GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Irrigation.

Read—the following paper:—

Progress Report of Periyár Works for the quarter ending 30th September 1896.

The estimates for restoring 1st branch channel and for constructing a head sluice in Vadagarai tank are received sanctioned, and the works will be started after the north-east monsoon.

2. Estimates for the construction of masonry works for 3rd, 5th, 8th and 9th branch channels where they enter inam tanks, or intercept the drainage channels to inam tanks, are under preparation. Distributary channels from the irrigation sluices in main channel and for branch channels Nos. 2, 4 and 9 are in progress.

3. Little or no work in progress in the Periyár (Mélúr) sub-division owing to the irregularities that have been discovered in connection with the 10th branch channel and want of estimates.

4. The estimate for the 12th branch channel including all the masonry works, but not the main distributaries, is nearly completed and will be submitted this month.

(Signed) T. W. S. SMYTH,
Ex. Engr., Special Periyár Works.
