Special Death-rate return.—Recording letter from the Sanitary Commissioner for Madras forwarding — for the district of Ganjam for the month of March 1897.

PROCEEDINGS OF THE BOARD OF REVENUE
(REVENUE SETTLEMENT, LAND RECORDS AND AGRICULTURE).

READ—the following letter from Surgeon-Lieut.-Colonel W. G. KING, M.B., C.M., D.P.H., Sanitary Commissioner for Madras, to the Secretary to the Board of Revenue (Revenue Settlement, Land Records and Agriculture), dated Fort St. George, 4th June 1897, No. 1193-S. :—

With reference to my letter No. 1175-S., dated 28th May 1897, I have the honour to forward herewith the statistics for the district of Ganjám for the month of March 1897.

ENCLOSURE.

SPECIAL Death-rate return for the famine affected districts for the month of March 1897.

District.	Death-rate of the month (per mille per annum).	Average death-rate of the month in ten previous years (per mille per annum).	Average death-rate of the month in ten previous non-famine years (per mille per annum).	Deaths from starvation.	
Ganjám	35.7	• 16.6	• 16.3	..	The rise in mortality is chiefly due to cholera and small-pox.

* The rates have not been calculated on the estimated population as it has been found not possible to estimate the population correctly owing to the fluctuations in the populations for which returns were received from this district. Again the average rates of five years instead of ten years are given, as the populations for which returns were received are not available from 1892—95.

RESOLUTION—dated 16th June 1897, No. 443.

Recorded.
(True Copy and Extract.)

JUNE.

Death-rate Return.—Recording, with remarks, letter from the Sanitary Commissioner for Madras forwarding the special — for the famine-affected districts of Ganjám and Vizagapatam for February 1897 and Vizagapatam for March 1897.

PROCEEDINGS OF THE BOARD OF REVENUE
(REVENUE SETTLEMENT, LAND RECORDS AND AGRICULTURE).

READ—the following letter from Surgeon-Lieutenant-Colonel W. G. KING, M.B., C.M., D.P.H., Sanitary Commissioner for Madras, to the Secretary to the Board of Revenue (Revenue Settlement, Land Records and Agriculture), dated Fort St. George, 28th May 1897, No. 1175-S. :—

With reference to my letter No. 1070-S., dated 13th May 1897, I have the honour to forward herewith the statistics for the districts of Ganjám and Vizagapatam for February 1897 and Vizagapatam for March; those for Ganjám, for the latter period, are not yet to hand.

SPECIAL death-rate return for the famine-affected districts—February 1897.

Districts.	Death-rate of the month (per mille per annum).	Average death-rate of the month in five * previous years (per mille per annum).	Average death-rate of the month in five * previous non-famine years (per mille per annum).	Deaths from starvation.	Remarks.
Ganjám	28.8	15.0	14.3	..	Increase during this month chiefly due to prevalence of cholera and small-pox.
Vizagapatam	16.8	15.6	15.9	..	

* As the populations for which returns were received are not available according to the census of 1891 from 1892—95, it has not been found possible to calculate the average rates for ten previous years. Average rates are consequently given only for the five years ending 1891.

SPECIAL death-rate return for the famine-affected districts—March 1897.

District.	Death-rate of the month (per mille per annum).	Average death-rate of the month in five * previous years (per mille per annum).	Average death-rate of the month in five * previous non-famine years.	Deaths from starvation.	Remarks.
Vizagapatam	20.6	14.6	14.8	..	The increased death-rate is due to cholera and small-pox.

* As the populations for which returns were received are not available according to the census of 1891 from 1892—95, it has not been found possible to calculate the average rates for ten previous years. Average rates are consequently given only for the five years ending 1891.

RESOLUTION—dated 7th June 1897, No. 419.

Recorded.

2. It is presumed that the figures have been reported to the Government of India by the Sanitary Commissioner.

3. The figures now reported in columns 3 and 4 against Vizagapatam differ from those already given in the corresponding columns of the statements accompanying the Sanitary Commissioner's letter, No. 1070-S., dated 13th May 1897. The difference is due to a five years' average being taken in one case and a ten years' average in another.
