Respected Sir, This day I had to pay A class wage for one gang. In this, each man gets 0-1-7 and each woman 0-1-6. Each child gets 9/2 pias. It being to round this fraction as it is exactly half (not more than half); I paid all the children at the rate of 9 pias each. I request your order whether (in future cases where a fraction of exactly half occurs), I can round the fraction favourably to the relief workers' children.
