ORDER—No. 2148 M., dated 21st December 1896.

The administration reports of the several district municipalities for the year 1895–96 having been reviewed in the orders read above, the Government now proceeds to consider them collectively and summarize the general results of municipal administration during the year.

2. It is satisfactory to observe that there has been some improvement in the punctuality with which these reports were submitted. Only five of them, however, were received on or before the prescribed date, while three (from Rajahmundry, Tellicherry and Walajapet) were more than two months, and that from Cannanore was upwards of three months late. The statements submitted with the reports were generally prepared with greater care than in previous years, but in many instances, and notably in the cases of Calicut, Chidambaram, Walajapet, Cannanore, Cuddapah, Masulipatam and Rajahmundry,—the last four of which merited a similar remark in the general review for 1894–95—they were still far from being as complete and correct as they should have been. Accuracy in the preparation of these reports and punctuality in their submission are matters to which the Chairmen of all Municipal Councils should give their personal attention.

I—CONSTITUTION OF MUNICIPAL COUNCILS.

3. The number of municipalities administered under Act IV of 1884 continued to be 56. The constitution of the councils on the 31st March 1896 is compared below with the corresponding figures for the previous year:—

Year.	Sanctioned strength.		Actual strength on 31st March.				Total.		Grand total.	Europeans and Eurasians.	Natives.
			Officials.		Non-officials.						
	Nominated.	Elected.	Nominated including *ex-officio*.	Elected.	Nominated.	Elected.	Nominated.	Elected.			
1894-95	528	421	166	28	323	354	489	382	871	145	726
1895-96	540	411	186	21	327	374	513	395	908	155	753

Owing to the inefficiency of the administration, the number of elective seats on the Trichinopoly Municipal Council was, during the year under review, reduced from eighteen to eight, or to one-third of the total strength. The maximum number of councillors in Cocanada and Rajahmundry was raised from sixteen to twenty and eighteen, respectively, while in Bimlipatam it was reduced from sixteen to twelve. There was thus an increase of twelve in the sanctioned number of nominated councillors and a decrease of ten among the elected members. The total number of councillors at the end of the year was 908 against 871 in 1894–95, and of these 22·8 per cent. were officials against 22·3 in that year. As compared with three in the previous year, there were six councils—namely, those of Erode, Vániyambádi, Mannárgudi, Srívilliputtúr, Tinnevelly and Srírangam—that consisted entirely of native members.

4. The elective system of appointing councillors continued to be in force in the 34 municipalities shown in Appendix II. The total population in these towns according to the census of 1891 is 1,246,042, of which three per cent. were qualified to vote at elections as in the previous year. One hundred and twenty-three seats were filled by election during the year, and of these, 79 were contested, 60·2 per cent. of the voters concerned attending the poll against 47·7 per cent. in 1894–95—a circumstance which evidences the growing interest taken in public affairs by the electorate. In the other twenty-two municipalities, the elective system was not in force; these towns have a population of 429,907 according to the census of 1891.

5. The privilege of electing its own Chairman was withdrawn from the Trichinopoly Municipal Council in consequence of the unsatisfactory manner in which the administration had been conducted for some time past and a paid official Chairman was appointed by Government. The Municipal Council of Cochin, to which this

right was extended in 1894–95, exercised it only during the year under review, so that the number of municipal councils in the enjoyment of this privilege remained 35 as in the previous year. On the 31st March last, 34 of the 56 Chairmen were non-officials against 32 on the corresponding day in 1895, as shown in the subjoined statement.

Year.	Number of municipalities in which the Chairman was an official.			Number of municipalities in which the Chairman was a non-official.			Number in which the office was vacant and the Revenue Divisional Officer was in temporary charge under section 15 of the Act.	Grand total.
	Nominated by Government.	Elected by the Council.	Total.	Nominated by Government.	Elected by the Council.	Total.		
1894–95	11	8	19	8	24	32	5	56
1895–96	13	5	18	6	28	34	4	56

6. The average sanctioned strength (17) and the average actual strength (16) of the several municipal councils remained unaltered. The number of meetings actually held was 1,668, or 33 more than in 1894–95, but the number of meetings adjourned for want of a quorum, although it fell from 245 to 224, was still unduly large, being especially so in Cocanada (20), Chidambaram (19) and Tanjore (14). The average attendance of the members was 8·8 against 8·5 in the three previous years, and represented 51·8 per cent. of the sanctioned strength. There was an improvement in the attendance of the members, which continued to be fair in the case of the non-officials, but indifferent in that of the officials.

II.—RECEIPTS.

* This is Rs. 22 less than the closing balance of 1894–95 as shown in that year's accounts, the difference being due to corrections made after audit.

There was an increase of Rs. 81,770 in the current receipts, which appears mainly under taxes and tolls and grants from Government. The variations under the several heads are noticed below.

A.—Receipts from Taxation.

8. *Tax on Buildings and Lands.*—As in the previous year, this tax was levied at the maximum rate of 7½ per cent. of the rent value in 36 municipalities. In Ootacamund, Salem and Tinnevelly, the assessment of the tax on lands with reference to the area was discontinued and the correct mode of imposing it at a percentage rate on the annual value was adopted. In Conjeeveram, the taxation on vacant lands and lands unappropriated to buildings was also changed from an acreage rate to a rate on the annual value. But with these exceptions the rates and methods of taxation underwent no material alteration.

9. The principles on which the house and land tax valuations are made remained practically the same as in 1894–95, but the registers of house-tax were revised during the year in eighteen towns and those of the land-tax in nineteen. These registers were, however, still far from complete in several municipalities, while those on which the house-tax assessments in Ongole and the house and land tax assessments in Mangalore were based had not been revised for more than six years. In Ongole, a revision has been undertaken in the current year, and the Municipal Council of Mangalore has been directed to complete, without further delay, the revision of the registers for which arrangements are stated to have been made.

10. The demand, collection and balance of the tax on buildings and lands in each municipality are shown in Appendix III, and the following statement compares the totals for all municipalities with those of the previous year :—

Year.	Demand as originally assessed by the Chairman.		Remitted by the council on appeal.		Demand as finally settled.		Collected.		Remitted and written off.		Balance.		Percentage of collections to demand.

* This is Rs. 559 in excess of the amount shown as outstanding on the 31st March 1895, owing to corrections made after audit.

† Excludes penalties Rs. 227.

The net current demand of the tax exceeded that of the previous year by Rupees 28,803. The increase was spread over 45 municipalities, but it was conspicuous only in Cocanada, Madura, Trichinopoly and Vizianagram, where the assessments were revised, and in Srívilliputtúr, where the tax was levied for the whole year instead of only for a half-year as in 1894–95. The decrease in the remaining eleven towns was slight. The remissions granted by municipal councils on appeal amounted only to Rs. 1,261 against Rs. 2,855 in the previous year. The current collections were 90·2 per cent. of the demand, against 91·9 in 1894–95. The arrear realizations fell from 69·7 to 58·5 per cent., and cannot be considered satisfactory, though the total arrear demand for collection was considerably smaller than in the previous year and probably more difficult of realization. The current collections were good in Walajapet (99·8 per cent.), Tuticorin (99·6), Bezwada, Periyakulam and Palamcottah (99·5), but indifferent in Trichinopoly (73·9 per cent.), Rajahmundry (71·6), Gudiyáttam (70·6), Srívilliputtúr (64·3) and Cannanore (57·8). The proportion of arrears realized was extremely low in Masulipatam (29·3 per cent.), Ootacamund (23·2) and Bellary (18·4), and the unadjusted balances in Masulipatam, Madura, Cannanore and Tanjore were very heavy. The total amount remitted and written off as irrecoverable was Rs. 11,347 against Rs. 10,835 in the previous year. Much of this loss of revenue might have been avoided had collections been more prompt in previous years.

