The Famine Commissioner was surprised to find on inspecting the weaver's Depot at Proddatur that the cloths were, for want of proper scales and weights being weighed against stones on the 10th April 1897 the Collector reported that he had just found that this was the case at Janu malnadugu, and though he was directed on the 17th April 1897 to procure proper Scales and weights at once, it was not until the 24th May that this order was complied with. The same objectionable arrangement now prevails at Proddatur and the

The collector is requested to remedy it at once and report date of doing so, suitable scales at a reasonable price are as the special Deputy collector for weaving operations reports, available at Messrs Massey & Co's, Madras.

READ the following letter from the
Collector of Cuddapah dated
14th June 1894 Reference
No. 492 of 1894.
H

With reference to Board's
Proceedings No. 4245 Mis.
dated 11th June 1894, I
have the honor to state that
the want of proper scales in
the Weavers' depôts is entirely
due

due to the delay on the part
of the General Superintendent
Public Works workshops in
complying with the indents
made on him.

(2) The original indent
was for 2 Scales and this
was sent in December 96 by
the Treasury Deputy Collector.
The Superintendent, Work-
shops, asked the Special
Deputy Collector Jammal-
madugu for information on
certain points, which was
furnished to him by that

Officer on 31st January 94,

on the 14th April 94, the

Superintendent reported that

The

The J.D.C. wanted
2 1/2 months, without
sending a reminder
of purchasing them
from Jammalmadugu

the two scales with weights had
been put in hand in the
early part of February 94
and that they had been
almost completed. In my
Reference on Current No. 7290
of 96 dated 19th April 94,
I asked the Superintendent
to complete the scales at
once, and send them to the
Tahsildar of Jammalmadugu.
In the same letter I also
asked for 4 more scales
and weights as more appraisers
had been entertained at
Jammalmadugu and a
depot had been proposed
of

to be started at Prodatur.
In his letter dated 1st May
94 received by me 6th May
94, at Camp Payalapuram
the Superintendent informed
me that the two scales origin-
ally applied for were being

begin in the
early part of Feb
& not completed on
the 1st May

Completed and would be
forwarded as soon as possible,
and furnished me with a price
list of scales obtainable locally.

should have
done in Dec.

In my letter dated 11th May
94, I asked the Superintendent
to supply the scales available
without any delay and pointed
out to him that the want of
scales was very much felt.
In view of 2 additional

scales

scales were sent out on 18th
May 94 and 28th May 94.

The Superintendent reported
in his telegram received on
31st May 94 in reply to mine
of the 28th idem, that he had
despatched to the Tahsildar
of Jammalmadugw 4 scales
on 18th May 94 and one
on 26th May 94. From the
Tahsildar's report, however, it
appears that 2 scales were
received on 24th May 94
and that advices for the
rest were received subsequently,
the last one for one pair —
having reached the Tahsildar
only on the 30th. The Superintendent
intimated

from the early part
of February to the
18th May -

intimated in his letter No. 123
dated 2nd June 94 received
on 6th June 94, that another
pair of scales was being
despatched to Jammalamadugu.

In my letter Reference 7290 of
96 dated 8th June 94, I
reminded ~~him~~ that Officer
that 2 more scales were due
from him and sent him
another reminder on the 15th
instant. I have this day
sent him a wire. The scales
were not purchased from
private firms as the Superin-
tendent had been promising
to supply them. If the Board
thinks a separate order should
now

This is a very small
amount. I don't think
the Government should
other districts manage
when the Superintendent
is to have over it, the
affairs should

that he cannot be
relied upon, I should
have purchased them
from private firms

now be sent to Messrs. Massey
and Co, I shall be much obliged
if it will send the order —
direct and avoid further —
delay.

(3) I have already brought
the delay on the part of the

Public Works Department &
Reference 7290 of
96 dated 10.4.94
the notice of the Board in
the marginally noted Communica-
tions and the attention of
that department was called
by Government to the delay
in this respect. Vide Govern-

The Collector and his Deputy are also ^{much} to blame ~~in~~ not having ~~made~~ made other arrangements for the purchase of the articles when they saw that the Supt could not supply ^{in time} ~~now~~ and in ^{handed} ~~handing~~ him further orders on the 19th April although the first indent which even then four months old had not been complied with. The facts set forth in the Collector's letter are creditable neither to the P.W. Workshops nor to the Administration. The Supt had apparently no appliances ready for the manufacture of scales and weights; if so he ought to have informed the Collector of the fact on receipt of the first indent and of the likelihood of considerable delay in the manufacture of the articles ordered. The Collector and his Divisional officer are also much to blame in not having made other arrangements for the supply of the articles when they saw that the Supt could not furnish more in time. The explanation in the penultimate sentence of para 2 of the Collector's letter cannot be accepted.
