FURTHER PAPERS.

G.O.	No.	Department.	Date.

BOARD OF REVENUE (LAND REVENUE), FOREST No. 76, 22ND FEBRUARY 1897.

PROCEEDINGS OF THE BOARD OF REVENUE (LAND REVENUE).

READ—the following Government Order, Mis. No. 4990, Revenue, dated 7th December 1896:—

Read—Proceedings of the Board of Revenue (Land Revenue), Forest Nos. 256, 1011, Mis. 321 and 426, dated 9th June, 20th July, 20th July and 12th September 1896, respectively.

Order—Mis. No. 4990, Revenue, dated 7th December 1896.

The Board's proposed alterations in the list of classified trees have been carefully considered by Government, which desires before issuing final orders on the matter to be in possession of more detailed reasons for the proposals. The Board will accordingly be requested to state the grounds upon which it has recommended either (1) enhancement of rates, or (2) the transfer of trees from the classified to the reserved list, in cases which have not been dealt with in detail in the Proceedings already submitted. The issue of the Forest Manual need not be deferred pending the passing of final orders on this question. The classified lists, as finally revised, may be published as an addendum thereto.

(True Extract.)

(Signed) LIONEL DAVIDSON,
Under Secretary to Government.

To the Board of Revenue (Land Revenue).

RESOLUTION—Forest No. 76, dated 22nd February 1897.

In reply to the Government Order read above calling for more detailed reasons for the proposed alterations in the lists of classified trees for the several districts in the Presidency, the Board resolves to submit to Government the accompanying statement A containing full particulars of the proposed changes together with the reasons therefor. It will be observed from the abstract statement B appended that, except in a few districts of the Northern and Southern Circles, the proposed revision will, if approved by Government, materially reduce the total number of trees at present entered in classes I and II. The details of classification of course vary in several instances, as they have been arranged "in accordance with the local requirements of the several districts" as required by rule 4 of the general rules under section 26 of the Forest Act.

2. All trees which do not find a place either in class I or class II in the existing lists were regarded as belonging to class III and charged for accordingly (*vide* entry "all other descriptions of trees" under class III in the sanctioned lists), until the issue of the revised rules under section 26 of the Act, after which, as a temporary arrangement pending a systematic revision of the classified lists, the Board directed in Proceedings, No. 133, dated 5th March 1895, that all trees not specifically named in class III should be treated as "unclassified trees." In the revised lists now submitted, a

number of trees have been reduced from class I or class II to class III and only a few important trees not coming either under class I or class II have been entered under class III, while many other species have been left out as "unclassified trees" for the free use of the villagers for agricultural or domestic purposes. Thus everything has been done to simplify the lists of classified trees and to render the concession granted in rule 7 of the rules under section 26 practically valuable to the people.

3. The sanctioned rates for a cart-load of classified wood in the rough are Rs. 5, Rs. 2-8-0 and Rs. 1-4-0, respectively, for the three classes; but, in the districts of Malabar, South Canara and Nilgiris, the rates are given at so much per tree as already explained in paragraph 4 of Board's Proceedings, Forest No. 321, dated 20th July 1896. No change is contemplated in the sanctioned rates except in the last named two districts, where a slight enhancement is found necessary with reference to the general rise in the local market rates.

4. The sanctioned list of reserved trees is embodied in rule 4 of the rules under section 26. Such of the reserved trees as are included in the existing lists of classified trees, but which it is deemed desirable to restore to the list of reserved trees, are shown separately in statement A now submitted.

Mimosa elengi.		

Statement showing the alterations proposed in the existing lists of classified trees for the several districts in the Presidency—cont.

Key.—The Roman figures against the names of trees in columns 2 and 3 represent respectively the class in the existing and proposed lists.

Names of districts.	Names of reserved trees under rule 4 of the existing list of classified trees but proposed to be omitted therefrom.	Names of reserved trees under rule 4 of the existing list of classified trees but proposed to be newly included in the list of classified trees.	Transfers from a lower to a higher class.		Transfers from a higher to a lower class.	Omitted from the existing list of classified trees.	Remarks.
	1	2	Class II to class I.	Class III to class I.	Class III to class II.		
Kistna ..	Acacia sandra (class II).		1. Adina cordifolia. 2. Stereogyne parvifolia. 3. Acacia Arabica. 4. Eucalyptus jambolana.	1. Acacia leucophylla. 2. Albizia procera. 3. Mimosa elatior. 4. Dalmanea indica. 5. Dalmanea indica. 6. Strychnos potatorum.		1. Terminalia arjuna, I. 2.	In this and the Kurnool district, Adina cordifolia and Stereogyne parvifolia have been transferred from class II to class I on account of their comparative scarcity and the value of their timber. They are already in class I in almost all the other districts of the circle. The remaining five trees proposed under class I in Kistna are reported to be valuable as "Alumina ketch" and as regards Nos. 1, 2 and 3 shown under "transfers from class II to class I," please see remarks already entered against the same species of trees in Kistna and Godavari. The scarcity for including "Lagerstrœmia parvifolia" in class I has already been explained in the remarks against its timber. Of the trees transferred from class III to class II, No. 1 is valuable for its bark and Nos 2 and 3 for their fruits and the remaining species have been proposed in a higher class on account of their comparative scarcity and the increased value of their timber.
Kurnool ..			1. Adina cordifolia. 2. Stereogyne parvifolia. 3. Acacia Arabica. 4. Eucalyptus jambolana.	1. Acacia leucophylla. 2. Albizia procera. 3. Mimosa elatior. 4. Dalmanea indica. 5. Dalmanea indica. 6. Strychnos potatorum.		1. Terminalia arjuna, I. 2.	The addition of Melia indica to class I is recommended on account of its being one of the very few valuable species to be found in the district. The tree proposed to be added to class II is very useful and is by no means plentiful. Its protection is necessary. Besides, there is much demand for the bark of Cassia fistula for dyeing and tanning purposes.
Bellary ..	1. Pterocarpus marsupium. 2. Bossia latifolia.			1. Melia indica ..		1. Dolichandrone crupa II. 2.	
Anantapur ..				1. Melia indica ..			

class II is very useful and is by no means plentiful. Its protection is necessary. Besides, there is much demand for the bark of Cassia fistula for dyeing and tanning purposes.

Statement showing the alterations proposed in the existing lists of classified trees for the several districts in the Presidency—cont.

Note.—The Roman figures against the names of trees in columns 2 and 3 represent respectively the class in the existing and proposed lists.

Names of districts.	Names of reserved trees under rule 4 of the existing list of classified trees but proposed to be newly included in the list of classified trees.	Names of reserved trees under rule 4 of the existing list of classified trees but proposed to be omitted therefrom.	Transfers from a lower to a higher class.		Transfers from a higher to a lower class.	Omitted from the existing list of classified trees.	Remarks.
	1	2	Class II to class I.	Class III to class I.	Class III to class II.		
Guddayah ..							
Nellore ..							
Chingleput ..	1. Artocarpus integrifolia, I. 2. Hardwickia binata, I. 3. Chloroxylon swietenia, I.						
North Arcot ..	1. Diospyros ebenum. 2. Hardwickia binata. 3. Shorea laccifera. 4. Chloroxylon swietenia.	1. Pongamia glabra, I. 2. Terminalia arjuna.					

Eugenia jambolana is an important tree and yields timber suitable for building purposes. It is already under class II in the existing lists of many other districts. The proposed list for the district shows only four species in class I and eight in class II against five and ten respectively in the existing list. Similarly only two species under class I and six under class II are proposed for the Nellore district against four and nine respectively in the existing list.

1. Strychnos nux-
vomica, I to III.
2. Acacia arabica, II to III.
3. Vitis altissima, II.

1. Vitis pubescens, I.
2. Phyllanthus emblica, I.
3. Theophrasta populnea, I.
4. Morinda citrifolia, I.
5. Dillenia bracteata, II.
6. Buchanania angustifolia, II.
7. Gardenia latifolia, II.
8. Stereospermum chelonoides, II.
9. Pterocarpus suberifolium, II.
10. Cassia siamea, II.
11. Diospyros chloroxylon, II.

1. Eugenia jambolana, I to II.
2. Melia indica, I to II.
3. Terminalia parvifolia, II.
4. Anthracocarpus cadamba, II.
5. Vitis pubescens, II.
6. Albizzia stipitata, II.
7. Terminalia glabra, II.

Now that it is proposed to omit eleven species under classes I and II from the existing list in order to render the concession granted under rule 7 of section 26 rules one of real benefit to the ryots, there is no reason why any of the reserved trees named in rule 4 of the rules under section 26 should be retained in the list of classified trees.

The remarks against the Chingleput trees apply with equal force to North Arcot also as regards the entries in column 2. Only two valuable species are proposed to be removed from class II to class I. These are already either under class I or class II in several other districts. Against this trifling increase, four species are put down for removal from a higher to a lower class and it is proposed to omit seven others altogether from the classified list.

Statement showing the alterations proposed in the existing lists of classified trees for the several districts in the Presidency—*cont.*

Note.—The Roman figures against the names of trees in columns 2 and 3 represent respectively the class in the existing and proposed lists.

Names of districts.	Names of "reserved trees" under rule 4 of the existing list of classified trees but proposed to be omitted therefrom.	Transfers from a lower to a higher class.			Transfers from a higher to a lower class.	Omitted from the existing list in addition to all trees falling in the existing list under the general head "all other descriptions of trees."	Remarks.
		Class II to class I.	Class III to class I.	Class III to class II.			
South Arcot ..	1. <i>Shorea laciniata</i> , I. 2. <i>Chloroxylon swietenia</i> , I. 3. <i>Diospyros melanoxylon</i> , I. 4. <i>Hardwickia binata</i> , I.				1. <i>Albizia odoratissima</i> , I to II. 2. <i>Acacia arabica</i> , II to III. 3. <i>Stereospermum xylocarpum</i> , I. 4. <i>Vitex pubescens</i> , I. 5. <i>Antilopeybalus cadamba</i> , II. 6. <i>Bauhinia thurifera</i> , II. 7. <i>Wrightia tinctoria</i> , II. 8. <i>Melastoma philippinensis</i> , II. 9. <i>Bauhinia racemosa</i> , II. 10. <i>Alangium lauratum</i> , II. 11. <i>Albizia odoratissima</i> , I to II. 12. <i>Acacia arabica</i> , I to II. 13. <i>Eugenia jambolana</i> , I to II. 14. <i>Strychnos nuxvomica</i> , I to III. 15. <i>Odina woderi</i> , II.	1. <i>Acacia ferruginea</i> , I. 2. <i>Albizia stipulata</i> , I. 3. <i>Stereospermum xylocarpum</i> , I. 4. <i>Vitex pubescens</i> , I. 5. <i>Antilopeybalus cadamba</i> , II. 6. <i>Bauhinia thurifera</i> , II. 7. <i>Wrightia tinctoria</i> , II. 8. <i>Melastoma philippinensis</i> , II. 9. <i>Bauhinia racemosa</i> , II. 10. <i>Alangium lauratum</i> , II. 11. <i>Albizia odoratissima</i> , I to II. 12. <i>Acacia arabica</i> , I to II. 13. <i>Eugenia jambolana</i> , I to II. 14. <i>Strychnos nuxvomica</i> , I to III. 15. <i>Odina woderi</i> , II.	The transfer of two species from a higher to a lower class and the omission of fifteen others from the existing list fully justify the proposed removal of four of the reserved trees from the classified list.
Tanjore ..							Nos. 1 and 2 in column 3 have been transferred to the classified list as in Trichinopoly. <i>Albizia odoratissima</i> has been entered under class II in the existing list for the Trichinopoly district. The wood of the other two trees transferred from class II to class I is valuable and, as it is not common, requires to be afforded better protection than a higher to a lower class and the Nos. 1 to 5 in column 2 are scarcely found on unreserved or reserved lands in the district. If they are found anywhere they should be reserved on account of their value as timber trees. Nos 6 and 7 in the same column are valuable for their flowers and fruit and the felling of the trees should therefore be prohibited. It will be noted that against this nominal prohibition, three trees are to be removed altogether from the classified list.
Trichinopoly ..	1. <i>Pterocarpus marsupium</i> , I. 2. <i>Diospyros ebenum</i> and <i>melanoxylon</i> , I. 3. <i>Dalbergia latifolia</i> , I. 4. <i>Hardwickia binata</i> , I. 5. <i>Shorea laciniata</i> , I. 6. <i>Bassia longifolia</i> , I. 7. <i>Bassia latifolia</i> , II.				1. <i>Acacia arabica</i> , I to II. 2. <i>Adina cordifolia</i> , I to II. 3. <i>Arceuthobium latifolia</i> , I to II. 4. <i>Zizyphus jujuba</i> , II. 5. <i>Vitex pubescens</i> , II. 6. <i>Stychnos nuxvomica</i> , I to III. 7. <i>Stereospermum chelonoides</i> , II.		Nos. 1 to 5 in column 2 are scarcely found on unreserved or reserved lands in the district. If they are found anywhere they should be reserved on account of their value as timber trees. Nos 6 and 7 in the same column are valuable for their flowers and fruit and the felling of the trees should therefore be prohibited. It will be noted that against this nominal prohibition, three trees are to be removed altogether from the classified list.

