REVENUE BOARD OFFICE MADRAS.

Proceedings of the Board of Revenue

(Revenue Settlement, Land Records and Agriculture.)

Dated 13th July 1897.

No. 5289 Mis.

READ the following letter from the Executive Engineer Kurnool to the collector of Kurnool dated 15th June 1897 No. 1353.

Reference your No. 1826 of 2nd June 1897 regarding revised rules.

Your para 1 (Rule 8) I have the honor to state that your scale will be adopted.

Rule 19. The last two sentences of Rule 19 have been struck out Board's Proceedings are sometimes modified by Government and

I

I consider it is always safer to wait for Government orders on questions raised. I donot for a moment wish to state that Board's Proceedings are not binding on the Public Works Department, but I prefer to wait for the Government order.

Rule 25. This rule has now been cancelled. I have already instructed some Sub-Divisional officers to utilize the Batties in making huts and now General orders will issue.

Rule 28. The following modification is proposed generally in the absence of a medical Subordinate "Children measuring 4'3" in height and over should be classed as adults, but the officer in charge should use the rule intelligently and Considerately - Where there is a medical Subordinate visiting the work the decision should be left to him."

Rule 32 modified. "As the Government have sanctioned the distribution of gratuitous relief in villages throughout the affected taluks, it will not be now necessary to include in any M. R. Roll any person who is not actually present on the workspot. The entries in M. R. Roll should be confined strictly to those on the workspot."

Rule 34 added. "Under orders Contained in Government Order No. 216 dated 30th March 1897 task should be modified wherever necessary to suit the capacity of the workers. These

"These modifications can be arranged by the overseer and Revenue divisional officers in direct correspondence with each other".

I object to the word Overseer and would suggest Sub Divisional officer, for the reason that some of the so called overseers are but temporary subordinates who can not intelligently settle any task. It is the Sub-Divisional officer who sees to the tasks in most cases and he it is who should correspond with the Revenue Divisional officer. I have added the rule for your approval but I consider it wrong.

Read also the ~~following~~ endorsement thereon from the collector of Kurnool dated 17th June 1897 R.C No. $\frac{1826}{Eng}$ of 97.

Copy submitted to the Board for information, in continuation of this office R.C No. $\frac{1826}{Eng}$ of 97 dated 2nd June 1897. With reference to rule 25 the Executive Engineers attention has been drawn to Board's Proceedings No. 426 of 1897.

Resolution

Recorded.

2. With reference to rule 34, it is observed that as "Overseer" is the word used by Government in para 3(ii) of Government Order No. 216 of 1897, it should be retained; but there is no objection to adding a clause to the effect that

that the term applies only to permanent overseers and not to temporary subordinates, and that in case of the latter, the sub divisional officer should be Consulted.

3. With reference to the Executive Engineer's remarks on rule 19, the Famine Commissioner observes that Mr. Johnston is an officer who has always worked without friction with the Revenue authorities, but that he is wrong in waiting for the Orders of Government before taking action on the Proceedings of the Famine Commissioner. The control of the Famine Commissioner under Section 3 of the Famine Code is without limit and his rulings should

should be accepted and acted on without demur.