11. Details of the incidence of the tax on buildings are given in Appendix IV. On an average it was Rs. 2-4-6 against Rs. 2-3-3 in 1894-95. As in previous years, the incidence was heaviest in the hill stations of Coonoor (Rs. 17-4-10) and Ootacamund (Rs. 13-5-2), while in the new municipality of Srívilliputtúr, where the registers are obviously very incomplete, it was only As. 11-6. In the remaining 53 towns, it varied from Rs. 5-8-1 in Cocanada to Rs. 1-2-3 in Periyakulam. It was more than Rs. 3-8-0 in Bimlipatam (Rs. 4-8-6), Vizagapatam (Rs. 4-3-8), Cuddapah (Rs. 3-15-0) and Cochin (Rs. 3-11-10), and below Rs. 1-4-0 in Tinnevelly (Rupees 1-3-10), Mannárgudi (Rs. 1-3-8) and Vellore (Rs. 1-3-2). There is ample reason for believing that the assessments of this tax are in many instances either inaccurate or incomplete, and the Government has insisted upon the municipal councils concerned taking action to revise the assessments in those municipalities where the duty has been neglected.

Excluding the land taxed in Calicut, Cochin, Mangalore and Vizagapatam, the extent of which is not known, 62,977 acres of land in the remaining 52 towns were assessed at Rs. 71,916, that is, at Rs. 1-2-3 per acre on an average, against As. 15-8 in 1894-95 and As. 15-1 in 1893-94. The average assessment was highest in Rajahmundry (Rs. 7-11-2) and lowest in Tiruppattúr (As. 2-5).

12. A water-tax on buildings and lands was levied in six towns, the rates calculated on the annual rent value being as in the previous year, 3 per cent. in Cuddapah, 1½ per cent. in Masulipatam, 4 per cent. in Madura, and 1 per cent. in Ootacamund, while in Coonoor and Tanjore, where the tax was levied for the first time, the rates were 1 per cent. and 4 per cent. respectively. Out of a total net demand of Rs. 52,799 (current Rs. 49,851 and arrears Rs. 2,948), Rs. 40,601 or 76·9 per cent. were collected against 83·7 per cent. in 1894-95. Excluding Rs. 314, remitted and written off as irrecoverable, there remained a balance of Rs. 11,884, of which Rs. 141 appertained to Cuddapah, Rs. 1,164 to Masulipatam, Rs. 7,060 to Madura, Rs. 233 to Ootacamund, Rs. 102 to Coonoor and Rs. 3,184 to Tanjore. In Madura the tax was not imposed generally throughout the town till November 1895.

13. *Tax on Arts.*—This tax was levied in 51 municipalities against 49 in the previous year. It was for the first time imposed in the towns of Dindigul and Vániyambádi during the year under review, while in Srívilliputtúr, it was withdrawn in respect of persons falling under the last class of the schedule. In the municipalities of Coimbatore, Erode, Karúr, Palni and Tiruppattúr, the tax was not levied at all, while in eleven towns against nine in 1894-95, it was not extended to all classes of the schedule.

14. The demand, collection and balance of the tax on arts in each municipality are shown in appendix V and the totals for all municipalities are compared below with those of the previous year:—

Year.	Demand as originally assessed by the Chairman.		Remitted by the Council on appeal.		Demand as finally settled.		Collected.		Remitted and written off as irrecoverable.		Balance.		Percentage of collections to demand.

* This is Rs. 7 less than the balance shown as outstanding at the close of 1894-95, the difference being due to corrections made after audit.
† Excludes penalties amounting to Rs. 151.

The net current demand exceeded that of the previous year by Rs. 11,957. The remissions made by the municipal councils on appeal amounted to 7 per cent. of the demand against 7·4 per cent. in 1894-95, but they were excessive in Vániyambádi (51·6), Cocanada (27·8), Bimlipatam (20·4) and Dindigul (14·6). In Cocanada

and Bimlipatam, remissions were largely granted under section 60 of the District Municipalities Act in favour of Joint Stock Companies carrying on trade also in other municipalities, while in Vániyámbadi and Dindigul they were probably due to the fact that the assessments were new and the remissions granted with undue leniency. Excluding these two municipalities and the town of Srívilliputtúr, where the tax was levied for the whole year and not for only a half year as in 1894-95, the increase in the net demand occurred in 32 towns, and was highest in Cocanada (Rs. 1,574), Negapatam (Rs. 1,178), Vizianagram (Rs. 889) and Madura (Rs. 737). In the remaining sixteen towns there was a falling off, which was most marked in Bezwada (Rs. 628) and Salem (Rs. 406). The current collections, amounting to 87·7 per cent. of the demand against 87·4 per cent. in the previous year, continued to be fair, but the realization of the arrears amounting to 39·7 per cent. against 50·6 per cent., must be characterised as unsatisfactory. The current collections in Salem (99·9 per cent.), Bimlipatam (99·8), Tinnevelly (99·4), Periyakulam (99·2) and Coonoor (99·1) were excellent, but in Madura (70·6), Tanjore (67·4), Rajahmundry (58·4) and Srírangam (57·4) they were indifferent. The percentage of arrear realizations to demand was very low in Ootacamund (14·8), Bimlipatam (11·1), Cannanore (10·4), Bellary (9·5), Chicacole (4·9) and Ongole (4·1), and the outstanding balances in Tanjore, Masulipatam and Cannanore were far too large. The total amount remitted and written off as irrecoverable was Rs. 15,335 against Rs. 11,832 in 1894-95.

15. The incidence of the tax on arts in the several municipalities is shown in appendix VI. The total number of persons assessed and the average incidence were 64,272 and Rs. 4-1-0, respectively, against 59,967 and Rs. 4-2-5 in the previous year. The number of assessees was 4·1 per cent. of the population of the towns concerned against 3·9 per cent. in 1894-95, but the proportion taxed under the higher classes of the schedule was smaller than in that year. The incidence was highest in Cochin (Rs. 10-7-2), Mannárgudi (Rs. 10-2-3), Negapatam (Rs. 9-14-1) and Bellary (Rs. 9-8-11); it was low in Conjeeveram (Rs. 2-6-10), Salem (Rs. 2-5-4), Máyavaram (Rs. 2-3-11) and Chidambaram (Rs. 2-1-10). The incidence does not appear always to follow what is understood to be the relative wealth of the population of the towns concerned, and from time to time Government has issued orders requiring the councils to revise the assessments and place them on a more equitable footing.

16. *Tax on Vehicles with Springs, Animals and Carts.*—As in previous years, these taxes were levied in all municipalities except Palghat, where the tax on animals has not yet been imposed. The receipts amounted to Rs. 1,65,791 against Rupees 1,62,084 in 1894-95, but the Government has little doubt that by the exercise of more careful supervision over the municipal executive, this source of revenue could be still further developed.

17. *Coercive Processes.*—Appendix VII shows the extent to which coercive measures were adopted for the collection of the several taxes in each municipality and the following abstract compares the total figures for 1895-96 with those for the previous year:—

Year.			Number of warrants remaining unexecuted at the beginning of the year.	Number of warrants issued during the year.	Total.	Number of warrants adjusted during the year.	Number of warrants remaining unexecuted at the close of the year.