Statement showing the alterations proposed in the existing lists of classified trees for the several districts in the Presidency—*cont.*

Note.—The Roman figures against the names of trees in columns 2 and 3 represent respectively the class in the existing and proposed lists.

Names of districts.	Names of "reserved trees" under rule 4 of the existing list of classified trees but proposed to be omitted therefrom.	Transfers from a lower to a higher class.			Transfers from a higher to a lower class.	Omitted from the existing list in addition to all trees falling in the existing list under the general head "all other descriptions of trees."	Remarks.
		Class II to class I.	Class III to class I.	Class III to class II.			
Salem ..					1. <i>Melia indica</i> , I to II.		It will be noted that the number of trees in classes I and II of the existing list has been materially reduced in the proposed list, thus rendering the revision wholly beneficial to the people.
Madurai ..	1. <i>Pterocarpus marsupium</i> , I. 2. <i>Hardwickia binata</i> , I. 3. <i>Chloroxylon swietenia</i> , I.				3. <i>Michelia champaca</i> , I. 4. <i>Melia azadirachta</i> , II. 5. <i>Prosopis spicigera</i> , II. 6. <i>Zizyphus jujuba</i> , II. 7. <i>Morinda exserta</i> , II. 8. <i>Stephogyne parvifolia</i> , II. 9. <i>Zizyphus glabrata</i> , II.	1. <i>Vitex pubescens</i> , I. 2. <i>Gmelina arborea</i> , I. 3. <i>Prosopis spicigera</i> , II. 4. <i>Vateria indica</i> , II. 5. <i>Vitex altissima</i> , II.	Nos. 1 to 3 in column 2 are now scarcely found in unreserved lands. It is therefore unnecessary to retain them in the classified list. No. 1 in column 4 comes under class I in the existing list in almost all the other districts. Nos. 2 and 6
Tinnevely ..	<i>Bassia latifolia</i> ..				1. <i>Chickrassia tabularia</i> .	1. <i>Filicium decipiens</i> , I. 2. <i>Pecilonuron pauciflorum</i> , I. 3. <i>Bischofia javanica</i> , I. 4. <i>Litsea zeylanica</i> , I. 5. <i>Careya arborea</i> , I. 6. <i>Thepesia populnea</i> , I. 7. <i>Bauhinia angustifolia</i> , II. 8. <i>Cedrela toona</i> , II. 9. <i>Hemicyclia elata</i> , II. 10. <i>Stereospermum chelonoides</i> , II. 11. <i>Nephelium longana</i> , II. 12. <i>Pterocarpus suberifolium</i> , II. 13. <i>Cullenia excelsa</i> , II.	"Chickrassia tabularia" comes under either class I or class II in several other districts of the circle. The concessions made to the people by the proposed revision are apparent in the omission of 13 species of trees from the classified list.

are also first-class trees in most of the other districts of the Presidency. Nos. 3, 4 and 5 are likewise important species. In short, all the proposed transfers from a lower to a higher class are necessary for the sake of better protection of the remaining growth. The interests of the ryots have however been safe guarded by the removal of four species (now under class II) from the classified list.

Statement showing the alterations proposed in the existing lists of classified trees for the several districts in the Presidency—cont.

Note.—The Roman figures against the names of trees in columns 2 and 3 represent respectively the class in the existing and proposed lists.

Names of districts.	Transfers from a lower to higher class.						Remarks.	
	Class II to class I.		Class III to class I.		Class III to class II.			
1	2	3	4	5	6	7	8	9
South Coimbatore.	1. Shorea lacifera, I. 2. Xylia dolabriformis, I. 3. Pterocarpus marsupium, I. 4. Artocarpus integrifolia and hirsuta, I. 5. Mangifera indica, II.	..	1. Terminalia tomentosa. 2. Terminalia paniculata. 3. Lagerstromia microcarpa.		1. Nauclea parvifolia. 2. Albizzia amara. 3. Prosopis spicigera, II. 4. Anthocephalus cadamba, II. 5. Michelia champaca, II. 6. Vitex altissima, II.	1. Acacia leucophleba, I (1 to II). 7. Zizyphus jujuba, II. 8. Zizyphus xylopyra, II. 9. Vateria Indica, II.	1. Soymida febrifuga, I. 2. Gmelina arborea, I. 3. Prosopis spicigera, II. 4. Anthocephalus cadamba, II. 5. Michelia champaca, II. 6. Vitex altissima, II.	The conservation of the trees named in column 2 is reported to be necessary. Hence they have been restored to the list of reserved trees. The trees named in column 4 are more valuable than the others in class II. Hence their transfer to a higher class. The transfer of two trees (column 6) from class III to trees (column 6) from class III to class II is for better protection. Against the transfer of five others from a lower to the classified list and one tree transferred to a lower class. Thus the revision is not, on the whole, unfavourable to the public.
North Coimbatore.	1. Shorea turrobuga, I. 2. Shorea lacifera, I. 3. Xylia dolabriformis, I. 4. Pterocarpus marsupium, I. 5. Artocarpus integrifolia and hirsuta, I. 6. Mangifera indica, II.	..	1. Terminalia tomentosa. 2. Albizzia Lebbek. 3. Albizzia odoratissima. 4. Cassia fistula. 5. Adina cordifolia. 6. Canarium strictum.		1. Acacia planifrons. 2. Chloroxylon swietenia, I to II. 3. Prosopis spicigera, II. 4. Anthocephalus cadamba, II. 5. Michelia champaca, II. 6. Vitex altissima, II. 7. Zizyphus jujuba, II. 8. Zizyphus xylopyra, II. 9. Vateria Indica, II.	1. Acacia leucophleba, I to II. 2. Chloroxylon swietenia, I to II. 3. Prosopis spicigera, II. 4. Anthocephalus cadamba, II. 5. Michelia champaca, II. 6. Vitex altissima, II. 7. Zizyphus jujuba, II. 8. Zizyphus xylopyra, II. 9. Vateria Indica, II.	1. Soymida febrifuga, I. 2. Gmelina arborea, I. 3. Prosopis spicigera, II. 4. Anthocephalus cadamba, II.	The changes proposed are more or less due to the same reasons as those adduced for South Coimbatore.
Nilgiris ..	..	..	..	1. Grewia tiliaefolia. 2. Acrocarpus fraxinifolius. 3. Rhodomyrtus tomentosa.		1. Anthocephalus cadamba, II.	1. Anthocephalus cadamba, II.	The trees entered in columns 5 and 6 require better protection. No. 1 in column 5 is a valuable tree. No. 2 is an extremely handsome tree and the timber is used for building and furniture. No. 3 is valuable for its abundant supply of fruits on which the hill tribes largely depend for food in times of scarcity. No. 1 in column 6 is a very durable wood and the bark is used for dyeing and tanning and the gum is an astringent. It is also a very handsome tree. No. 2 is well known and highly valued for its strength and toughness.

Statement showing the alterations proposed in the existing lists of classified trees for the several districts in the Presidency—cont.

Note.—The Roman figures against the names of trees in columns 2 and 3 represent respectively the class in the existing and proposed lists.

REVENUE DEPARTMENT.

1897.

Board of Revenue
(Land Revenue),
MADRAS.

Printed March 11.

Proceedings, Forest No. 76, 22nd
February 1897.

Submitting to Government, with remarks, statements showing the alterations proposed to be made in the existing lists of classified trees for the several districts in the Presidency, together with detailed reasons for the proposals.

C. No. ~~348~~ 2974

From the Board of Revenue Land Rev:

Dated 22nd Feb 1897.

Recd 6th April 1897

FOR ORDERS.

The Hon: Mr. George C. Esq.

H.E. the Governor

I think the Bd's proposals altered as already agreed to and be adopted. They have been carefully examined by all the authorities concerned. The rates are only max. rates.

JG
8/5/97
* flagged A

* flagged B:

Agree, - it being left to Collectors to work the rules to the best advantage of the people. The rates are fixed being maximum rates, it rests with Collectors to modify them, if they should deem it expedient to do so. I think the above provisions should find place in the Order.

A.H.
11.5.97

Please see the notes stitched with G.O. No. 4990 dated 7th Decr 1896, regarding the revised lists of classified trees proposed for adoption by the Board of Rev: in accordance with the opinion therein expressed by H.E. the Governor and agreed to by the Hon: Mr. George, the Board of Rev: was in the above go. asked to report the grounds on which it had recommended either (1) enhancement of rates or (2) the transfer of trees from the classified to the reserved list in cases which had not been dealt with in the papers then before Govt.

2. The necessary information the Board now

Submits

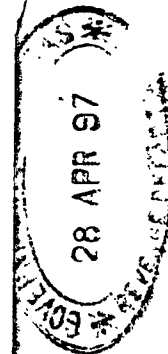

CS 5/97

ERRATA.

(1) In the Board's lists of classified trees forming appendix to its Proceedings, Forest Nos. 256 and 321, dated 9th June and 20th July 1896, respectively, delete the following names and the entries against them for the several districts:—

"Bambusa arundinacea."
"Calamus rotang."
"Dendrocalamus strictus."

(2) In line 4 of paragraph 3 of Board's Proceedings, Forest No. 426, dated 12th September 1896, insert the word "about" before the words "the same number."

Boys of Res.
Land Res.
9th April 97

To the Secretary to Government, Res. Dept.

Reel
Secretary

Submits ⁱⁿ its Props noted
above. The reasons which
actuated the Board to pro-
pose the alterations in the
existing lists are fully and
concisely set forth in State-
ment A appended to its Props
while a Statement B is added
showing that except in a few
districts of the Northern and
Southern Circles, the Board's
proposals, if accepted, would
materially reduce the number
of classified trees in classes
I and II. The Board remarks
that the variations in the
district lists are due to their
having been drawn up "in ac-
cordance with the local re-
quirements of the several dis-
tricts" and that while in the
lists ~~are~~ now in force every tree
is treated as a classified tree
(Class III containing an entry
to the effect that in it are in-
cluded all trees not previously
described) the proposed lists
by specifying the trees have
left out several as unclassified
for

4/5/97.

4/5/97.

FOR ORDERS.

"for the free use of villagers for
"agricultural or domestic pur-
"poses". The Board also points
out that, in regard to the
seigniorage rates proposed, no
~~change~~ change is recommended
except in S. Canara and the
hill tracts "where a slight enhance-
"ment is found necessary with
"reference to the general rise
"in the local market rates."

