1893 when I returned to the Tiruvannámalai taluk, and completed on 3rd December 1894. The appeal time expired on the 1st instant, without any appeal being preferred.

3. One hundred and twenty-one claims were preferred in respect of this block. Of these one was transferred to Mr. W. C. McMurray, as it was found to relate to a block under settlement by him, and four were returned to the parties as being indefinite. The remaining claims related to temples, rights of way, burial and burning grounds, patta and sivoijama lands, local fund quarries, lands for grazing and extension of cultivation, and right to the use of the water-sources and to the usufruct of patta trees. Of these, the claims to sivoijama lands and lands for pasture and extension of cultivation were rejected as not based on right ; the claims to certain patta lands and quarries were dismissed, as the lands, &c., concerned were found to be outside the block ; three patta trees were surrendered to Government by the claimant, and certain lands, temples and burial and burning grounds were thrown out of the block by revision of its boundary. As the village-sites of Ariyakunjur and Veppurchekkadi lay within the block, they were demarcated out into two large enclosures with almost all the patta lands around them, and also some additional lands for extension of cultivation. Of the other lands claimed, 43·44 acres were acquired in exchange for other lands and 185·15 acres were excluded from reservation and left as enclosures within the block. The claims to 26 rights of way, ten temples, two burning grounds, and to the right to the usufruct of 48 patta tamarind trees and to the use of the water of five water-sources were also admitted.

4. I beg that three months time may be allowed for the promulgation of the final notification under section 16 from the probable date of its appearance in the *Fort St. George Gazette*.

Resolution—Forest No. 116, dated 16th March 1897.

The draft final notification in respect of the Ponniar block, received with the letter read above, will be submitted to Government with the following remarks for approval and publication in the *Fort St. George Gazette*:—

(i) *Claim XII.*—Field No. 3 K acquired in this case, as well as certain other numbers similarly dealt with in other claims, should have been marked on the sketch-map so as to admit of verification in this office.

(ii) *Claim XVII.*—The extent of the field excluded in this claim should have been recorded in the B. register.

(iii) *Claim LXX.*—The exact situation of the temple is not given. The same remark holds good in respect of the temples admitted as enclosures in claim XC. It is also noted that the path to the Thuval Mariamman kovil has not been described in the settlement records. The necessary insertions have been made in the register and notification in accordance with the map.

(iv) In the case of the Veppur-Chekkadi and Ariyakunjur villages demarcated out as enclosures, it would have been well if statistics regarding patta holdings and the extent allowed for extension of cultivation had been given in the settlement records, so as to enable the Board to see whether the usual margin of 200 per cent. of the occupied lands had been allowed in the case of these villages. The Collector is requested to see that the information is invariably supplied in future.

2. It would appear from a petition disposed of in Board's Proceedings, Forest Mis. No. 124, dated 28th January 1896, and subsequent correspondence noted on the margin, that the question of the assignment of a certain ruined tank known as the Hussain Agaram tank, said to have been included in the Pinjur and Ponniar blocks, is still under the consideration of the Board. The tank is, however, not indicated on the map submitted. There has already been considerable delay in the submission of this settlement report, and in the scrutiny of the settlement records in this office, and the Board does not consider it necessary to keep the matter pending till the question of the tank is decided. If it is eventually decided to give the tank over to private parties, the land can then be disafforested.

Board's Proceedings, Forest Mis. No. 728, dated 22nd May 1896.
Board's Proceedings (Revenue Settlement &c), Mis. No. 3064, dated 20th June 1896.

3. The block covers an area of 48,120 acres as finally settled and may be declared "reserved" from the 30th June next.

Order—No. 346, Revenue, dated 18th May 1897.

Forest No. 74.

The draft notification will be published in the Fort St. George and South Arcot District Gazettes, the 31st July 1897 being entered as the date from which reservation shall take effect.

2. From the B Register it appears that claims to certain private lands and tanks preferred in claims Nos. XLII-71, LVII-2 and LVIII-5 were rejected on the ground that the petitioners did not state their rights in specific terms. The Board is requested to ascertain and report whether the claimants preferred any subsequent petitions in pursuance of the Forest Settlement-officer's orders and how those petitions were disposed of.