The number of warrants issued during the year was 113,654 against 127,791 in 1894-95, showing a marked decline which is satisfactory. Including the unexecuted warrants of the previous year, the total number for disposal was 143,428 and

of these 121,534 were executed or cancelled within the year, leaving 21,894 unadjusted at its close. As in previous years, the largest number of warrants was issued in Calicut (23,569). In Bellary, Conjeeveram and Mangalore also, free resort was had to coercive process, while in Tanjore, although the collections were unsatisfactory, the number of warrants issued was less by one-third than in 1894–95, and of the total number for disposal the large proportion of 46 per cent. was not executed within the year. In Parlákimedi and Bezwada, however, no recourse to process was required. Of the total amount of Rs. 2,40,726 covered by all the warrants, Rs. 1,84,607 were realized. Property was sold in 436 cases against 458 in 1894–95, the proceeds being Rs. 707 against Rs. 689. The number of prosecutions instituted for default of payment was 2,518, the largest being in Srírangam (573) and Ootacamund (427).

18. *Tolls.*—The statistics relating to tolls are shown in Appendix VIII. They were levied in the same number of municipalities—namely, 53—as in the previous year. Of these 49 had toll-gates of their own, and the remaining four (Palamcottah, Tinnevelly, Srírangam and Trichinopoly) continued to receive a share of the receipts from the gates managed by the district boards. The tolls in Chicacole, Cocanada, Masulipatam, Kurnool, Mannárgudi and Srívilliputtúr were collected departmentally, while in the other towns they were leased out to contractors. In Chicacole the rate of tolls was raised from one-half to three-fourths and in Kurnool and Vizianagram from three-fourths to the maximum. The number of municipal toll-gates was 333 or one less than in 1894–95, and the gross collections amounted to Rs. 4,67,834 against Rs. 4,37,529. Of this, a sum of Rs. 1,23,965 was paid to District Boards, while the contributions received from these bodies amounted to Rs. 24,421. The total income credited to municipal funds under this head was thus Rs. 3,68,290 against Rs. 3,45,740 in the previous year, the increase occurring chiefly in Chicacole and Kurnool, where the rates were increased, and in Masulipatam, where the collection of tolls was managed departmentally.

19. *Incidence of Taxation.*—Appendix IX shows the incidence of the total taxation in each municipality. The average incidence was As. 14-3 including tolls, and As. 10-9 excluding them, against As. 13-10 and As. 10-6, respectively, in 1894–95.

B.—Miscellaneous Receipts.

20. The miscellaneous receipts amounted to Rs. 12,87,317 against Rs. 12,52,793 in 1894–95—the increase, which occurred chiefly under "Rent of lands, buildings, &c.," "Markets and slaughter-houses" and "Grants from Government" being partly counterbalanced by a decline under "Grants from other sources" and "Advances recovered." The causes of these variations are noticed below.

21. *Rent of Lands, Buildings, &c., and Sale-proceeds of Lands, Produce of Lands, &c.*—The receipts from rents amounted to Rs. 31,113 against Rs. 26,573 in 1894–95, and from sale-proceeds and produce of lands to Rs. 25,045 against Rs. 19,095. The increase under the former head occurred chiefly in Madura and Negapatam, owing in a great measure to larger realizations from avenues, while in the latter it was due chiefly to the sale of large plots of land for the construction of public buildings in Bezwada and for the formation of roads and a cart-stand in connection with the East Coast Railway in Vizagapatam.

22. *Conservancy Receipts.*—The conservancy income was Rs. 28,484 against Rs. 24,755 in 1894–95. The largest revenue was obtained in Trichinopoly (Rupees 5,365), Coonoor (Rs. 3,000), Conjeeveram (Rs. 2,297), Tanjore (Rs. 2,231) and Cuddalore (Rs. 2,045). No income was derived from this source in Erode, while in Parlákimedi, Cocanada, Ellore, Cochin and Tellicherry the amount realized was next to nothing. Notwithstanding the repeated remarks of Government, the municipal councils generally continue to display a want of interest in the improvement of this branch of revenue; much more might be done in the way of creating a market for town sweepings or of utilizing them in municipal gardens or farms. Special stress has again been laid upon the matter in the individual reviews and the Government trusts that the instructions therein conveyed will receive due attention.

23. *Fees and Revenue from Educational Institutions.*—The receipts under this head amounted to Rs. 1,01,984 against Rs. 92,442 in the previous year. The increase occurred chiefly in Ellore and Rajahmundry, being due to increased school attendance in the former town and to the opening of a lower secondary school during the year in the latter.

24. *Fees and Revenue from Markets and Slaughter-houses.*—The total income was Rs. 1,66,461, or Rs. 12,960 more than in 1894–95. Of this sum, Rs. 1,21,694 were derived from markets and Rs. 44,767 from slaughter-houses. All the municipal councils except those of Berhampur, Ellore, Srívilliputtúr, Tuticorin and Bimlipatam, had public markets of their own. In the first two of these towns, however, the construction of public markets was either in progress or under contemplation, while the needs of the others were supplied by good private markets. There were in all 109 municipal markets against 107 in 1894–95, the largest number being, as in the previous year, in Trichinopoly (8), Srírangam (7) and Madura (6). In ten of these markets the collection of fees was managed departmentally, while in the others it was leased out to contractors. The receipts were largest in Trichinopoly (Rs. 15,064), Coonoor (Rs. 9,300), Ootacamund (Rs. 9,202), Vellore (Rs. 8,890), Masulipatam (Rs. 7,441) and Madura (Rs. 7,315), and smallest in Srírangam (Rs. 369), Vániyambádi (Rs. 325) and Bellary (Rs. 162). The expenditure incurred on these institutions on account of public works and establishment being Rs. 26,610, the net receipts amounted to Rs. 95,084 against Rs. 86,182 in 1894–95.

25. *License Fees.*—The receipts under this head were Rs. 38,962, against Rupees 35,843 in the previous year. The collections exceeded Rs. 2,000 in Madura (Rs. 2,680), Kumbakónam (Rs. 2,238), Calicut (Rs. 2,183) and Negapatam (Rs. 2,146), but fell below Rs. 150 in Palamcottah (Rs. 146), Cochin (Rs. 131), Parlákimedi (Rs. 117), Anakápalle (Rs. 105), Tirupati (Rs. 101), Gudiyáttam (Rs. 97) and Bimlipatam (Rs. 88). The particular attention of municipal councils has been drawn to the development of this source of revenue and to the necessity of adhering strictly to the rule of prepayment of the fees.

26. *Fines under the Municipal and other Acts.*—Fines realized Rs. 40,714, or Rs. 210 less than in 1894–95. They were above Rs. 2,000 in Madura (Rs. 3,683), Kumbakónam (Rs. 3,289) and Bellary (Rs. 3,022), but below Rs. 100 in Srívilliputtúr (Rs. 94), Ootacamund (Rs. 77) and Parlákimedi (Rs. 75).

27. *Grants and Contributions.*—The grants from Government were Rs. 3,90,018 against Rs. 3,41,534 in the previous year. During the year, contributions were paid to the municipalities of Conjeeveram (Rs. 91,000), Kurnool (Rs. 1,34,730), Dindigul (Rs. 29,000), Ootacamund (Rs. 45,000), and Trichinopoly (Rs. 8,700), in aid of their water-supply schemes, while a grant of Rs. 10,000 was made to the Vániyambádi council towards the construction of a suspension bridge over the Pálár. The contributions received from local funds and other sources amounted to Rs. 88,026 and Rs. 8,262, respectively, against Rs. 79,988 and Rs. 24,148 in 1894–95, the decrease in the latter case being due to the absence of special grants as in that year.