3 The Hon. Mr
Gosse has already approved of
the Board's lists subject to
certain alterations ⁱⁿ the
footnotes accompanying the
same. In the vol. stitched
with G.O. 4990 d/7th Decr 1896,
it has been already pointed out
that the seigniorage rates now
levied and proposed to be levied
are only ~~at~~ maxima, which
the Collector is competent to
reduce at his discretion and
that the Collector is ^{also} given power
to prohibit the grant of any
tree or produce either for a time
or in certain localities or
altogether. For these reasons

flagged C

and

and for those now furnished
by the Board it is submitted
that the Board's lists may,
with the alterations which
it has been already decided
should be made therein, be
accepted, leaving it to the
collectors to work the rules
to the best advantage of the
people. In the draft G.O. on
the forest policy proposed in
the office this latter point was
specially referred to and when
the revised draft called for from
the Board (in accordance
with the orders of the H.M. and
H.E.) is received, it may it is
submitted be expressly stated therein
(if the Board does not do so)
that the power to reduce the
maximum fixed by Govt. is given
to the collectors ^{mainly} with a view to
minimizing the hardship that
may be entailed on the people
by the working of the forest
rules.

It is submitted that
any criticism of these
lists is unwarranted. They
have been compiled by the

local authorities after a
careful consideration of
the local circumstances.
It is clear that every
Andaman has been
made to exclude
from the classified
lists & to make available
to the public for local
domestic & agricultural
purposes, every tree
that could with safety
be so included.

With regard to H.E.'s
enquiry as to the rates
which obtain for reserved
trees it is submitted
that there are, as His Ex-
cellency presumes, marked
rates & so fluctuate
from time to time.
The seigniorage rates
given in the draft notification
are as has been stated
above only maximum
rates.

Submit the proposals
made may be approved
subject to the modifications
already agreed on in the
note on the S.O. No. 4950
7 Dec 96

I have from the the 18th names
 & can not find anything to
 tell the exception to. To much
 depends on local conditions
 that it is not possible to
 give an opinion of value or
 whether a given tree is the
 excluded or not. In some districts
 a tree may well be excluded
 & in some it is not. & the
 same may be said of some parts
 of districts. The best is the
 only two in some Toluca & Cuzco
 & when it was unclassified it
 was almost swept off the
 face of the land.

Order No. 387 of 26th May 1897.

In the circumstances now reported, the Board's draft notification submitted by the Board, embodying the revised lists of classified trees, ^{the} their ^{fixed in last} ~~their~~ ^{seigniorage} rates and the rules connected therewith, as amended with reference to the errata last read above, are approved subject to the following remarks and modifications:

(1) Rule T. It will be noted that the rates now fixed, being ~~the~~ maxima it rests with the Collector to modify them if he should deem it expedient to do so. The Govt desires in this connexion to impress on all District Officers the necessity and importance of reducing the rates wherever the ^{public} ~~interests of the people~~ require it and with this remark would leave it to the Collectors to work the rules to the best advantage of the ^{people} ~~people~~.

Encl.

(2) Rule 3. It is observed that the general rules framed under Sec 26 of the Madras Forest Act V of 1882 vests in District Collectors rather than Conservators the power to regulate the method of issue, registration and check of permits. The word "Collector" will accordingly be substituted in this rule for the expression "Conservator of Forests". The existing practice ^{must} ~~should~~ however be left undisturbed ~~by the issue of~~ ^{if} ~~the Board requires~~ ^{the Board requires} Collectors formally to promulgate such directions ~~as~~ as have been drawn up by or approved by the Conservators under the Board's authority.

(3) Rule 5. The expressions "local authorities" and "unclassified trees and forest produce" are rather vague and the Govt also considers it desirable that the Board should exercise control over the rates fixed by the District Officers. This rule will accordingly be altered as shown below

" Trees and other forest produce

omitted in the note
visually by an oversight

produce not shown in the foregoing list when removed from reserved land or, except in the case of free removals under rule 7 (of the general rules under Sec 26 of the Madras Forest Act V of 1882), from unreserved land are chargeable at such rates as may be decided upon from time to time by the Collector subject to the control of the Board of Rev."

(4) The seigniorage now proposed to be levied on iron ore, viz, 2 annas per maund of 25 lbs is very much in excess of the royalty of 2 annas per ton of iron stone removed under a prospecting or mining licence taken out in accordance with the provisions of B.S.O. No 15. In any case the Govt considers that no useful purpose will be served by retaining ⁱⁿ the notification the item in question, which will accordingly be omitted.

(5) Notification relating to the Nilgiris. The Govt observes that the list attached to

flipped E

to the draft notification is defective in that it omits to specify in two cases the quantity in respect of which the fee mentioned is leviable, viz under fuel (i) branch wood &c and (ii) bark, twigs &c. The word "per head load" will now be inserted after the two items above mentioned. The word "kind" after the word "Eucalyptus" in the last column of the list is unnecessary and will be omitted and the more common designation "Cassia fistula", made use of in all other notices, will be substituted for the expression Cathartocarpus fistula in ^{the first} col 8.

2. The draft notifications, revised with reference to the foregoing remarks, are printed as an app^{ex} to the present Prop and will be published in the Fort St George and all District Gazettes for general information

3. The form of permit and method of issue, registration, check and recovery will be prescribed by the Conservator of Forests on behalf and under the authority of the Board of Revenue in accordance with the general rules framed under the Forest Act.

Collector

4. The term cart-load refers to a country cart drawn by two bullocks and is equivalent to 20 cubic feet or half a ton. The head-load is equivalent to one cubic foot or 56 lb.

20 head-loads equal one cart-load.
4 do. one bullock-load.
2 do. one ass-load.

5. Unclassified trees and forest produce in reserved lands and unclassified trees and forest produce on unreserved lands, except those removed free under rule 7 of the rules under section 26 of the Forest Act, are chargeable at such rates as may be decided upon from time to time by the local authorities.

DISTRICT OF NORTH ARCOT.

In supersession of all previous notifications on the subject, His Excellency the Governor of Fort St. George in Council is pleased to direct that the following shall be the rates at which permits for the removal of timbers of unreserved trees and other forest produce on seigniorage will, until further orders, be issued under the forest rules under section 26 of the Forest Act (V of 1882), published in the *Fort St. George Gazette* of 21st August 1894:—

Botanical name.	English name.	Tamil name.	Telugu name.	Rate of seigniorage.
TIMBER TREES.				
<i>Class I.</i>				
<i>Dalbergia latifolia</i> ..	Blackwood or rosewood.	Iruvadi ..	Jitigi ..	Rs. A. P.
<i>Lagerstroemia microcarpa</i> ..	Venteak ..	Ventek ..	Chinnangi ..	Per cart-load in the rough .. 5 0 0
<i>Pongamia glabra</i> ..	Kino ..	Pondadi ..	Yegi ..	Per cart-load squared .. 7 8 0
<i>Pterocarpus marsupium</i> ..	..	Vengai ..	Tamba ..	Per head-load .. 0 4 0
<i>Shorea tumbugala</i> ..	..	Tambagai ..	Nallamaddi ..	
<i>Terminalia tomentosa</i> ..	..	Karumarudai ..		
<i>Class II.</i>				
<i>Acacia sundra</i> or catechu.	Catechu or catechu.	Karungali ..	Nalla chendromannu.	
<i>Albizia lebbek</i> ..	Siris ..	Kattu vagai ..	Durshana ..	
<i>Anogeissus latifolia</i> ..	..	Vellaiugai ..	Yella or chiriman.	
<i>Artocarpus integrifolia</i> or <i>hirsuta</i> .	Jack ..	Pela ..	Panasa ..	Per cart-load in the rough .. 2 8 0
<i>Cassia fistula</i> ..	Indian laburnum or pudding pipe.	Konnai ..	Rela ..	Per cart-load squared .. 3 12 0
<i>Eugenia jambolana</i> ..	..	Nagai ..	Neredu ..	Per head-load .. 0 2 0
<i>Melia indica</i> ..	Nim or margosa.	Veypam ..	Vepa ..	
<i>Mimusops elengi</i> ..	..	Magaya ..	Pagala ..	
<i>Do. hexandra</i> ..	..	alla ..	Pala ..	
<i>Terminalia arjuna</i> ..	..	Vella marudai ..	Yerlamaddi ..	
<i>Class III.</i>				
<i>Acacia arabica</i> ..	Babul or black thorn mimosa.	Karuvellam ..	Nalla tumma ..	Per cart-load .. 1 4 0
<i>Do. leucophloe</i> ..	..	Velvelam ..	Tella tumma ..	" bullock-load .. 0 4 0
<i>Albizia amara</i> ..	..	Turinji ..	Sikkai ..	" ass-load .. 0 2 0
<i>Strychnos nux-vomica</i> ..	Nux-vomica or snakewood.	Etti ..	Mushti ..	" head-load .. 0 1 0
<i>Terminalia paniculata</i> ..	..	Pekadukoi ..	Puluri ..	If squared timber, one half the above rates extra.
<i>Bambusa arundinacea</i> ..	Bamboo ..	Mungil ..	Vethuru ..	
<i>Dendrocalamus strictus</i> ..	..	..	..	
<i>Bambusa split</i> ..	..	..	..	Double the above rates.
<i>Borassus flabelliformis</i> ..	Palmyra ..	Panai ..	Thati ..	Per tree .. 2 8 0
<i>Fuel—Firewood (deadwood only).</i>	..	..	..	Per cart-load .. 0 5 0
..	..	..	..	" bullock-load .. 0 1 0
..	..	..	..	" ass-load .. 0 0 6
..	..	..	..	" head-load .. 0 0 3
..	..	..	..	" cart-load .. 2 8 0
..	..	..	..	" bullock-load .. 0 8 0
..	..	..	..	" ass-load .. 0 4 0
..	..	..	..	" head-load .. 0 2 0
..	..	..	..	" cart-load .. 5 0 0
..	..	..	..	" bullock-load .. 1 0 0
..	..	..	..	" ass-load .. 0 8 0
..	..	..	..	" head-load .. 0 4 0
<i>Ventilago Maderaspatana</i> ..	..	..	..	Per cart-load .. 5 0 0
<i>Soymida febrifuga</i> ..	..	..	..	" bullock-load .. 1 0 0
<i>Acacia leucophloe</i> ..	..	..	..	" ass-load .. 0 8 0
..	..	..	..	" head-load .. 0 4 0
<i>Leaves—Palmyra</i> ..	..	..	..	Per 1,000 .. 1 0 0
<i>Minerals—Rough stone</i> ..	..	..	..	Per cart .. 0 1 0
<i>Chiselled stone</i> ..	..	..	..	" .. 0 2 0
<i>Metal and gravel</i> ..	..	..	..	" .. 0 0 6
<i>Earth and turf</i> ..	..	..	..	" .. 0 0 6
<i>Iron ore</i> ..	..	..	..	Per maund (25 lb.) .. 0 2 0

The above rates are the maxima which may be reduced but not raised by the Collector without the sanction of Government.

2. The seigniorage prescribed by these rules do not refer to reserved trees, and the Collector may, by district order, prohibit the grant of any tree or produce on seigniorage, either for a time, or in certain localities, or altogether.

Reserved trees and trees or produce for which the issue of seigniorage permits is prohibited by district order will be sold or otherwise disposed of at the discretion of the Forest Department.

3. The form of permit and method of issue, registration, check and recovery will be prescribed by the Conservator of Forests on behalf and under the authority of the Board of Revenue in accordance with the general rules framed under the Forest Act.

4. The term cart-load refers to a country cart drawn by two bullocks and is equivalent to 20 cubic feet or half a ton. The head-load is equivalent to one cubic foot or 56 lb.

20 head-loads equal 1 cart-load.
4 do. 1 bullock-load.
2 do. 1 ass-load.

5. Unclassified trees and forest produce in reserved lands and unclassified trees and forest produce on unreserved lands, except those removed free under rule 7 of the rules under section 26 of the Forest Act, are chargeable at such rates as may be decided upon from time to time by the local authorities.

DISTRICT OF SOUTH ARCOT.

Classified trees.

Approving, subject to remarks and modifications, the draft notifications submitted by the Board of Revenue regarding the revised lists of —, the seigniorage rates fixed for each and the rules connected therewith, and ordering that the notifications be published in the Fort St. George and all District Gazettes.

GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

Read—again the following G.O., Mis. No. 4990, Revenue, dated 7th December 1896 :—

Read—the following Proceedings of the Board of Revenue (Land Revenue), Forest No. 256, dated 9th June 1896 :—

Read—again the following Proceedings of the Board of Revenue (Land Revenue), Forest No. 558, dated 24th August 1894 :—

Read—the following G.O., No. 489, Revenue, dated 9th July 1894 :—

2. * * * The lists of classified trees should in this connection be carefully revised and submitted for the approval of Government. All trees not included in any of the above lists will hereafter be considered as “unclassified.”

Resolution—Forest No. 558, dated 24th August 1894.

3. Collectors are requested to report whether any additions or alterations are called for in the lists of classified trees sanctioned by Government.

Read—again Proceedings of the Board of Revenue (Land Revenue), Forest No. 133, dated 5th March 1895.

ABSTRACT.—Informing all Collectors and Conservators of Forests that all the important trees under class III of the existing seigniorage lists should be specially named in the new lists of classified trees called for in Board's Proceedings, Forest No. 558, dated 24th August 1894, and directing that certain trees in the existing lists be treated as unclassified trees for the purposes of Rule 7 of the rules under section 26 of the Forest Act.

Read—again the following Proceedings of the Board of Revenue (Land Revenue), Forest No. 177, dated 8th April 1895 :—

Read—file of reports received from Collectors regarding the alterations to be made in the lists of classified trees.

Resolution—Forest No. 177, dated 8th April 1895.

The Collectors' reports read above relate to the revision of the lists of classified trees rendered necessary by the new rules under section 26 of the Forest Act—*vide* paragraph 2 of G.O., No. 489, dated 9th July 1894, and paragraph 3 of Board's Proceedings, No. 558-F., dated 24th August 1894.

2. The reports have not been prepared on a uniform principle, and in some districts the effect of the provisions of the new Rule 7 does not seem to have been fully understood. In many cases also the necessity for changes proposed in the existing lists have not been fully explained.

3. The Board therefore resolves to return the lists to the Collectors concerned and request them to revise and resubmit them to the Conservators who should send them on to the Board after all have been received, accompanied by a tabular form

showing the proposals for each district as amended by them, and noting the grounds for any alterations in the lists prepared by the Collectors. A separate notification will issue for each district, but the tabular forms will also be printed for reference in the offices of control. In Board's Proceedings, No. 133-F., dated 5th March 1895, the Board has issued instructions which will obviate any material inconvenience to the public or risk to the Government revenue while the revised lists are under preparation.

4. In paragraph 4 of the rules under section 26, certain trees are shown as reserved, but power is given to the Collector with the concurrence of the Conservator to transfer any reserved tree to the lists of classified trees. The effect of the paragraph is merely to prescribe that no tree not shown in that list shall in any district be treated as a reserved tree, and it will be convenient therefore that the lists now called for should show the trees which it is proposed to treat as reserved in the district to which the list refers. From Board's Proceedings, No. 133-F., dated 5th March 1895, Collectors will have seen that the Board proposes as a general rule to treat as classified trees only those shown under class I or class II or specified by name in class III in the existing list; but on special cause being shown others may be added or species now included in classes I and II may be removed from the lists altogether. It is intended that the concession made in the new Rule 7 shall be of real benefit to the people in well wooded districts, and no attempt should be made to nullify it by drawing up a practically exhaustive list of all the trees in a district. No doubt there will be a risk of abuse, but the privileges which it has been decided to allow to the agricultural population must not be unduly trenched upon in an endeavour to obtain absolute security. There is no objection to the lists containing seigniorage rates for trees not included in the classified lists under the heading, “The following rates refer only to trees on reserved lands.”

(True Extract.)

(Signed) L. M. WYNCH,
Secretary.

To all Collectors, with lists returned.
” Conservators.

Read—also the following letter from E. P. POPERT, Esq., Conservator of Forests, Central Circle, to the Secretary to the Commissioners of Land Revenue, dated Kumbakonam, 2nd December 1895, No. 1040 :—

[Reference.—Board's Resolution, Forest No. 177, dated 8th April 1895.]

In accordance with the above, I have the honour to resubmit Collector's list together with three statements showing—

- A. Reserved trees.
- B. Classified trees.
- C. Barks and leaves.

Any alterations proposed by me have been noted with reasons.

ENCLOSURE A.—Statement showing reserved trees.

ENCLOSURE B.—Statement showing classified trees.

ENCLOSURE C.—Statement showing the names of barks and leaves.

Resolution—Forest No. 256, dated 9th June 1896.

Submitted to Government.

2. In the penultimate sentence of paragraph 2 of its order, No. 489, Revenue, dated 9th July 1894, Government directed that the existing lists of classified trees should be carefully revised and submitted for its approval, but, pending the publication of the revised lists, the Board directed that all trees not specially named in class III in the existing notifications should be treated as unclassified for the purposes of Rule 7 of the General Rules under section 26 of the Forest Act.

3. The revised lists submitted by Collectors with reference to the Government Order quoted above, not having been prepared on a uniform principle, were returned to them with detailed instructions as to how they should be revised; and the Conservators were requested to submit tabular statements showing their amended proposals for each of the districts in their circles.

4. The Conservator of Forests, Central Circle, now forwards the lists submitted by the Collectors of the districts in his circle, together with three consolidated statements showing the names of the trees proposed to be treated (1) as *reserved trees* and (2) as *classified trees* and (3) the names of the barks and leaves to be classified in each district.

5. Since the submission of the Conservator's consolidated lists, the Board's Forest Member has discussed the subject with Mr. Popert and has found it necessary to strike out a number of trees from the Conservator's list of classified trees with a view to make the concession granted in Rule 7 of the Rules under section 26 of the Forest Act—one of real benefit to the people. It has also been found necessary to reduce the classification proposed in some cases in which no valid reasons have been assigned for raising the class. Thus *Acacia Arabica* was allowed to be removed free of charge in the Cuddapah district until the abuse of the concession led to its being notified as a II-class tree (*vide* G.O., No. 445, Revenue, dated 13th July 1895). The Board now considers it sufficient to put it in the III-class. A statement showing the trees, &c., proposed to be treated as classified, as amended by the Board, is herewith submitted, together with revised draft notifications for approval and publication in the *Fort St. George Gazette*.

6. Collectors will clearly understand that the rates proposed are only maximum rates and that it is open to them to reduce the classification according to necessity, but it is desirable that the Conservator of the Circle should be consulted before action is taken.

7. The high rate for rattan in the Chingleput district is proposed, with a view to check its excessive use, as it is a sparsely growing product.

8. The following alterations have been made in the rates proposed by the Collector of Chingleput:—

(1) For the date (*Phyenix Sylvestris*), the Collector proposes Rs. 1-4-0 per cart-load. In the absence of special reasons, the Board has fixed it at Re. 1 per tree, which is the rate proposed in other districts.

(2) The Collector proposes to charge a grazing fee of Re. 1 per head on goats as they are browsers and destroyers of forests. The Board would retain the present rate of As. 1-6 per head; as the remedy for the evil lies, not in enhancing the rate, but in setting apart special areas for them, as suggested by the Conservator of Forests, Central Circle (*vide* Board's Proceedings, Forest No. 602, dated 11th October 1895). In the present notification, however, no reference is made to grazing fees in any district, as no such fees can be levied in unreserved areas to which the notification primarily applies. The same principle governs more or less, the case of leaves for manure for the removal of which from reserved areas special seigniorage rates have been prescribed in Government Order embodied in Board's Proceedings, Forest No. 624, dated 29th August 1893.

(3) For rough and chiselled stone, the Collector's rates are 2 and 8 annas per cart-load, respectively; while the existing rates are 1 and 2 annas, respectively. The increased rates are said to be commensurate with the sale rates. The Board has, however, retained the existing rates for the present. The Collector may submit a special report if he considers it necessary to adopt the enhanced rate in future.

9. In Nellore no reason has been assigned for the increased rates proposed for charcoal. The Board would retain the existing rates until good cause is shown for the change.

10. In South Arcot, the Collector proposes to charge Rs. 20 per cart-load for the bark of *Ventilago Maderaspatana* (Vembadam). The Board would fix it at Rs. 10 which is the maximum rate now levied in other districts, unless special reason is shown for the proposed increase.

11. The Board has added the following general note under class III in the revised notifications now submitted:—

"Unclassified trees and forest produce in reserved lands and unclassified trees and forest produce on unreserved lands, except those removed free under Rule 7 of the rules under section 26 of the Forest Act are chargeable at such rates as may be decided upon from time to time by the local authorities."

12. Collectors will understand that, save in forest tracts, where there is an abundant surplus supply, timber on unreserved land should be given on seigniorage for local use only and not given out in large quantities to traders.

13. The lists for the Northern and Southern Circles will be submitted to Government separately, but the remarks in paragraphs 11 and 12 *supra* apply to the districts in those circles also.

3. Collectors are requested to report whether any additions or alterations are called for in the lists of classified trees sanctioned by Government.

Read—again Proceedings of the Board of Revenue (Land Revenue), Forest No. 133, dated 5th March 1895.

ABSTRACT.—Informing all Collectors and Conservators of Forests that all the important trees under class III of the existing seigniorage lists should be specially named in the new lists of classified trees called for in Board's Proceedings, Forest No. 558, dated 24th August 1894, and directing that certain trees in the existing lists be treated as unclassified trees for the purposes of Rule 7 of the rules under section 26 of the Forest Act.

Read—again Proceedings of the Board of Revenue (Land Revenue), Forest No. 177, dated 8th April 1895.

ABSTRACT.—Passing orders on reports received from Collectors regarding the alterations to be made in the lists of classified trees and calling for revised lists prepared in accordance with the instructions now issued.

Read—also the following letter from E. D. M. HOOPER, Esq., Acting Conservator of Forests, Southern Circle, to the Secretary to the Commissioners of Land Revenue, dated Coimbatore, 3rd March 1896, Dis. No. 718:—

I have the honour to forward the enclosed lists of classified and reserved trees as proposed by the Collectors of this circle.

I would remark as follows:—

The list of reserved trees in the Nilgiris should, I think, include *Sapindus emarginatus*, *Xylia dolabriformis* and *Mangifera Indica* since they are not even classified and therefore exposed to cutting and removal from all unreserved lands without permit.

The recommendations to include three additional species under class I and two under class II are supported.

In Madura it is proposed to add to class I no less than nine species, of which *Terminalia tomentosa*, *Lagerstræmia microcarpa* and *Strychnos nux-vomica* were hitherto unclassified; the remaining six, viz., *Cedrela Toona*, *Albizia Lebbek*, *Albizia odoratissima*, *Eugenia jumbolana*, *Melia Indica* and *Vitex Altissima* have been transferred from the second class, their places being taken by *Schleichera trijuga*, *Acacia Arabica*, *Acrocarpus fraxinifolius*, *Chickrassia tabularis*, *Michelia champaca* hitherto unclassified.

The additions to class III comprise *Acacia leucophlæa* reduced from class II and *Bischofia Javanica*, *Emlica officinalis*, *Melia azadirachta* hitherto unclassified.

It is to be noted that the rattan and bamboos are omitted probably by mistake.

In Tinnevely the only change proposed is the addition of seventeen species to the third class, of which *Acacia sundra* has been a reserved tree and *Cyperus rotundus* is a simple sedge grass used for thatching, while *Cochlospermum* might be omitted altogether.

In Coimbatore North it is proposed to degrade *Chloroxylon swietenia* and *Acacia sundra* and *Acacia catechu* from being reserved trees to the second class. Six other ordinary reserved trees until lately included in the first class have been raised to be reserved trees. *Acacia leucophlæa* has been reduced to second class.

To the first class it is proposed to add nine species—*Terminalia tomentosa*, *Albizia Lebbek*, *Albizia odoratissima*, *Cassia fistula*, *Adina cordifolia*, *Michelia champaca*, *Vitex altissima*, *Canarium strictum*, *Vateria Indica*—from the former second class and one unclassified tree, *Schleichera trijuga*.

Promotions to second class include *Feronia* and *Acacia planifrons* also on account of their barks *Cassia auriculata* and *Ventilago Maderaspatana*. Apparently by mistake palmyra, canes and bamboos have been omitted.

