

Revenue (1897) Department.

MISCELLANEOUS SERIES.

G.O., No. 3653

DATED 16th July 1897

[Despatch Abstract.]

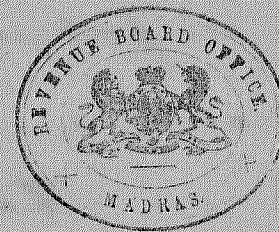

Recording 1st Reg^d Col^l of Vizagapatam
to report what action was taken on his reference
to the Sup^d Engineer regarding the programme
of Famine Relief Works in the Samasiddhi Taluk
& reg^d the Chief Engineer to instruct the Sup^d
Engineer by wire that in estimating the utility
of the works proposed by the Col^l he must take
into account their usefulness for purposes of
immediate famine relief as well as their value
as works of irrigation.

Dated 7th July 1897.

No. 5049 Miscellaneous

READ the following letter from the collector
of Vizagapatam to the Superin-
tending Engineer, 1st circledated
21st June 1897 R.C. No. 2490 of 97:-

I addressed the Executive
Engineer in my letter no. 2490 dated
18th instant asking him among
other things to be ready at short
notice to take up as famine
works the Sarada and Varaha
river embankments in the
Sarvasiddhi Taluk, and inform
him that I would be willing
to receive any suggestion as to
works which could be substituted
for

for them.

2. In reply he informs me that he has a great number of works available in that Taluk which he can confidently recommend as useful public works, but has absolutely no hope of being able to put these in hand owing to your disapproval and want of sanction.

3. The state of the district is such that I must have works in all Taluks ready to put in hand, and I now have the honor to request that you will inform me by return which works in the Sarva sidhi Taluk on your programme are to be considered as available, and if none are available for want of your approval of the schemes, that you will take immediate measures to approve at least two large works, principally

Earthwork and to inform me which they are.

Read also the following endorsement from the collector of Virajpatnam on the letter read above dated 21st June 1897:

Submitted to The Famine Secretary, Board of Revenue.

The number of works appearing in my Famine Programme is largely curtailed because the Superintending Engineer considered works which have hitherto appeared in the O. P. W. list, and which I have considered available, to be useless.

Resolution

Recorded.

2. The collector will report without delay what action was taken on his reference to the Superintending Engineer given above

3. It is plain that the rules of the Public works department operate directly to prevent it from taking a proper share in the preparation of the Famine programme and Government is requested to send orders direct to the Superintending Engineer to comply with the collector's requirements.