28. *Recoveries for Services to Private Individuals.*—These amounted to Rs. 72,897 against Rs. 65,303 in the previous year. Of this sum, Rs. 67,098 were recovered as fees for the private scavenging service, and the remainder for other services. The private scavenging system continued to be in force in all the municipalities. The number of houses served by municipal agency rose from 36,257 to 39,940 and exceeded 1,500 in Trichinopoly (3,907), Palamcottah (2,462), Mangalore (2,373) and Negapatam (1,750), but was below 150 in Coonoor (145), Anakápalle (143), Karúr and Parlákimedi (140), Anantapur (125) and Srívilliputtúr (97). But the proportion of the houses served to the total number assessed to the tax on buildings is still very low, and there is ample scope for further advance. No improvement, however, can be expected until the penal sections of the Act are systematically enforced against those who persist in keeping their premises in an insanitary condition. Of the total amount of fees due (Rs. 80,247), only Rs. 67,078 or 84 per cent. were collected. The whole of this sum could have been realized had all municipal councils collected the fees for this service in advance, as repeatedly pointed out by Government. Attention has again been called to this subject in the individual reviews. The total expenditure on account of the service amounted to Rs. 68,082 and exceeded the receipts by only Rs. 984, but the system, it is gratifying to observe, was self-supporting in 32 municipalities against 22 in 1894–95. The net expenditure was heaviest in Calicut (Rs. 1,598), Trichinopoly (Rs. 1,478), Cuddalore (Rs. 1,107) and

Masulipatam (Rs. 840)— all fairly flourishing municipalities in which there is no admissible excuse apparent for imposing any part of the cost of the service upon the general tax-payer.

29. *Loans.*—Loans amounting to Rs. 80,000, Rs. 33,000, Rs. 31,500 and Rs. 32,000, respectively, were obtained from Government by the municipal councils of Conjeeveram, Dindigul, Madura and Trichinopoly for expenditure on their water-supply schemes, and the Vániyambádi Municipal Council borrowed a sum of Rs. 13,800 from Provincial funds for the construction of a suspension bridge over the Pálár. Further particulars regarding the indebtedness of municipalities will be found in Appendix XXII.

III.—EXPENDITURE.

30. The charges under the several heads are compared in the following abstract with the actuals of the previous year and with the budget estimates for 1895–96 :—

The total charges exceeded those of the previous year by Rs. 1,41,871, the increase which appears mainly under Grant 3 and under advances and investments being partly counterbalanced by a decrease under Grant 1.

Grant 1.—Public Works.

31. The expenditure on public works amounted to Rs. 7,83,137 against the budget estimate of Rs. 13,43,730 and the actuals of Rs. 8,32,609 in 1894–95. It was 28·2 per cent. of the year's receipts and 30·6 per cent. of the total outlay under all heads, against 30·9 per cent. and 34·5 per cent., respectively, in the previous year. The decrease as compared with the budget estimate and also with the actuals of 1894–95 occurred chiefly under water-supply and the large difference in the former case was due to the non-utilization of the greater part of the allotments provided for the important water-supply schemes in Conjeeveram, Dindigul and Kurnool, and of the full amounts assigned for the schemes in Ootacamund and Coonoor which are still under investigation.

32. *Roads.*—The total expenditure on roads was Rs. 2,64,643 against the budget estimate of Rs. 2,37,690 and the actuals of Rs. 2,58,166 in the previous year. Of this sum, Rs. 41,395 were expended on new works and Rs. 2,23,248 on repairs, against Rs. 38,597 and Rs. 2,19,569 respectively in 1894–95. There were marked increases in Adóni, Conjeeveram, Berhampur, Cocanada, Kurnool, Madura, Ongole, Tirupati, Chidambaram, Kumbakónam, Máyavaram and Tuticorin, which were partly counterbalanced by decreases in Bellary, Coimbatore, Erode, Palghat, Nellore, Ootacamund, Vellore, Salem, Mannárgudi, Negapatam, Tanjore, Vizagapatam and Vizianagram. The total length of roads maintained in the various municipalities was 1,341 miles, of which 888 were metalled or gravelled and 453 unmetalled. There were 26 miles more of metalled and 15 miles less of unmetalled roads than in the previous year, in which the total length maintained was shorter by 11 miles than in the year under review. The proportion of unmetalled roads was large in Conjeeveram, Guntúr, Palghat, Ootacamund, Kumbakónam, Mannárgudi, Máyavaram and Negapatam. In the last four of these towns which are situated on the alluvial soil of the Cauvery delta, the difficulty of procuring metal is great. In all except the eight municipalities named in the margin, the roads are reported to have been in good condition. Orders regarding these eight towns have been passed in the individual municipal reviews.

Bellary.	Rajahmundry.
Berhampur.	Calicut.
Chicacole.	Walajapet.
Ellore.	Tiruppattúr.

33. *Road Charges and Tolls.*—The total outlay on roads was 73·8 per cent. of the net municipal income from tolls against 69·8 per cent. in the previous year. In nine municipalities the proportion exceeded 100 per cent., but it fell below the prescribed minimum of 50 per cent. in the seventeen towns named in the margin. The attention of the municipal councils which offered no adequate explanation of the short outlay has been drawn to the neglect in the reviews of the individual reports.

Chicacole	49·6	Cannanore	40·7
Vániyambádi	49·2	Vellore	39·7
Walajapet	49·2	Mannárgudi	39·2
Berhampur	47·5	Parlákimedi	38·5
Anakápalle	47·4	Bellary	36·1

Guntúr	43·3	Bimlipatam	25·1
Anantapur	43·3	Palni	24·8
Dindigul	43·1		

34. *Buildings.*—The expenditure under this head amounted to Rs. 1,26,815 against Rs. 1,04,724 in the previous year. Of this sum, Rs. 88,045 were spent on new works and Rs. 38,770 on repairs. The increase occurred chiefly in Madura and Palghat; in the former town, sites for new slaughter-houses were purchased, and in the latter, a market at an estimated cost of Rs. 13,500 was constructed.

35. *Drainage and Water-supply.*—The outlay under drainage was Rs. 37,579 against Rs. 56,685 in 1894–95. Of this sum, Rs. 10,214 were spent on new works and Rs. 27,365 on repairs. No new drainage works of any considerable importance were executed during the year. The expenditure on water-supply amounted to Rs. 3,07,748 against Rs. 3,55,054 in 1894–95. Of this sum, Rs. 2,41,854 were spent on new works and Rs. 65,894 on repairs. The Adóni and Tanjore water-supply schemes were completed during the year, while those of Conjeeveram, Dindigul, Kurnool and Trichinopoly were under execution. Several other schemes of water-supply and drainage were either sanctioned by, or under the consideration of, Government, or under investigation by the Sanitary Engineer. The progress made or the action taken in each case is shown in Appendix X.

36. *Establishment.*—The charges on account of the public works establishments other than those entertained for the drainage and water-supply schemes, the cost of which is included in the expenditure on these schemes, amounted to Rs. 28,144 against Rs. 29,279 in the previous year. Except in Anantapur, Bimlipatam, Karúr and Tiruppattúr, where the execution of ordinary public works was supervised by the Chairmen or councillors, either overseers or maistries were employed in the several municipalities. The cost of this establishment was 7·1 per cent. of the expenditure on roads and buildings against 8·1 per cent. in 1894–95.