In South Coimbatore, viz., *Xylia dolabriformis*, *Pterocarpus marsupium*, *Artocarpus hirsuta* and *Artocarpus integrifolia*, have been raised from first class to their original position as reserved trees, as also *Mangifera Indica* from class II, while four other species, viz., *Hardwickia binata*, *Shorea lacifera*, *Shorea tumbuggia* and *Chloroxylon swietenia*, have been excluded from the list of reserved trees and definitely put into the first class along with *Acacia catechu*, which although in the list of reserved trees was hitherto treated as a second class tree. New additions to the first class comprise *Terminalia tomentosa*, *Terminalia paniculata* and *Lagerstræmia microcarpa*, all raised from class II in which have been included *Stereospermum chelonoides* and *Stereospermum xylocarpa*, *Nauclea parvifolia*, *Albizia amara*, *Bauhinia racemosa* hitherto unclassified, and *Acacia leucophlæa* formerly a first class tree.

Class III includes for the first time *Briedelia retusa*, *Wrightia tinctoria*, *Morinda citrifolia*, *Ulmus integrifolia*, *Cordia Rothii* and the bark-yielders—(i) *Cassia auriculata* (ii) *Ventilago Maderaspatana*; (iii) *Sansevieria zeylanica*.

In South Canara I have no means of comparing the changes proposed.

In Malabar the old list of the northern division is declared to hold good, but both District Forest-officers declare the reserved list to be incomplete and propose between them that Government include in it the following species which in the Malabar district are of especial value:—

Terminalia tomentosa.
Lagerstræmia microcarpa.
Canarium strictum.
Mesua coromandeliana.

Albizia lebbek.
Cynometra ramiflora.
Briedelia retusa.
Caryota urens.

I am not prepared myself to confirm this proposal completely, and as the matter is one for separate consideration it need not be decided now beyond keeping them in the first class.

The transfer between classes proposed by Mr. Hadfield in South Malabar are as follows:—

From reserved to class I—
Artocarpus integrifolia.
Do. *hirsuta*.
Xylia dolabriformis.

From reserved to class II—
Mangifera Indica.
Pongamia glabra.

The proposed additions to class I from the unclassified trees are *Dysoxylum malabaricum*, *Nauclea cadamba*, and similarly to class II *Lagerstræmia Regiæ*.

It will be noted that nearly all officers include a very considerable number of species under the new class III. In this class I would certainly include bamboos, valuable grasses, canes, reeds and bark-yielding shrubs.

ENCLOSURES Nos. 1 to 7.—Reports from Collectors submitting lists of classified trees.

ENCLOSURE No. 8.—List of reserved trees as proposed by the Collector.

8

No. 387, REVENUE, 26TH MAY 1897.

ENCLOSURE No. 9.—List of trees classed under class I.

ENCLOSURE No. 10.—List of trees classed under class II.

ENCLOSURE No. 11.—List of trees classed under class III.

Resolution—Forest No. 321, dated 20th July 1896.

Submitted to Government in continuation of Board's Proceedings, Forest No. 256, dated 9th June 1896.

2. With the letter read above, the Conservator of Forests, Southern Circle, forwards with his remarks the revised lists of classified trees furnished by the Collectors of the districts in his circle.

3. The Collector of Malabar proposes to add certain new trees to the list of reserved trees already sanctioned by Government. The Board does not support this proposal as the list of reserved trees is already sufficiently large.

4. In the districts of Madura, Coimbatore and South Canara, certain trees which are treated as class II in the existing list are to be treated as class I in the proposed list. The Collector of Coimbatore states that certain species proposed to be transferred to class I are more valuable than the others in class II. No explanation is given for the transfers proposed in the other districts; but the classifications, which have the approval of the Conservator have doubtless been made with reference to local conditions. In the Nilgiris the rates for classified trees are given in the existing lists at so much per tree as well as so much per cubic foot. In the revised lists the rates are given at so much per cubic foot only and have been increased. The latter may be adopted. In Malabar and South Canara, on the other hand, the rates are given per tree both in the existing and in the revised lists. In the latter district the rate for class I has been slightly raised. With regard to the new trees proposed to be treated as "classified" in the several districts, the Board has struck out such as have not been retained in the Central Circle in the case of species which occur in that circle also and has further removed from the list any tree which is common throughout the Presidency, but is proposed, without special explanation, to be classified in one district only. The list as thus amended is printed as appendix A. The increase in number as compared with the list for the Central Circle is mainly due to species in the west coast districts and in Nilgiris. Any additions or alterations to this list which Collectors may consider necessary may be proposed hereafter, but only if very strong special grounds can be shown for them.

5. Bamboos, rattan and reeds which are included in the existing lists have been retained in the proposed lists also. But the terms "valuable grasses" and "bark-yielding shrubs" which the Conservator proposes to insert under class III are indefinite and have accordingly been omitted. Grasses required for fodder or thatch or mat-making should not be included in the list as villagers are allowed to take them free, and the surplus left after meeting their requirements may be sold at the will of the department. In South Coimbatore the Collector proposes to charge Rs. 25 per cart-load for the bark of *Ventilago Maderaspatana* (Vembadam), but the Board is not prepared to accept the increase unless special reason is shown for it.

6. As pointed out in dealing with lists for the Central Circle, Collectors will understand that except in forest tracts where there is an abundant surplus stock, timber on unreserved land should be given on seigniorage for local use only, and not given out in large quantities to traders.

7. Revised notifications drawn up in accordance with the foregoing remarks are submitted for approval and publication in the *Fort St. George Gazette*.

8. Collectors will also be requested to notify throughout the villages in a simple form, free from all details of seigniorage rates, &c., a list of all trees and produce which for any reason cannot be removed for local use under section 7 without special permission.

ABSTRACT.—Informing all Collectors and Conservators of Forests that all the important trees under class III of the existing seigniorage lists should be specially named in the new lists of classified trees called for in Board's Proceedings, Forest No. 558, dated 24th August 1894, and directing that certain trees in the existing lists be treated as unclassified trees for the purposes of rule 7 of the rules under section 26 of the Forest Act.

Read—again Proceedings of the Board of Revenue (Land Revenue), Forest No. 177, dated 8th April 1895.

ABSTRACT.—Passing orders on reports received from Collectors regarding the alterations to be made in the lists of classified trees and calling for revised lists prepared in accordance with the instructions now issued.

Read—also the following letter from A. W. PEET, Esq., Conservator of Forests, Northern Circle, to the Secretary to the Commissioners of Land Revenue, dated Waltair, 24th March 1896, No. 1744-C.:—

Subject: Classification of trees for the Northern Circle.

[Reference.—Board's Proceedings, Forest No. 177, dated 8th April 1895.]

I have the honour to say, in answer to the above reference, that the proposals from the various districts were sent in somewhat irregularly; and in many instances they are destitute of all semblance of order. Even now the question is rather complicated, because it seems advisable to enter some trees on the list which are either not native or doubtfully so: but in many cases introduced trees are found in the forests as now constituted, because the limits of the forests have changed at various times, and sites of old villages, old topes and abandoned avenues are now in some cases parts of the forests.

2. There is a further difficulty, viz., in separating the range of vegetation, because the vegetation of many districts overlaps border districts and after attempts at making separate lists for the various districts it seems to me advisable to suggest one list for the circle; so that if the tree named is found in any district it will be found classified. The lists are by no means exhaustive, for the District Forest-officer, Kistna, mentions having come across 301 species of trees and I would refer to the remarks on this subject in the letter (in original to be kindly returned) accompanying the Kurnool proposals. Most of the trees named will be found to be worth classifying either for timber or fruit or other useful product. It may very likely happen that additions to the lists will be necessary, for I note that no proposals are made for classification of any of the Dilleniaceæ or Sterculiaceæ, for example, and more practical attention will be paid to a study of timbers when the press of settlement and demarcation is no longer felt.

3. In the file sent herewith is enclosed a list (appendix A) of the proposals sent in district by district from which it will be seen that there is no arrangement on any fixed principle. I have therefore re-arranged the district proposals according to the natural orders of the trees and shown the proposed classification in a tabular (appendix B) form. Some of the proposals will have possibly to be varied by special order in some districts; for instance, *Acacia Arabica* is entered in the first class, because it is important to have it in that class for Kistna, Bellary and possibly Anantapur; but it may be relegated to the second class, if necessary, for other districts, and so on. A list of my proposals is herewith submitted. In the remark column the word “timber” is used in the sense of the definition in the Forest Act, irrespective of size.

4. *Cassia auriculata*, the tangedu shrub, has been entered in the list of proposed reserved trees on account of its great value, but it may be held to be sufficiently guarded under special rules.

ENCLOSURE No. 1.—Conservator's list of proposed classification of trees in the Circle.

ENCLOSURE No. 2.—Appendix A—Classification of trees as proposed by District Forest-officers.

ENCLOSURE No. 3.—Appendix B—Classification of trees proposed by District Forest-officers arranged in natural orders.

ENCLOSURE No. 4.—Collector's list of classified trees proposed for the Kurnool district.

Resolution—Forest No. 426, dated 12th September 1896.

Submitted to Government in continuation of Board's Proceedings, Forest No. 321, dated 20th July 1896.

2. In his letter read above, the Conservator of Forests, Northern Circle, points out the difficulty experienced in framing a list of classified trees for each district separately. He submits a single list of trees for the whole Circle and suggests that any tree included in this list, in whichever district found, should be treated as "classified" under a class not higher than that named in the Conservator's list, it being left open to Collectors to reduce the classification according to necessity. The Conservator submits also two consolidated statements as appendices A and B to his letter, the former showing the district proposals, and the latter a re-arrangement of the same with the proposed classification for the several districts in a tabular form.

3. The Board has revised the Conservator's list in general accordance with the principles adopted in preparing the lists for the Central and Southern Circles, with the result that instead of 76 species suggested by the Conservator to be treated as "classified trees," the Board's list contains only 43, about the same number as in the list for the Central Circle. The classification of trees which did not formerly find a place in the classified lists of any district has generally been disallowed. In fact the acceptance in full of the proposals submitted from some districts would have completely nullified the concession granted by Rule 7 of the new rules under section 26 of the Forest Act. The Conservator has omitted (apparently through oversight) certain species, e.g., *Eugenia jambolana*, from his general list, although they are found in the existing lists as well as in the Collector's proposed lists (appendices A and B to the Conservator's letter). The omissions have been supplied in this office. The Conservator's list as revised by the Board and printed as appendix A has been adopted in preparing the districtwar notifications in the Board's office for submission to Government. The Board has preferred the Conservator's classification where he has entered a tree in a lower class than that specified in the district proposals, but in all other cases the Collector's classification has been generally followed.

4. The instructions issued in paragraph 8 of Board's Proceedings, Forest No. 321, dated 20th July 1896, should be observed by Collectors of districts in the Northern and Central Circles also.

Read—the following Proceedings of the Board of Revenue (Land Revenue), Forest Mis. No. 1011, dated 20th July 1896:—

Read—the following Office-note from H. J. PORTER, Esq., District Forest-officer, Tanjore, to the Collector of Tanjore, dated 19th June 1896, No. 5.

With regard to the reserved forests and selected blocks in this district, which the Government has decided to disafforest and convert into village poramboke, I request that the orders of the Board may be obtained before it is too late.

2. A good many of these blocks contain casan (*Memecylon tinctoria*) which is not a reserved or classified tree. The consequence will be that the areas will soon become denuded, as the demand for fuel is very great, especially at Negapatam, Karaikal and Kumbakonam, e.g., casan fuel is now being taken from Tirumalaivasal to Kumbakonam and Negapatam. I would recommend therefore that the Board be moved to include casan amongst the classified trees, as it would be a great pity if these casan blocks were destroyed—they are like oases in the desert. If the Board wishes them to become denuded, we may just as well sell the produce, before handing them over to the people.

APPENDICES.

A.—STATEMENT showing the alterations proposed in the existing lists of classified trees for the several districts in the Presidency.

Note.—The Roman figures against the names of trees in columns 2 and 3 represent respectively the class in the existing and proposed lists.

