2. This is one of the blocks printed in italics in the talukwar statement of further selections in the district, which the Forest Member, while on tour in the district, decided to abandon (*vide* paragraph 2 of Board's Proceedings, Forest No. 61, dated 8th February 1896). Subsequently, the Board having received a petition from certain villagers objecting to the reservation of the said block, the matter was referred to the Collector for report. In reporting on the above petition, the Collector urged the reservation of the block on the grounds—

- (1) that some of the blocks under one square mile in the taluk having been already abandoned under the recent forest policy, blocks of over one square mile, like the present, should be brought under reservation to meet the requirements of the villagers in the matter of firewood, manure, leaves, &c.;
- (2) that the proposed block contains teak and other valuable species; and
- (3) that the 100 yards kumaki has been excluded besides other waste lands.

For the above reasons, the Board has no objection to raise against the proposed reservation of the block.