Grant 2.—Education.

37. The educational operations of municipal councils were conducted on the same principles as in previous years. The total expenditure on education, excluding

the amount spent on school buildings (Rs. 9,754), shown under Grant 1, but including the contributions paid to Local and Provincial Funds (Rs. 1,404), was Rs. 3,24,164 against Rs. 3,11,129 in 1894–95. The increase occurred chiefly in Berhampur and Rajahmundry, owing mainly, in the former case, to the opening of new primary schools, and, in the latter, to the opening of a lower secondary school and the payment of charges incurred in the previous year. Details of expenditure under this head are compared below with the figures of the previous year :—

38. There were 320 municipal schools and colleges on the 31st March 1896 against 317 in the previous year. Of these, 28 were colleges or secondary schools and 292 primary schools. Twenty-five of the former and six of the latter were maintained on the salary system and the rest on the salary-result system.

39. *Colleges and Secondary Schools.*—Three of these were second-grade colleges, fourteen upper secondary schools, and the remaining eleven lower secondary schools. The strength and cost of the higher departments of these institutions are shown below :—

—	Year.	Strength at the end of the year.	Average attendance.	Net cost.	Average cost of educating each pupil.
				Rs.	Rs. A. P.
Colleges and Upper Secondary Schools and Departments—					
All salary system	1894–95	1,001	871	4,414	5 1 1
	1895–96	1,153	906	1,508	1 10 8

	1895–96	75	58	558	9 9 11

The strength and average attendance of the collegiate and upper secondary departments increased, but their net cost decreased largely and the average cost of educating each pupil fell from Rs. 5–1–1 to Rs. 1–10–8. This very gratifying reduction was owing chiefly to improved attendance and consequent higher receipts from school fees in Anantapur, Cannanore, Tellicherry and Máyavaram, as well as to some fall in the expenditure, mainly in Chicacole. In the lower secondary departments of the schools on the salary system the attendance improved, but the net cost also increased, with the result that the cost per pupil rose from Rs. 1–1–3 to Rs. 1–9–2, while in these departments of the schools on the salary-result system both the attendance and the net cost decreased, but the cost per pupil rose from Rs. 8–11–0

to Rs. 9–9–11. In Cuddapah, Chicacole, Kurnool, Cannanore, Walajapet, Máyavaram and Bimlipatam, the upper secondary departments were worked at a profit, which was largest in Chicacole. The average cost per pupil was very high in the upper secondary departments in Ootacamund (Rs. 107), Gudiyáttam (Rs. 78), and Karúr (Rs. 26), and in the lower secondary departments in Calicut (Rs. 94 in the salary-result system school), in Ootacamund (Rs. 55), and in Cuddapah (Rs. 23). The necessity of reducing this in the current year has been impressed upon the municipal councils concerned.

					222	56	373	168

These results were decidedly better than in the previous year and were considered satisfactory.

41 *Primary Schools.*—The strength and cost of the primary schools and departments maintained by municipal councils are compared below with the figures of the previous year :—

—	Strength at the end of the year.	Average attendance.	Net cost.	Average cost of educating each pupil.
			Rs.	Rs. A. P.
Salary System—				
1894–95	1,019	802	3,010	3 12 1
1895–96	1,447	1,264	3,983	3 2 5
Salary-result System—				
1894–95	16,130	12,873	64,453	5 0 1
1895–96	16,645	13,270	67,835	5 1 9

The strength and average attendance improved in both classes of schools. In the salary-system schools the average cost of educating each pupil showed a decrease. In the salary-result system schools it was slightly in excess of that in the previous year, the increase in the net cost occurring in 39 municipalities, but chiefly in Adóni, Ellore, Palghat, Mayavaram and Trichinopoly. The salary-system school at Rajahmundry was self-supporting, while the schools at Berhampur and Máyavaram were worked at a profit. The net cost per pupil was high in the following municipalities.—

	Rs.	A.	P.
Salary-system Schools—			
Ootacamund	13	1	3
Salary-result-system Schools—			
Ootacamund	12	6	10
Guntúr	9	4	7
Palamcottah	8	6	10
Vizagapatam	8	6	3
Negapatam	8	4	11
Cuddalore	8	0	0
Bezwada	7	11	6
Cochin	7	10	10
Masulipatam	7	2	5

The municipal councils of these towns have been instructed to use every endeavour to reduce the cost.

42. *Grant-in-aid Schools.*—The number and strength of the several departments of these schools and the amount of grants paid to them are shown in Appendix XII. There were in all 842 schools at the end of the year against 820 in 1894–95, the attendance on the 31st March 1896 being 52,843 against 49,416. The improvement in the attendance occurs chiefly in Rajahmundry and Calicut, where there was a larger number of schools aided, and in the newly-created municipality of Srívilliputtúr, where no schools were aided in the previous year. Of the total number of pupils, 43,710, or 82·7 per cent., attended the result-system schools and 71·5 per cent. of the total amount of grants disbursed was earned by them. The total amount paid as grants was Rs. 85,896, being 92·0 per cent. of the allotment—a satisfactory increase as compared with the proportion of 89·2 per cent. in the previous year. The percentage exceeded 100 in ten municipalities and fell below 75 in eleven others. Appendix XIII summarizes the explanations furnished by the councils concerned of the failure to utilize the budget allotments fully. Result grants appear to have been paid in 35 municipalities at the maximum rates allowed in the Grant-in-aid code, and in the others at varying rates or under the assignment system.

43. *Stipends in Training Schools and Inspection.*—The expenditure under these heads fell from Rs. 3,530 and Rs. 11,707, respectively, to Rs. 2,742 and Rs. 11,568. The number of pupils under training rose from 58 to 75—an increase which is so far gratifying; but it is matter for regret that there is still so large a number of teachers employed in the municipal and aided schools who are untrained. This state of things is detrimental to the progress of education and can only be remedied if municipalities will steadily pursue the policy of denying employment to untrained teachers in their own schools and of reducing or refusing grants to such men in aided schools. As in the previous year, there were 52 inspecting schoolmasters employed by municipal councils except those of Anantapur, Palni, Walajapet, Srívilliputtúr, Anakápalle and Bimlipatam, in which no special arrangements were made for the inspection of schools.

44. Statistics relating to the net expenditure on education and other facts regarding the schools in municipalities are shown in Appendix XIV. The total net outlay under this head was Rs. 1,88,708 against Rs. 1,82,912 in 1894–95 and was 12·6 per cent. of the municipal income from taxation as in that year. Of this amount, Rs. 31,255 or 16·6 per cent. were spent on secondary, and the remainder on primary, education. The percentage of the net expenditure to the income from taxation was high in Vellore (25·5), Palghat (22·1), Rajahmundry (20·7) and Tellicherry (19·4), and very low in Srívilliputtúr (6·8), Mayávaram (6·5) and Anantapur (2·3). The total number of boys under instruction in the municipal and aided schools was 57·3 per cent. of the male population of school-going age against 54·3 per cent. in 1894–95. The proportion was very satisfactory in Ongole (125·7), Tellicherry (95·8), Mayávaram (93·6), and Guntúr (91·7), but very low in Srívillipúttur (29·8) and Gudiyáttam (25·8).

Grant 3.—Medical Services and Sanitation.