Names of districts.	Transfers from a lower to a higher class.			Names of reserved trees under rule 4 of the existing list of classified trees but proposed to be omitted therefrom.	Transfers from a lower to a higher class.			Remarks.
	Class II to class I.	Class III to class I.	Class III to class II.		Class III to class I.	Class III to class II.	Omitted from the classified list in addition to all trees falling in the existing list under the general head "all other descriptions of trees."	
1	2	3	4	5	6	7	8	9
Ganjam ..		..			1. <i>Caryota urens</i> .. 2. <i>Eugenia jambolana</i> . 3. <i>Lagerstroemia parviflora</i> . 4. <i>Strychnos nux-vomica</i> . 5. <i>Strophogynia parvifolia</i> .	1. <i>Terminalia tomentosa</i> , I to II. 2. <i>Anogeissus latifolia</i> , I to II.	1. <i>Melia composita</i> , I. 2. <i>Aegle marmelos</i> , II. 3. <i>Linonia acidissima</i> , II. 4. <i>Morinda tinctoria</i> and <i>bracteata</i> , II. 5. <i>Pterocarpium hayneanum</i> and <i>suberfolium</i> , II.	It will be observed that the names of trees entered in this statement as having been transferred from class III to class II are not specified in the existing list of classified trees. The transfer of the trees in question to class II has, however, been recommended both by the Collector and the Conservator of the Forest Department. The addition of the trees to class II and by the reduction of the trees to class I, if approved, will be more advantageous to the public. Now that forest business in the northern districts is in better order than it was in 1886 when the existing list of classified trees was sanctioned, there seems to be no reason why reserved trees such as <i>Dalbergia latifolia</i> , &c., should not be removed from the list of classified trees, but will be arranged for at the discretion of the Forest Department. Thus their removal under special arrangements to meet actual local demands only would prevent indiscriminate felling of the trees by ordinary permit holders. It is proposed to transfer <i>Lagerstroemia parviflora</i> to class I as in Godevari—vide G.O. No. 168, Revenue, dated 25th February 1890. <i>Acacia leucophloea</i> has been entered under class II as it is as valuable as <i>Acacia Anala</i> which is already in that class. <i>Anogeissus acuminata</i> is already in class I in Ganjam. Its entry under class II in Vizianagaram has therefore been permitted. Similarly "Mimusops elengi" is already in class II in the Kurnool, &c., districts.
Godevari ..		..			1. <i>Acacia leucophloea</i> . 2. <i>Anogeissus acuminata</i> . 3. <i>Mimusops elengi</i> .			Vitex altissima has been entered in class I on account of the value of its timber. It is a large tree and deserves attention. <i>Strychnos nux-vomica</i> was originally proposed by the Collector under class I as the fruit is collected largely and sold. The Conservator has reduced it to class II.
izagapatam ..		..			1. <i>Acacia leucophloea</i> . 2. <i>Anogeissus acuminata</i> . 3. <i>Mimusops elengi</i> .			

Statement showing the alterations proposed in the existing lists of classified trees for the several districts in the Presidency—cont.

Note.—The Roman figures against the names of trees in columns 2 and 3 represent respectively the class in the existing and proposed lists.

Names of districts.	Transfers from a lower to a higher class.			Names of reserved trees under rule 4 of the existing list of classified trees but proposed to be omitted therefrom.	Transfers from a lower to a higher class.			Remarks.
	Class II to class I.	Class III to class I.	Class III to class II.		Class III to class I.	Class III to class II.	Omitted from the classified list in addition to all trees falling in the existing list under the general head "all other descriptions of trees."	
1	2	3	4	5	6	7	8	9
Kistna ..		..			1. <i>Adina cordifolia</i> . 2. <i>Stephogyne parvifolia</i> . 3. <i>Acacia Arabica</i> .. 4. <i>Eugenia jambolana</i> .	1. <i>Acacia leucophloea</i> . 2. <i>Mimusops elengi</i> . 3. <i>Do. Indica</i> . 4. <i>Grewia Asiatica</i> . 5. <i>Do. tiliifolia</i> . 6. <i>Strychnos potatorum</i> .	1. <i>Terminalia arjuna</i> , I. 2. <i>Dolichandrone crassa</i> , II. 3. <i>Careya arborea</i> , II.	In this and the Kurnool district, <i>Adina cordifolia</i> and <i>Stephogyne parvifolia</i> have been transferred from class II to class I on account of their comparative scarcity and the value of their timber. They are already in class I in almost all the other districts of the circle. The remaining five trees proposed under class I in Kistna are reported to be as valuable as "Albizia procera" under class I, hence their transfer to a higher class. As regards Nos. 1, 2 and 3 shown under "transfers from class II to class I," please see remarks already entered against the same species of trees in Kistna and Godevari. The necessity for including "Lagerstroemia parviflora" in class I has already been explained in the remarks against its timber. Of the trees transferred from class III to class II, No. 1 is valuable for its bark and Nos. 9 and 10 for their fruits and the remaining species have been proposed in a higher class on account of their comparative scarcity and the increased value of their timber.
Kurnool ..		..			1. <i>Acacia leucophloea</i> . 2. <i>Mimusops elengi</i> . 3. <i>Do. Indica</i> . 4. <i>Grewia Asiatica</i> . 5. <i>Do. tiliifolia</i> . 6. <i>Strychnos potatorum</i> .	1. <i>Acacia leucophloea</i> . 2. <i>Mimusops elengi</i> . 3. <i>Do. Indica</i> . 4. <i>Grewia Asiatica</i> . 5. <i>Do. tiliifolia</i> . 6. <i>Strychnos potatorum</i> .	1. <i>Terminalia arjuna</i> , I. 2. <i>Dolichandrone crassa</i> , II. 3. <i>Careya arborea</i> , II.	
Bellary ..		..			1. <i>Acacia leucophloea</i> . 2. <i>Mimusops elengi</i> . 3. <i>Do. Indica</i> . 4. <i>Grewia Asiatica</i> . 5. <i>Do. tiliifolia</i> . 6. <i>Strychnos potatorum</i> .	1. <i>Acacia leucophloea</i> . 2. <i>Mimusops elengi</i> . 3. <i>Do. Indica</i> . 4. <i>Grewia Asiatica</i> . 5. <i>Do. tiliifolia</i> . 6. <i>Strychnos potatorum</i> .	1. <i>Terminalia arjuna</i> , I. 2. <i>Dolichandrone crassa</i> , II. 3. <i>Careya arborea</i> , II.	
Anantapur ..		..			1. <i>Acacia leucophloea</i> . 2. <i>Mimusops elengi</i> . 3. <i>Do. Indica</i> . 4. <i>Grewia Asiatica</i> . 5. <i>Do. tiliifolia</i> . 6. <i>Strychnos potatorum</i> .	1. <i>Acacia leucophloea</i> . 2. <i>Mimusops elengi</i> . 3. <i>Do. Indica</i> . 4. <i>Grewia Asiatica</i> . 5. <i>Do. tiliifolia</i> . 6. <i>Strychnos potatorum</i> .	1. <i>Terminalia arjuna</i> , I. 2. <i>Dolichandrone crassa</i> , II. 3. <i>Careya arborea</i> , II.	The addition of <i>Melia Indica</i> to class I is recommended on account of its being one of the very few valuable species to be found in the district. The tree proposed to be added to class II is very useful and is by no means plentiful. Its protection is necessary. Besides, there is much demand for the bark of <i>Cassia fistula</i> for dyeing and tanning purposes.

Note.—The Roman figures against the names of trees in columns 2 and 3 represent respectively the class in the existing and proposed lists.

Names of districts.	Names of "reserved trees" under rule 4 of the rules included in the existing list of classified trees but proposed to be omitted therefrom.	Transfers from a lower to a higher class.				Remarks.		
		Class II to class I.	Class III to class I.	Class III to class II.	Transfers from a higher to a lower class.			
1	2	3	4	5	6	7	8	9
South Arcot ..	1. Shorea lacini- fera, I. 2. Chloroxylon swietenia, I. 3. Diospyros me- lanoxylon, I. 4. Hardwickia binata, I.	..				1. Albizzia odora- tissima, I to II. 2. Acacia sundra or catechu, I to II 3. Acacia Arabica, II to III. 4. Vitex pubescens, I. 11. Anthocephalus cadamba, II. 12. Wrightia tinctoria, II. 13. Mallotus philippinensis II. 14. Lebedderopsis orbicularis, II. 15. Ulmus integrifolia, II. 5. Feronia elephantum, II. 6. Boswellia thurifera, II. 7. Sapindus emarginatus, II. 8. Buchanania latifolia, II. 9. Bauhinia racemosa, II. 10. Alangium Lamarckii, II. 1. Adina cordifolia. 2. Cassia fistula.	1. Acacia ferruginea I. 2. Albizzia stipulata, I. 3. Stereospermum xylocarpum, I. 4. Vitex pubescens, I.	The transfer of two species from a higher to a lower class and the omission of fifteen others from the classified list fully justify the proposed removal of four of the reserved trees from the classified list.
Tanjore ..		1. Acacia sundra, I. 2. Chloroxy- lon swietenia, I.		1. Albizzia odoratis- sima.	1. Acacia Arabica, I to II. 2. Acacia leuco- phlea, I to II. 3. Eugenia jambol- ana, I to II. 4. Strychnos nux- vomica, I to III. 5. Odina woderi, II.	1. Albizzia stipulata, II. 2. Zizyphus jujuba, II. 3. Ficus bengalensis, II. 4. Ficus glomerata, II. 5. Odina woderi, II.	Nos. 1 and 2 in column 3 have been transferred to the classified list as in Trichinopoly. Albizzia odoratis- sima has been entered under class I as in the existing list for the Trichinopoly district. The wood of the other two trees transferred from class III to class II is valuable and, as it is not common, requires to be afforded better protection from a higher to a lower class and the	
Trichinopoly..	1. Pterocarpus marapium, I. 2. Diospyros ebe- nuxylon, I. 3. Dalbergia lati- folia, I. 4. Hardwickia binata, I. 5. Shorea lacini- fera, I. 6. Bassia longi- folia, I. 7. Esesia latifo- lia, II.			1. Acacia Arabica ..	1. Acacia sundra, I to II. 2. Adina cordifolia, I to II. 3. Anogeisus lati- folia, I to II. 5. Zizyphus jujuba, II. 6. Vitex pubescens, II. 7. Stereospermum chelonoides, II.	1. Acacia ferruginea I. 2. Albizzia stipulata, I. 3. Stereospermum xylocarpum, I. 4. Vitex pubescens, I. 11. Anthocephalus cadamba, II. 12. Wrightia tinctoria, II. 13. Mallotus philippinensis II. 14. Lebedderopsis orbicularis, II. 15. Ulmus integrifolia, II.	Nos. 1 to 5 in column 2 are scarcely found on unreserved or reserved lands in the district. If they are found anywhere they should be reserved on account of their value as timber trees. Nos. 6 and 7 in the same column are valuable for their flowers and fruit and the felling of the trees should therefore be prohibited. It will be noted that against this nominal prohibition, the trees should be protected as classified list.	

Statement showing the alterations proposed in the existing lists of classified trees for the several districts in the Presidency—cont.

Note.—The Roman figures against the names of trees in columns 2 and 3 represent respectively the class in the existing and proposed lists.

