Since taking verbal orders, I
have gone thro' the papers
again owing to a doubt
I had as to the form that
he up to me that should
take ^{ing} whether the Bd
should be asked why in their
particular case there was
no seasoned timber or (2)
(as the rest of W.M. & 28.28)
we suggest) whether the
Forest Dept. did ever
stock seasoned timber.

Seeing the number of
deposits there are the 2nd
question wd appear too wide
& the answer to the first
question likewise seems
plain. That

plain.
But I notice now that
Hans first note in the subject
(that marked **B** in blue pencil)
is not a question as I at first
took it but an exclamation.
So I now very much doubt
whether the Hm ^{intends} intends or
any reference to be made.
Submitted that, in the lines,

Officer's note

In reply to Ref on case ⁵²⁸ 797, I forward herewith copies of correspondence, I have had on the subject. I undertook to deliver the log at Cannanore about a fortnight after I received an order for it for Rs 3-8- per c ft. How the Port officer, Tellicherry, construed this into my informing "him that no suitable log could be obtained" I do not know.

Resolution

Submitted to Government with reference to G. O.
No. 2565 Mis. dated 5 June 1897.
2. From the correspondence submitted with the Collector and
read above it would appear that the D. & O Officer N. Malabar
was prepared to fell a teak tree and supply the spar but was
asked by the Port Officer Tellicherry in reply to await
instructions from the Presidency Port Officer, Madras. The statement
that he has reported that no suitable log could be obtained is
correct if seasoned timber is alone considered suitable, but the
Port Officer made enquiries regarding the cost of green
logs also.

Re: Cannanore Flag Staff

REVENUE DEPARTMENT.

C No. 6064

From the Board of Rev: Land Rev:

Dated 13th July 1897.

Sheldon Sir Henry Bliss & Co.

FOR ORDERS.

To. on the
back of
the current

A With reference to a
remark made by Commander
Street in a communication of
his to Govt that "the Port Officer
"at Sellicherry reported that the
"District Forest Officer had informed
"him that no suitable log could
"be obtained" from the Forest Dept
for the flag staff of Cannanore,
in his note of 17th May 1897,
the H.M., directed that the atten-
tion of the Revenue Dept should
be drawn to the point, adding
that "it is difficult to see the use
"of a Forest Dept if it cannot
"supply Govt requirements in the
"way of timber."

2 As indicated in the
H.M.'s orders, the Board was in
G.O. no 2865 of 5th June 1897
called upon to submit a report
on the subject and this report

223/7/97

the Board now submits with copies of all the correspondence that has passed between the D.F.O. on the one hand and the P.W. and Port Officers on the other. The correspondence shows that, on an application made by the P.W. Officer of the Wynad Subdivision for a log of teak or Burmabagam the ~~teak~~, Seasoned if available and, if not, green, the D.F.O. expressed his readiness to fell and supply the required log if a fortnight's previous notice was given to him but that the only information which he subsequently received on the subject was that instructions ~~were~~ had been received by the Port Officer at Tellicherry from the Pres. Port Officer "to wait until further orders". The Board points out that the statement made by the Tellicherry Port Officer, ^{as noted by Commander Street} would be correct if seasoned timber alone was considered suitable but that the Officer in question had also made enquiries in regard to the cost of green log.

3. It is submitted that

What is this? I thought Boon was used for Mans - ~~the~~ this maybe Boon however under another name - Please say

⊗ But why hasn't the Pres. Port Officer seasoned timber in stock!
BS

that the papers now before you clearly prove that the Forest Dept was not at all to blame in the matter and that Commander Street's letter was either incomplete in itself or based upon insufficient information furnished to him by the Port Officer at Tellicherry. It seems likely that either or both of them thought that only seasoned wood would be suitable for a spar but an error ~~is~~ ^{is given} as no definite information on the point ^{is given} in the papers now under consideration, orders are solicited as to whether any further reference thereon should be made to the Pres. Port Officer.

The words of Com. Street's letter of 8 May 97 No 1628 (Hy A) viz "the Port Officer Tellicherry reported that the District Officer had informed him that no suitable log could be obtained" are distinctly misleading & it is submitted that more care should have been used in expressing what was meant especially as sanction to buy an iron spar was being sought.