45. *Hospitals and Dispensaries.*—The expenditure under this head amounted to Rs. 2,77,263 against Rs. 2,56,518 in 1894–95. The increase occurs chiefly in Madura, Trichinopoly, Mangalore, Nellore and Srívilliputtúr. In the last town it was due to the transfer to the municipal council of the hospital formerly maintained by the taluk board; in Madura mainly to the payment of the previous year's arrears; in Trichinopoly to the entertainment of a matron for the hospital and increased expenditure on European medicines and surgical instruments; in Nellore to the opening of a hospital for women and children, and in Mangalore to the maintenance of the hospital for women and children throughout the year and not for five months only as in 1894–95. As in previous years, there was at least one hospital or dispensary in every municipality. The hospitals at Dindigul, Ootacamund, Vizagapatam and Vizianagram continued to be under private management, but except in the last town contributions were paid by the municipal councils concerned towards their maintenance. The hospital at Tirupati remained under the control of the North Arcot district board. In Tanjore, in-patients were accommodated in the hospitals maintained by the district board in that city, while the American Mission at Ranipettai received in the in-patients of the Walajapet Municipality. The hospital building with accommodation for in-patients which was under construction in Gudiyattám was completed during the year, while the construction of that at Vániyambádi continued to be in progress. Appendix XV shows the number of persons treated in the several hospitals and dispensaries. Excluding the number treated in the hospital at Vizianagram, which has not been reported, the total number of in-patients showed a slight increase, being 22,382 against 22,019 in 1894–95, while the number of out-patients rose from 1,151,243 to 1,201,101. The increase in the latter case was mainly due to the inclusion of the number treated in the hospital at Srívilliputtúr. There were marked increases in Vellore, Madura and Dindigul, which testify to the growing popularity of the institutions. All municipal councils which maintain hospitals or dispensaries of their own have framed rules under section 127 of Act IV of 1884 regarding the reception of patients and the conditions of treatment.

46. *Midwives.*—Except in Anakápalle, where a competent person could not be secured, a midwife was attached to every municipal hospital and dispensary. The total number of midwives employed was the same (67) as in the previous year, but the number of labour cases attended by them rose from 4,924 to 5,727, giving an average of 85 cases for each against 74 in 1894–95. The largest number of cases was attended by the midwives at Madura (274), Mannárgudi (229), Cocanada (225), Trichinopoly (222), Tanjore (213), Vizagapatam (210) and Bellary (207), and the smallest by those at Cuddapah and Coonoor (48), Cochin (46), Salem (43), Tellicherry (43), Tinnevelly (40), Walajapet (37), Vániyambádi (34), Calicut (17), and Bezwada (6).

47. *Medical Training of Women.*—The information furnished on this subject will be found summarised in Appendix XVI. The only municipality in which action was taken in this direction during the year was Chicacole, from which a pupil was sent to Madras for education in the Medical College. Eight municipal councils state that there is no necessity for any action on their part, as in their towns female medical aid is already available or trained midwives or female medical practitioners are employed in the municipal hospitals and dispensaries. A large number of municipal councils, however, have furnished no information on the point and have therefore presumably done nothing in furtherance of female medical education. The attention of these and other councils is drawn to the remarks of Government on this subject in paragraph 48 of G.O., No. 1973 M., dated 25th November 1895. Appendix XVI-A shows the names of the municipal councils which have hitherto done nothing towards promoting the objects of the Countess of Dufferin's Fund. The administration reports of all municipalities in which no female medical aid is available should furnish information as to the steps being taken to provide such aid.

48. *Vaccination.*—The work done in this department has already been fully reviewed in G.O., No. 1346 L., dated 27th July 1896, on the report of the Inspector of Vaccination. The statistics relating to vaccination will be found in Appendix XVII. Vaccination was compulsory in all municipalities in the Presidency. The total number of operations fell from 95,828 to 95,052, and of these 88,207 or 92·8 per cent. were reported to have been successful against 89,730 or 93·6 per cent. in the previous year. There was thus a slight apparent decline both in the quantity and the quality of the work. The number of operations performed by medical subordinates rose from 2,464 to 4,095. The best work was turned out in Tiruppattúr, Salem, Máyavaram, Ootacamund and Coonoor, while in Periyákulam, Tellicherry and Cannanore it was

poor. The proportion of the total number of reported successful operations to the population declined slightly, being 52·6 per mille against 53·5 in 1894–95. The best results are reported to have been secured in Coonoor (114·6), Calicut (93·6), Ootacamund (81·6) and Bezwada (80·7), and the worst in Kumbakónam (32·8), Mannárgudi (32·7); Srívilliputtúr (26·0) and Cuddapah (23·4). The number of children under one year reported to have been successfully vaccinated rose from 42,328 or 25·3 per mille of the population to 45,533 or 27·2 per mille. Except in Dindigul, Madura, Calicut, Coonoor, Ootacamund, Salem, Tiruppattúr and Vániyambádi, where the proportion exceeded 35·0 per mille, the results cannot be considered satisfactory. Infantile vaccination was very backward in Cuddapah and Srívilliputtúr, where less than 15 per mille of children under one year were successfully vaccinated. If the instructions issued in G.O., No. 1502 M., dated 19th October 1894, are carefully observed, and the compulsory provisions of the law strictly enforced, it should be possible to reduce the number of unprotected children in municipal towns to very trifling proportions. The number of prosecutions for failure to have children vaccinated rose from 11,253 to 13,933, the largest number being instituted in Cocanada (1,449), Trichinopoly (1,259) and Madura (1,251). Vaccination was performed exclusively with animal lymph in all municipalities except Bellary, Coimbatore, Rajahmundry, Masulipatam, Madura, Periyakulam, Cuddalore and Mannárgudi. The total number of operations performed by this means was 87,246 against 89,268 in the previous year, and of these 80,976 or 92·8 per cent. against 83,453 or 93 per cent were successful. The average cost of each successful operation performed by municipal vaccinators was still high being As. 4–1 or only one pie less than in 1894–95. It was excessive in Cuddapah, Kurnool, Tirupati and Walajapet, in each of which the cost exceeded As. 8, and was below As. 3 in Coimbatore, Parlákimedi, Rajahmundry, Madura, Calicut, Salem, Trichinopoly, Anakápalle and Vizianagram.

49. *Vital Statistics.*—The numbers of births and deaths registered during the year are compared below with the figures of the previous year:—.

—	Births.	Rate per mille.	Deaths.	Rate per mille.
1894–95	53,202	31·7	43,170	25·8
1895–96	56,207	33·5	44,158	26·3

There was an improvement under both heads, which is satisfactory. As, however, the rates recorded were still below the normal, the matter of making these statistics complete and accurate demands increased attention from municipal councils. The death-rate exceeded the birth-rate in Berhampur, Chicacole, Cuddapah, Tirupati and Chidambaram, but no explanation of this has been offered. The registration of births in Cuddapah, Berhampur and Chicacole, and of deaths in Anantapur, Cocanada, Ellore and Srívilliputtúr was very backward. The attention of the municipal councils concerned has been drawn in the individual reviews to the necessity of improvement in the work of this department. Prosecutions for failure to register births and deaths fell from 1,330 to 870, and were instituted in 41 towns as against 37 towns in 1894–95. The largest number was in Tuticorin, Palghat, Srírangam and Nellore, but in Anantapur and Srívilliputtúr there was not a single prosecution and in Berhampur there were only four cases, though in these three towns registration was not satisfactory.