Note.—The Roman figures against the names of trees in columns 2 and 3 are proposed to be omitted therefrom.									
Names of districts.	Names of "reserved trees" under rule 4 of the rules under section 26 included in the existing list of classified trees but proposed to be omitted therefrom.	Names of reserved trees now proposed to be newly included in the list of classified trees.	Transfers from a lower to a higher class.				Transfers from a higher to a lower class.	Omitted from the classified list in addition to all trees falling in the existing list under the general head "all other descriptions of trees."	Remarks.
			Class II to class I.	Class III to class I.	Class III to class II.	Class III to class I.			
1	2	3	4	5	6	7	8	9	
Balam ..						1. Melia Indica, I to II.	1. Vitex pubescens, I. 2. Gmelina arborea, I.		It will be noted that the number of trees in classes I and II of the existing list has been materially reduced in the proposed list, thus rendering the revision wholly beneficial to the people.
Madura ..	1. Pterocarpus marsupium, I. 2. Hardwickia binata, I. 3. Chloroxylon swietenia, I.		1. Cedrela toona. 2. Terminalia mentosa. 3. Albizzia Lebbek. 4. Do-sima. 5. Eugenia jambolana. 6. Melia indica or azadirachta.	1. Lagerstroemia microcarpa. 2. Strychnos nux-vomica.	1. Acacia arabica. 2. Acrocarpus fraxinifolius. 3. Terminalia belerica.	1. Acacia leucophloea, II to III. 2. Prosopis spici-gers, II. 3. Vateria indica, II. 4. Vitex altissima, II.	1. Bischofia javanica, II. 2. Prosopis spici-gers, II.		Nos. 1 to 3 in column 2 are now scarcely found in unreserved lands. It is therefore unnecessary to retain them in the classified list. No. 1 in column 4 comes under class I in the existing list in almost all the other districts. Nos. 2 and 6
Tinnevely ..	Bussia latifolia ..				1. Chikkrassia tabularia.		1. Filicium decipiens, I. 2. Periclonuron pauciflorum, I. 3. Bischofia javanica, I. 4. Litsea zeylanica, I. 5. Careya arborea, I. 6. Thecopsis populnea, I. 7. Buchanania angustifolia, II. 8. Cedrela toona, II. 9. Homocycilia elata, II. 10. Stereocarpum chelonoides, II. 11. Nephelium longana, II. 12. Pterocarpum suberitolum, II. 13. Cullenia excelsa, II.		"Chikkrassia tabularia" comes under either class I or class II in several other districts of the circle. The alterations made to the people by the proposed revision are apparent in the omission of 13 species of trees from the classified list.

are also first-class trees in most of the other districts of the Presidency. Nos. 3, 4 and 5 are likewise important species. In short, all the proposed transfers from a lower to a higher class are necessary for the sake of better protection of the remaining growth. The interests of the ryots have however been safe-guarded by the removal of four species (now under class II) from the classified list.

Statement showing the alterations proposed in the existing lists of classified trees for the several districts in the Presidency—cont.

Note.—The Roman figures against the names of trees in columns 2 and 3 represent respectively the class in the existing and proposed lists.

Names of districts.	Transfers from a lower to a higher class.			Transfers from a higher to a lower class.	Remarks.
	Names of "reserved trees" under rule 4 of the rules under section 26 included in the existing list of classified trees but proposed to be omitted therefrom.	Names of reserved trees now proposed to be newly included in the list of classified trees.	Class II to class I.	Class III to class I.	Class III to class II.
South Coimbatore.	1. Shorea lacifera, I. 2. Xylia dolabriformis, I. 3. Pterocarpus maranpium, I. 4. Artocarpus integrifolia and hirsuta, I. 5. Mangifera Indica, II.				1. Nauclea parvifolia. 2. Albizzia amara. 3. Prosopis spici-gera, II. 4. Anthocephalus cadamba, II. 5. Michelia champaca, II. 6. Viter altissima, II.
North Coimbatore.	1. Shorea tumbulgaia, I. 2. Shorea lacifera, I. 3. Xylia dolabriformis, I. 4. Pterocarpus maranpium, I. 5. Artocarpus integrifolia and hirsuta, I. 6. Mangifera Indica, II.				1. Zizyphus xylopyra, II. 9. Vateria Indica, II.
Nilgiris ..					

The conservation of the trees named in column 2 is reported to be necessary. Hence they have been restored to the list of reserved trees. The trees named in column 4 are more valuable than the others in class II. Hence their transfer to a higher class. The transfer of two trees (column 6) from class III to class II is due to their importance and the consequent necessity for better protection. Against the transfer of five others from a lower to a higher class, nine trees have been expunged altogether from the classified list and one tree transferred to a lower class. Thus the revision is not, on the whole, unfavourable to the public.

The changes proposed are more or less due to the same reasons as those adduced for South Coimbatore.

The trees entered in columns 5 and 6 require better protection. No. 1 in column 5 is a valuable tree. No. 2 is an extremely handsome tree and the timber is used for building and furniture. No. 3 is valuable for its abundant supply of fruits on which the hill tribes largely depend for food in times of scarcity. No. 1 in column 6 is a very durable wood and the bark is used for dyeing and tanning and the gum is an astringent. No. 2 is also a very handsome tree. No. 2 is well known and highly valued for its strength and toughness.

ERRATA.

(1) In the Board's lists of classified trees forming appendix to its Proceedings, Forest Nos. 256 and 321, dated 9th June and 20th July 1896, respectively, delete the following names and the entries against them for the several districts:—

"Bambusa arundinacea."
"Calamus rotang."
"Dendrocalamus strictus."

(2) In line 4 of paragraph 3 of Board's Proceedings, Forest No. 426, dated 12th September 1896, insert the word "about" before the words "the same number."

(Signed) R. C. C. CARR,
Secretary.

BOARD OF REVENUE
(LAND REVENUE),
9th April 1897.

To the Secretary to Government, Revenue Department.

ORDER—No. 387, Revenue, dated 26th May 1897.

Forest No. 82.

In the circumstances now reported, the draft notifications submitted by the Board of Revenue embodying the revised lists of classified trees, the seigniorage rates fixed for each and the rules connected

therewith, as amended with reference the errata last read above, are approved subject to the following remarks and modifications:—

(1) *Rule 1.*—It will be noted that the rates now fixed being maxima, it rests with the Collector to modify them if he should deem it expedient to do so. The Government desires in this connexion to impress on all District officers the necessity and importance of reducing the rates wherever the public interests require it and with this remark would leave it to the Collectors to work the rules to the best advantage of the people.

(2) *Rule 3.*—It is observed that the general rules framed under section 26 of the Madras Forest Act V of 1882 vests in District Collectors rather than Conservators the power to regulate the method of issue, registration and check of permits. The word "Collector" will accordingly be substituted in this rule for the expression "Conservator of Forests." The existing practice need not, however, be disturbed if the Board requires Collectors formally to promulgate such directions as have been drawn up or approved by the Conservators under the Board's authority.

(3) *Rule 5.*—The expressions "local authorities" and "unclassified trees and forest produce" are rather vague and the Government also considers it desirable that the Board should exercise control over the rates fixed by the District officers. This rule will accordingly be altered as shown below:—

"Trees and other forest produce not shown in the foregoing list when removed from reserved land or, except in the case of free removals under rule 7 of the general rules under section 26 of the Madras Forest Act (V of 1882) from unreserved land are chargeable at such rates as may be decided upon from time to time by the Collector subject to the control of the Board of Revenue."

(4) The seigniorage now proposed to be levied on iron-ore, viz., 2 annas per maund of 25 lbs. is very much in excess of the royalty of 2 annas per ton of iron stone removed under a prospecting or mining license taken out in accordance with the provisions of Board's Standing Order No. 15. In any case the Government considers that no useful purpose will be served by retaining in the notifications the item in question which will accordingly be omitted.

(5) *Notification relating to the Nilgiris.*—The Government observes that the list attached to the draft notification is defective, in that it omits to specify in two cases the quantity in respect of which the fee mentioned, is leviable, viz., under fuel (i) branch wood, &c., and (ii) bark, twigs, &c. The words "per head-load" will now be inserted after the two items above mentioned. The word "kind" after the word "eucalyptus" in the last column of the list is unnecessary and will be omitted and the more common designation "Cassia fistula," made use of in all other notifications, will be substituted for the expression "Cathartocarpus fistula" in the first column.

2. The draft notifications, revised with reference to the foregoing remarks, are printed as appendices to the present Proceedings and will be published in the Fort St. George and all District Gazettes for general information.

(True Extract.)

NOTIFICATIONS.

DISTRICT OF CUDDAPAH.

In supersession of all previous notifications on the subject, His Excellency the Governor of Fort St. George in Council is pleased to direct that the following shall be the rates at which permits for the removal of timbers of unreserved trees and other forest produce on seigniorage will, until further orders, be issued under the rules, under section 26 of the Forest Act (V of 1882), published in the *Fort St. George Gazette* of 21st August 1894:—

Botanical name.	English name.	Telugu name.	Rate of seigniorage.	
TIMBER TREES.				
Class I.				
Eugenia alternifolia		Movi	Per cart-load rough .. 5 0 0 " cart-load squared .. 7 8 0 " head-load .. 0 4 0	
Melia indica	Nim or margosa ..	Vēpa		
Terminalia arjuna		Tellamaddi ..		
Do. tomentosa		Nallamaddi ..		
Class II.				
Adina cordifolia		Bandaru	Per cart-load rough .. 2 8 0 " cart-load squared .. 3 12 0 " head-load .. 0 2 0	
Albizia lebbek	Siris	Darshana		
Do. odoratissima	Fragrant acacia ..	Chinduga		
Anogeissus latifolia		Yella or chiriman ..		
Dolichandrone crispata		Neredu		
Eugenia jambolana		Pagada		
Mimusops elengi		Pala		
Do. indica	Nim or margosa ..			
Class III.				
Acacia arabica	Babul or black thorn nimosa ..	Nalla tumma ..		Per cart-load rough .. 1 4 0 " bullock-load .. 0 4 0 " ass-load .. 0 2 0 " head-load .. 0 1 0 If squared timber, one-half the above rates extra.
Do. leucophloea		Tella tumma ..		
Albizia amara		Chikeni		
Borassus flabelliformis	Palmyra	Tha'i		
Phoenix sylvestris	Date	Itha	Per tree .. 2 8 0 " .. 1 0 0 " .. 1 4 0 " .. 0 4 0 " .. 0 2 0 " .. 0 1 0	
Cassia fistula	Indian laburnum or pudding pipe ..	Rela		
Strychnos nux-vomica	Nux-vomica or snakewood ..	Mushti		
Fuel—				
Firewood (dead wood only)			Per cart-load .. 0 6 0 " bullock-load .. 0 1 2 " ass-load .. 0 0 7 " head-load .. 0 0 3 Per cart-load .. 2 8 0 " bullock-load .. 0 8 0 " ass-load .. 0 4 0 " head-load .. 0 2 0	
Charcoal (manufactured in the forests)				
Barks—				
Cassia auriculata		Tangedu		Per cart-load .. 8 0 0 " bullock-load .. 1 10 0 " ass-load .. 0 13 0 " head-load .. 0 6 6 Per cart-load .. 1 4 0 " bullock-load .. 0 4 0 " ass-load .. 0 2 0 " head-load .. 0 1 0
Do. fistula				
Acacia leucophloea				
Leaves—				
Palmyra			Per 1,000 .. 1 0 0 Per cart-load .. 0 1 0 " .. 0 2 0 " .. 0 0 6 " .. 0 0 6 Per maund (25 lb.) .. 0 2 0	
Date				
Minerals—				
Rough stone				
Chiselled stone			Per cart-load .. 0 1 0 " .. 0 2 0 " .. 0 0 6 " .. 0 0 6 Per maund (25 lb.) .. 0 2 0	
Metal and gravel				
Earth and turf				
Iron ore				

The above rates are the maxima which may be reduced but not raised by the Collector without the sanction of Government.

2. The seigniorage prescribed by these rules do not refer to reserved trees, and the Collector may, by district order, prohibit the grant of any tree or produce on seigniorage, either for a time, or in certain localities, or altogether.

Reserved trees and trees or produce for which the issue of seigniorage permits is prohibited by district order will be sold or otherwise disposed of at the discretion of the Forest Department.

3. The form of permit and method of issue, registration check and recovery will be prescribed by the Collector on behalf and under the authority of the Board of Revenue in accordance with the general rules framed under the Forest Act.

4. The term cart-load refers to a country cart drawn by two bullocks and is equivalent to 20 cubic feet or half a ton. The head-load is equivalent to one cubic foot or 56 lb.

20 head-loads equal one cart-load.
4 do. one bullock-load.
2 do. one ass-load.

