BOARD OF REVENUE (REV. SETT., L. RDS. AND AGRI.), 14TH JAN. 1897, No. 29.

PROCEEDINGS OF THE BOARD OF REVENUE (REVENUE SETTLEMENT, LAND RECORDS AND AGRICULTURE).

Read—the following G.O., No. 11, Revenue, dated 7th January 1897 :—

Read—Proceedings of the Board of Revenue (Revenue Settlement), dated 25th December 1896, No. 457.

Order—No. 11, Revenue, dated 7th January 1897.

The ruling laid down by the Board in its Proceedings read above does not meet with the approval of Government. The correct principle is, as laid down in paragraph 5 of G.O., No. 615, dated 12th November 1896, that every effort should be made to prevent the waste of money, which will ensue from merely breaking metal and leaving it where broken. But, as the object of famine-relief works is to employ men, human agency, as for example in pushing and pulling metal-laden carts, or in carrying the broken stone, should be employed in transporting the broken metal, even though this mode of carriage be more expensive. It has the great advantage of giving more employment, often in places where it is difficult to find work suitable for relief.

(True Extract.)

(Signed) LIONEL DAVIDSON,
Under Secretary to Government.

To the Board of Revenue (Revenue Settlement).

Resolution—dated 14th January 1897, No. 29.

Communicated to all Collectors for information and guidance in continuation of B.P., No. 457 of 1896.

2. Collectors will observe that Government desires that relief-workers should be utilised in transporting metal from the place where it is broken, or gravel from where it is dug, to wherever it can be utilised, and not, as the Board understands, that expenditure should be incurred in employing bullock-carts to transport it. This will prevent the premature closing of the Bollavaram work in Cuddapah, as the coolies can be employed to carry the metal broken to the road-side without limit of distance.