50. *Conservancy.*—The amount spent on conservancy, road-cleaning and road-watering was Rs. 5,12,643 against the budget estimate of Rs. 5,25,060 and the actuals of Rs. 4,78,883 in 1894–95. The increase over the previous year's figure occurs chiefly in Masulipatam, Madura, Calicut and Vellore. The expenditure amounted to 97·8 per cent. of the allotment against 96·3 per cent. in 1894–95 and was satisfactory. In fourteen municipalities the proportion exceeded 100 per cent., and in only one it was below 85 per cent. The proportion of expenditure to the ordinary receipts, excluding special grants from Provincial funds and loans, rose from 21·5 to 23·5 per cent. It exceeded 25 per cent. in sixteen municipalities and fell below 15 per cent. in three. Information regarding the sanitary condition of the various municipalities when last inspected by the Sanitary Commissioner or his Deputy is

summarised in Appendix XIX. The condition of all towns continued to be much the same as in the previous year. The attention of municipal councils is again drawn to the remarks of Government on this subject in paragraph 53 of the General Review for 1893–94. The instructions contained therein should be kept in view in improving the sanitation of the towns under their control. Appendix XX shows the number of public latrines provided in the several municipalities. The total number rose from 1,131 to 1,172, giving an average of one latrine for every 1,430 inhabitants against one for every 1,482 in the previous year. In 46 municipalities the number was below the prescribed minimum of one for every 1,000 inhabitants. The special attention of the councils concerned has been drawn to this in the individual reviews.

Grant 4.—Lighting and Miscellaneous.

51. *Lighting.*—The amount spent on lighting was Rs. 1,08,320 against Rupees 1,01,016 in the previous year, the increase appearing chiefly in Madura, Kumbakónam and Trichinopoly. The total number of lights was 13,705 against 13,222 in 1894–95 or, on an average, nine for every mile of road, as shown in Appendix XXI. The number of lights in Chicacole, Palghat and Coonoor was very low, being only three lamps for each mile of road.

52. *Public Gardens, Survey of Land, Fire and other charges.*—The expenditure under this head amounted to Rs. 69,342, against Rs. 61,712 in the previous year, as shown below:—

	1894–95. Rs.	1895–96. Rs.
Survey of land	881	304
Fire	857	716
Rewards for the destruction of wild animals	2,219	1,446
Public garden	6,341	6,803
Work done for private individuals	5,778	3,518
Printing	22,068	24,454
Compensation for lands	4,548	8,331
Other charges	19,020	23,770
Total ..	61,712	69,342

Grant 5.—Supervision and Management.

53. The expenditure on supervision and management rose from Rs. 1,77,679 to Rs. 1,93,447, as detailed below:—

	1894–95. Rs.	1895–96. Rs.
Municipal office establishments	77,356	79,741
Collection of municipal taxes and contingencies ..	70,522	78,096
Salary and carriage allowances to Chairmen	16,272	19,523
Contribution to central office establishments	13,619	16,087
Total ..	1,77,769	1,93,447

There were paid Chairmen in Cocanada, Conjeeveram, Coonoor, Ootacamund, Salem and Trichinopoly. The expenditure under the grant amounted to 8·5 per cent. of the ordinary receipts against the limit of 10 per cent. fixed by Government. As in the previous year, this proportion was exceeded in twelve municipalities. In the towns noted in the margin no special reasons existed for the excess, and the municipal councils concerned should take steps to reduce the charges during the current year.

Srívilliputtúr.	Tirupati.
Mannárgudi.	Chicacole.
Ongole.	Vizianagram.
Cochin.	Gudiyáttam.
Bimlipatam.	

IV.—DEBT, CLOSING BALANCE, &c.

54. *Indebtedness of Municipalities.*—Loans amounting to Rs. 27,078 were repaid during the year, Rs. 6,190 were transferred to sinking fund, and Rs. 41,574 were paid on account of interest on the municipal debt. Details of the loans raised and of the amounts repaid and outstanding are given in Appendix XXII.

55. *Advances.*—These amounted to Rs. 50,679 against Rs. 31,264 in the previous year, the increase being due to large advances made in Dindigul and Trichinopoly on account of the water-supply schemes under execution.

56. *Closing Balances.*—The closing balances of all municipalities amounted to Rs. 9,48,592, or 34·1 per cent. of the current receipts. The percentage was large in Vániyambádi (148·4), Kurnool (115·3), Conjeeveram (86·4), Tanjore (78·0), Tirupati (73·8), Adóni (61·6), Trichinopoly (59·5) and Tinnevelly (58·2). In Vániyambádi and Adóni the balances include the amounts set apart for expenditure on the construction of a bridge over the Pálár and on public works, respectively, and in the other towns they were swelled by the amounts reserved for the water-supply schemes which were under execution or contemplation. In thirteen other municipalities, however, the balance was below the limit of 10 per cent. prescribed by Government, while in Madura the year closed with a deficit of Rs. 5,591 owing to the payment of a larger sum than was anticipated on account of the water-supply works.

57. *Municipal Accounts.*—The Accountant-General's consolidated report on the audit of the municipal accounts for 1894–95, which has recently been received, shows that the results of the audit were generally better than in the previous year. The accounts of Masulipatam, Tanjore, Kurnool, Madura, Trichinopoly, Kumbakónam, Cannanore and Cocanada, were however very unsatisfactory.

58. The working of each municipality having been reviewed in detail in the orders passed on the individual reports, it will be sufficient to remark here that the administration was characterized as unsatisfactory in the municipalities of Rajahmundry, Masulipatam, Cannanore, Chidambaram, Mannárgudi and Tanjore, indifferent in those of Cuddapah, Cocanada, Ellore, Madura, Ongole, Gudiyáttam, Tirupati, Salem, Cuddalore, Srírangam and Trichinopoly, fair in those of Adóni, Bellary, Coimbatore, Erode, Berhampur, Chicacole, Parlákimedi, Kurnool, Calicut, Cochin, Tellicherry, Vellore, Kumbakónam, Negapatam, Srívilliputtúr, Anakápalle and Vizianagram, and good in the remaining 22 towns. On the whole, however, the year's administration was an advance on that of the previous year and the Municipal Councils generally are deserving of the thanks of His Excellency the Governor in Council for the interest they have manifested in public affairs and for the progress that has been attained under their management.

		Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	
Bellary	Adóni	..	..	..	..	..	Completed in 1895.			Four different schemes have been proposed and are under the consideration of Government.
	Bellary	..	..	..	..	..	..	..	..	
Chingleput	Conjeeveram ..	..	..	..	..	2,57,000	1,28,500	1,28,500	..	The work has been in progress since November 1895; Rs. 80,000 have been drawn under loans and Rs. 91,000 under grant. The balance under each head will be drawn during 1896-97.
Coimbatore	Coimbatore	..	..	..	..	4,00,700	..	..	..	This scheme was found to be beyond the means of the council and has therefore been ordered to lie over pending the amendment of the District Municipalities Act IV of 1884 when certain taxes will be leviable at enhanced rates.
	Erode	..	..	..	..	..	..	..	..	Surveys and levels for a drainage scheme have been taken.
	Karúr	95,850	..	..	..	..	..	..	..	A water-supply scheme has been ordered to precede the drainage scheme; pressure of other work has delayed its preparation.
Cuddapah	Cuddapah	A scheme is under preparation.					Completed in 1893.		..	Surveys and levels for a drainage scheme have been taken.
Ganjám	Berhampur	..	..	..	..	..	..	..	..	The plans and estimates for the water-supply scheme, prepared by the Executive Engineer and forwarded to the Sanitary Engineer, have not been considered on account of pressure of other more important work.
Gódávari	Cocanada	..	..	..	..	4,36,830 / 8,89,000	..	..	..	Alternative water-supply schemes, prepared by the Sanitary Engineer but abandoned by the council as being too costly, are now again under the consideration of Government, as the council has found funds and are anxious to proceed with the work.