5. Trees and other forest produce not shown in the foregoing list when removed from reserved land or, except in the case of free removals under rule 7 of the general rules under section 26 of the Madras Forest Act (V of 1882) from unreserved land are chargeable at such rates as may be decided upon from time to time by the Collector subject to the control of the Board of Revenue.

DISTRICT OF NELLORE.

In supersession of all previous notifications on the subject, His Excellency the Governor of Fort St. George in Council is pleased to direct that the following shall be the rates at which permits for the removal of timbers of unreserved trees and other forest produce on seigniorage will, until further orders, be issued under the forest rules, under section 26 of the Forest Act (V of 1882), published in the *Fort St. George Gazette* of 21st August 1894:—

Botanical name.	English name.	Telugu name.	Rate of seigniorage.
TIMBER TREES.			
Class I.			
Melia indica	Nim or margosa ..	Vēpa	{ Per cart-load rough .. 5 0 0 „ cart-load squared .. 7 8 0 „ head-load .. 0 4 0
Terminalia tomentosa		Nallamaddi ..	
Class II.			
Acacia eundra or catechu	Catechu or cutch ..	Sundra	{ Per cart-load rough .. 2 8 0 „ cart-load squared .. 3 12 0 „ head-load .. 0 2 0
Albizia lebbek	Siris	Darshana	
Do. odoratissima	Fragrant acacia ..	Chinduga	
Anogeissus latifolia		Yella or chiriman ..	
Eugenia jambolana		Neredu	
Mimusops indica	Nim or margosa ..	Pala	
Class III.			
Acacia arabica	Babul or black thorn mimosa.	Nalla tumma ..	{ Per cart-load rough .. 1 4 0 „ bullock-load .. 0 4 0 „ ass-load .. 0 2 0 „ head-load .. 0 1 0 If squared timber, one half the above rates extra.
Borassus flabelliformis	Palmyra	Thati	Per tree 1 0 0 „ 1 0 0 Per cart-load 1 4 0 „ bullock-load 0 4 0 „ ass-load 0 2 0 „ head-load 0 1 0
Phoenix sylvestris	Date	Itha	
Strychnos nux-vomica	Nux-vomica or snakewood.	Mushti	
Fuel—			
Firewood (deadwood only)			{ Per cart-load 0 8 0 „ bullock-load 0 1 7 „ ass-load 0 0 10 „ head-load 0 0 3 „ cart-load 2 8 0 „ bullock-load 0 8 0 „ ass-load 0 4 0 „ head-load 0 2 0
Charcoal (manufactured in the forests).			
Barks—			
Cassia auriculata		Tangeda	{ Per cart-load 1 8 0 „ bullock-load 0 5 0 „ ass-load 0 2 6 „ head-load 0 1 3
Leaves—			
Palmyra			{ Per 1,000 1 0 0
Date			
Minerals—			
Rough stone			Per cart-load 0 1 0 „ 0 2 0 „ 0 0 6 „ 0 0 6
Chiselled stone			
Metal and gravel			
Earth and turf			

The above rates are the maxima which may be reduced but not raised by the Collector without the sanction of Government.

2. The seigniorage prescribed by these rules do not refer to reserved trees, and the Collector may, by district order, prohibit the grant of any tree or produce on seigniorage, either for a time, or in certain localities, or altogether.

Reserved trees and trees or produce for which the issue of seigniorage permits is prohibited by district order will be sold or otherwise disposed of at the discretion of the Forest Department.

3. The form of permit and method of issue, registration, check and recovery will be prescribed by the Collector on behalf and under the authority of the Board of Revenue in accordance with the general rules framed under the Forest Act.

4. The term cart-load refers to a country cart drawn by two bullocks and is equivalent to 20 cubic feet or half a ton. The head-load is equivalent to one cubic foot or 56 lb.

20 head-loads equal one cart-load.
4 do. one bullock-load.
2 do. one ass-load.

5. Trees and other forest produce not shown in the foregoing list when removed from reserved land or, except in the case of free removals under rule 7 of the general rules under section 26 of the Madras Forest Act (V of 1882) from unreserved land are chargeable at such rates as may be decided upon from time to time by the Collector subject to the control of the Board of Revenue.

DISTRICT OF CHINGLEPUT.

In supersession of all previous notifications on the subject, His Excellency the Governor of Fort St. George in Council is pleased to direct that the following shall be the rates at which permits for the removal of timbers of unreserved trees and other forest produce on seigniorage will, until further orders, be issued under the rules, under section 26 of the Forest Act (V of 1882), published in the *Fort St. George Gazette* of 21st August 1894:—

5. Trees and other forest produce not shown in the foregoing list when removed from reserved land or, except in the case of free removals under rule 7 of the general rules under section 26 of the Madras Forest Act (V of 1882) from unreserved land are chargeable at such rates as may be decided upon from time to time by the Collector subject to the control of the Board of Revenue.

DISTRICT OF SALEM.

In supersession of all previous notifications on the subject, His Excellency the Governor of Fort St. George in Council is pleased to direct that the following shall be the rates at which permits for the removal of timbers of unreserved trees and other forest produce on seigniorage will, until further orders, be issued under the forest rules, under section 26 of the Forest Act (V of 1882), published in the *Fort St. George Gazette*, of 21st August 1884:—

Botanical name.	English name.	Tamil name.	Rate of seigniorage.
TIMBER TREES.			
Class I.			
Acacia arabica	Babul or black thorn mimosa.	Karuvclam ..	} Per cart-load in the rough .. 5 0 0 ,, cart-load squared .. 7 8 0 ,, head-load 0 4 0
Acacia leucophloea		Velvelam ..	
Acacia sundra	Catechu or cutch ..	Karungali ..	
Albizia lebbek	Siris	Kattuvagai ..	
Albizia odoratissima	Fragrant acacia ..	Kattuvagai ..	
Cedrela toona	Toona or red cedar ..	Suli or marli ..	
Chickrassia tiburialis	Pastard cedar or Chittagong wood.	Agil	
Chloroxylon swietenia	Satinwood	Porasu	
Grewia tiliaefolia		Sadachi	
Hardwickia binata		Acha	
Terminalia bclerica	Bcleric myrobolam ..	Tani	
Terminalia tomentosa		Karunarudai ..	
Class II.			
Adina cordifolia		Manja kadambai ..	} Per cart-load in the rough .. 2 8 0 ,, cart-load squared .. 3 12 0 ,, head-load 0 2 0
Anogeius latifolia		Nannai	
Cassia fistula	Indian labarram or pudding pipe.	Konnai	
Dillenia pentagyna		Malaipunnai or Pat teku ..	
Dolichandrone falcata		Kalli acha ..	
Eugenia jambulana		Nagai	
Melia indica	Nim or margosa ..	Vemlu	
Terminalia arjuna		Vellamarudai ..	
Terminalia paniculata		Pekadukol ..	

Botanical name.	English name.	Tamil name.	Rate of seigniorage.
TIMBER TREES—cont.			
<i>Class III.</i>			
Albizia amara		Turinji ..	Per cart-load RS. A. P. „ bullock-load 1 4 0 „ ass-load 0 4 0 „ head-load 0 2 0
Calamus rotang	Rattan ..	Perambu ..	Per tree 2 8 0 Per cart-load 0 5 0 „ bullock-load 0 1 0 „ ass-load 0 0 6 „ head-load 0 0 3
Strychnos nux-vomica	Nux-vomica or snake-wood.	Etti ..	
Borassus flabelliformis	Palmyra ..	Panai ..	Per tree 2 8 0 Per cart-load 0 5 0 „ bullock-load 0 1 0 „ ass-load 0 0 6 „ head-load 0 0 3
Firewood (for dead wood only)			Per cart-load 2 8 0 „ bullock-load 0 8 0 „ ass-load 0 4 0 „ head-load 0 2 0
Charcoal (manufactured in forests)			Per tree 2 8 0 Per cart-load 0 5 0 „ bullock-load 0 1 0 „ ass-load 0 0 6 „ head-load 0 0 3
Barks—			
Cassia auriculata		Avaram ..	Per cart-load 3 0 0 „ bullock-load 0 10 0 „ ass-load 0 5 0 „ head-load 0 2 6
Ventilago Maderaspatana		Vembadam ..	Per tree 10 0 0 Per cart-load 2 0 0 „ bullock-load 1 0 0 „ ass-load 0 8 0 „ head-load 0 4 0
Acacia leucophloea		Velvelam ..	Per tree 5 0 0 Per cart-load 1 0 0 „ bullock-load 0 8 0 „ ass-load 0 4 0 „ head-load 0 2 0
Leaves—			
Palmyra			Per 1,000 1 0 0
Minerals—			
Rough stone			Per cart 0 1 0
Chiselled stone			„ 0 2 0
Metal and gravel			„ 0 0 6
Earth and turf			„ 0 0 6

The above rates are the maxima which may be reduced but not raised by the Collector without the sanction of Government.

2. The seigniorage prescribed by these rules do not refer to reserved trees, and the Collector may, by district order, prohibit the grant of any tree or produce on seigniorage, either for a time, or in certain localities, or altogether.

Reserved trees and trees or produce for which the issue of seigniorage permits is prohibited by district order will be sold or otherwise disposed of at the discretion of the Forest Department.

3. The form of permit and method of issue, registration, check and recovery will be prescribed by the Collector on behalf and under the authority of the Board of Revenue in accordance with the general rules framed under the Forest Act.

4. The term cart-load refers to a country cart drawn by two bullocks and is equivalent to 20 cubic feet or half a ton. The head-load is equivalent to one cubic foot or 56 lb.

20 head-loads equal one cart-load.

4 do. one bullock-load.

2 do. one ass-load.

5. Trees and other forest produce not shown in the foregoing list when removed from reserved land or, except in the case of free removals under rule 7 of the general rules under section 26 of the Madras Forest Act (V of 1882) from unreserved land are chargeable at such rates as may be decided upon from time to time by the Collector subject to the control of the Board of Revenue.

DISTRICT OF SOUTH CANARA.

In supersession of all previous notifications on the subject, His Excellency the Governor of Fort St. George in Council is pleased to direct that the following shall be the rates at which permits for the removal of timbers of unreserved trees and other forest produce on seigniorage will, until further orders, be issued under the rules under section 26 of the Forest Act (V of 1882), published in the *Fort St. George Gazette* of 21st August 1894.

Botanical names.	English names.	Local names.	Rate of seigniorage.

			Do. .. 0 0 6

The above rates are the maxima which may be reduced, but not raised by the Collector without the sanction of Government.

2. The seigniorage prescribed by these rules does not refer to reserved trees, and the Collector may, by district order, prohibit the grant of any tree or produce on seigniorage, either for a time, or in certain localities, or altogether.

Reserved trees and those trees or produce for which the issue of seigniorage permit is prohibited by district order will be sold or otherwise disposed of at the discretion of the Forest Department.

3. The form of permit and method of issue, registration, check and recovery will be prescribed by the Collector on behalf and under the authority of the Board of Revenue in accordance with the general rules framed under the Forest Act.

4. The term "cart-load" refers to a country cart drawn by two bullocks and is equivalent to 20 cubic feet or half a ton. The head-load is equivalent to one cubic foot or 56 lb.

20 head-loads equal one cart-load.

4 do. do. one bullock-load.

2 do. do. one ass-load.

Seigniorage for a horse-load same as that for a bullock-load.

Do. yoke-load (in the case of bullocks)—half the rates for a cart-load.

Do. do. (do. of buffaloes)—three-fourths of the rates for a cart-load.

5. Trees and other forest produce not shown in the foregoing list when removed from reserved land or, except in the case of free removals under rule 7 of the general rules under section 26 of the Madras Forest Act (V of 1882), from unreserved land are chargeable at such rates as may be decided upon from time to time by the Collector subject to the control of the Board of Revenue.

DISTRICT OF KURNOOL.

In supersession of all previous notifications on the subject, His Excellency the Governor of Fort St. George in Council is pleased to direct that the following shall be the rates at which permits for the removal of timbers of unreserved trees and other forest produce on seigniorage will, until further orders, be issued under the rules under section 26 of the Forest Act (V of 1882), published in the *Fort St. George Gazette* of 21st August 1894:—