Gódávari—*cont.*	Ellore	..	..	..	..	..	..	..	..	The town has been surveyed and necessary levels taken for a drainage scheme.
	Rajahmundry ..	..	..	..	..	..	..	..	..	The preparation of the water-supply scheme has been delayed owing to the proposed change of pumping station site which involves further investigation and survey.
Kistna	Bezwada	..	..	..	..	2,89,260	..	..	..	Surveys and levels have been taken for a drainage scheme. The water-supply scheme prepared by the Sanitary Engineer is under the consideration of the Sanitary Board with reference to the remarks of the municipal council.
	Guntúr	..	..	..	..	..	..	..	..	Surveys and levels have been taken for a drainage scheme. Water-supply scheme not investigated yet owing to pressure of other works.
	Masulipatam ..	..	..	..	..	..	..	..	..	No progress made in regard to drainage or water-supply.
Kurnool	Kurnool	..	..	..	..	2,39,380	59,850	1,79,530	13,458	The work is in progress. Loan of Rs. 56,220 and Rs. 1,59,730 of the grant have been drawn and the remaining grant of Rupees 19,800 and loan of Rs. 3,630 are provided in the budget estimate for 1896-97 (G.O., 983, Financial, dated 9th December 1895). On the receipt of tenders for works further revision of estimate was found necessary which was ordered in G.O., Mis. No. 846 M., dated 15th May 1896. The estimate was revised by omitting certain works without detracting from the utility of the water-works and now amounts to Rupees 2,37,555 and is under the consideration of the Government.

Madura	Dindigul	..	..	..	..	50,000	33,000	40,000	33,659	The water-works have been completed and were opened in September 1896.
	Madura	..	..	..	..	Completed in 1894.				Surveys and levels have been taken for a drainage scheme but the preparation of the scheme has been deferred (G.O., No. 1370 M., dated 15th August 1896).
	Palni	..	..	..	..	..	..	..	..	Surveys and levels have been taken for both water-supply and drainage schemes.
	Periyakulam	..	..	..	..	A scheme is under consideration.				Pumping scheme from the Varahanadhi did not meet with support and the proposal to utilise the Berijam project for the water-supply of the town is under consideration.
Malabar	Calicut	..	..	..	..	A scheme is under investigation.				The council has been asked to furnish certain information regarding the Mananchera tank supply (G.O., Mis. No. 583 M., dated 31st March 1896).
	Cochin	..	..	..	..	..	..	..	..	Deep well-boring has been abandoned. The other schemes proposed are owing to their cost impracticable and the question of water-supply to this town has therefore been postponed for the present (G.O., No. 65 M., dated 11th January 1896).
	Palghat	..	..	..	..	..	..	..	..	The town has been surveyed and levels taken for a drainage scheme.
Nellore	Nellore	..	..	..	..	2,00,000	..	..	..	This scheme was found to be beyond the means of the council and has therefore been ordered to lie over pending the amendment of the District Municipalities Act when certain taxes will be leviable at enhanced rates.

		Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	
Nilgiris	Coonoor	..	..	Completed in 1893.	A scheme is under investigation.					Preliminary investigation and survey preparatory to drawing up a scheme and estimate for an alternative water-supply scheme suggested by the Sanitary Board are in progress.
	Ootacamund	..	..	..	..	..	..	..	..	The Public Works Department has undertaken to carry out the works of filling in the upper lake and draining the portion filled in and remedying the defects in the intercepting sewer pointed out by the Sanitary Board (G.O., Mis. No. 1390 M., dated 24th August 1895).
										Plans and estimates for improving the water-supply of the town as recommended by the Sanitary Board are being prepared by Mr G. T. Walch, late Chief Engineer for Irrigation.
North Arcot	Gudiyáttam	..	..	..	..	A scheme is under preparation.				A water-supply scheme has been investigated and plans and estimates for it are under preparation.
	Tirupati	..	..	..	..	2,31,000	..	..	..	Construction of a filter well to test the yield of water has been sanctioned (G.O., Mis. No. 843 M., dated 15th May 1896), and the work is in progress.
	Vellore	..	2,63,000	..	..	3,13,000	..	..	..	The water-supply scheme has been abandoned as being too costly. It was proposed to carry out the drainage scheme piecemeal but the few drains built with this view are not in accordance with the scheme and the works are now in abeyance.
Salem	Salem	..	..	..	..	A scheme is under investigation.				The Public Works Department is experimenting.
	Tiruppattúr	..	..	..	..	..	..	..	..	The town has been surveyed and necessary levels taken for a drainage scheme.
	Vániyambádi	..	..	..	..	..	..	..	..	The council has allotted funds for surveys and levels for a drainage scheme, but the Sanitary Commissioner considers that water-supply should precede drainage and therefore neither matter could be dealt with until other towns that are urgently in need of improvements are done with.

APPENDIX XVI.

SHOWING the action taken by municipal councils on the resolution of the Government of India regarding the training of female medical practitioners, midwives and nurses.

Adóni.—The midwife attached to the hospital is a trained nurse. The council does not see its way to provide funds for the training of female medical practitioners having regard to the fact that it has to discharge a heavy liability to Government on account of water works and that there are more pressing sanitary needs, such as drainage and street improvements yet to be carried out.

Bellary.—No action was taken by the municipal council during the year in this matter as it already employs a trained female hospital assistant.

Berhampur.—Female medical aid being available in the town, the council, as pointed out more than once, considers it unnecessary to send female pupils for medical training in Madras.

Calicut.—No expenditure was incurred for the medical training of women.

Chicacole.—A female medical pupil joined the Medical College, Madras, for undergoing training at the cost of the municipality.

Cocanada.—As a gosha dispensary is already maintained by the District Board in this town, no action was taken during the year for the furtherance of female medical education.

Coonoor.—As there is a trained midwife in the hospital and several qualified female medical practitioners in the town, it was not considered necessary to provide funds for the training of such practitioners in this municipality.

Dindigul.—No woman was sent up for training during the year.

Guntúr.—No special action was taken by the council to further female medical education. The council thinks that there exists no necessity at present for any action on the part of the council, seeing that the town is provided by the American Mission with a well-organized Women and children's hospital for affording medical relief to women.

Kurnool.—No women were trained up as doctors and nurses during the year.

Negapatam.—No action was taken in this matter by the council beyond the provision in the budget for 1896–97 for a scholarship to train a female apothecary through the Countess of Dufferin Fund Committee.

Palamcottah.—No expenditure was incurred on this account as the midwife attached to the municipal hospital is a trained woman.

Periyakulam.—No action was taken for the training of female medical practitioners during the year.

Salem.—No action was taken by the municipal council in this matter during the year under review.

Srírangam.—Nothing was done in this matter during the year. The woman, who was sent for training last year, has completed her course and is expected to join office shortly.

Tanjore.—The council has taken no action towards getting female medical practitioners educated at its cost. It has resolved to await the action taken by the Tanjore District Board in this direction.

Tinnevelly.—The council has resolved to endow a scholarship of Rs. 10 during 1896–97 for the medical training of women.

Vániyambádi.—No expenditure was incurred by the council for training female medical practitioners, as the midwife attached to the dispensary was a trained woman.
