Proceedings of the Board of Revenue

(Revenue Settlement, Land Records and Agriculture.)

Dated 26th May 1897.

No. 3739 Miscellaneous.

READ the following letter from the collector of
Cuddapah, dated 20th May 1897 upon
Cur. No. 468 of 97—

I have the honour to state
that small-pox and fever are prevalent
on some of the relief works in this
district, which have no medical
subordinates attached to them. The
district medical and sanitary officer
who was asked several times to arrange
for the deputation of a medical officer

to each of the relief works, says
that he has no more men available
and that he has been informed by
the Secretary to the Surgeon General
that hands will be sent as soon as
they become available. There are 19
works in progress in this district,
and 9 more have been ordered to be
started. Of those in progress, 17
are large works within the meaning
of Section 59(a) of the Famine Code,
but only 5 have Hospital Assist-
ants attached to them. I request that
the Board will assist me in ob-
taining 8 more medical Subordinates,
whose services are required at once.

I enclose for information a copy
of

of the District Medical and Sanita-
ry Officer's letter 1657 dated 12th
May 1897. I have been congratulating
myself on the wonderfully good results
in the matter of health and mortality
hitherto shown for the works in this
district, but I fear there must be
an interruption now during the ex-
pected change in the weather, if I
am tired of medical aid on
my famine works.

Resolution

Submitted for the orders
of Government.

2. The Board can not insist
too

too strongly on the risks involved
 by the paucity of medical subordi-
 nates, but, from the replies of the
 Secretary to the Surgeon General,
 it would appear that there is merely
 little probability that more men
 will be immediately available
 for distribution. I have directed
 the present work (true copy attached)
 to be sent to the Secretary
 of the Revenue Department.

To the Secretary to Government
 Revenue Department
 Copy to the Collector of Cuddapah
 for his order and instructions.

JUNE.

Additional Medical Subordinates for Relief Works.

Recording, with remark, Board's Proceedings submitting letter from the Collector of Cuddapah asking for — in his district.

No. 420, REVENUE, 1st JUNE 1897.

GOVERNMENT OF MADRAS.
REVENUE DEPARTMENT.

READ—the following Proceedings of the Board of Revenue (Revenue Settlement, Land Records and Agriculture), dated 26th May 1897, Mis. No. 3739:—

Read—the following letter from the Collector of Cuddapah, to the Secretary to the Commissioner of Revenue Settlement and Director of the Department of Land Records and Agriculture, dated 20th May 1897, Ref. on C. No. 468-F:—

I have the honour to state that small-pox and fever are prevalent on some of the relief works in this district, which have no medical subordinates attached to them. The District Medical and Sanitary Officer, who was asked several times to arrange for the deputation of a medical officer to each of the relief works, says that he has no more men available and that he has been informed by the Secretary to the Surgeon-General that hands will be sent as soon as they become available. There are nineteen works in progress in this district, and nine more have been ordered to be started. Of those in progress, seventeen are large works within the meaning of section 59 (a) of the Famine Code, but only five have hospital assistants attached to them. I request that the Board will assist me in obtaining eight more medical subordinates, whose services are required at once. I enclose for information a copy of the District Medical and Sanitary Officer's letter, No. 1657, dated 12th May 1897. I have been congratulating myself on the wonderfully good results in the matter of health and mortality hitherto shown on the works in this district, but I fear there must be a retrogression now during the expected change in the weather, if I am bereft of medical aid on my famine works.

Resolution—dated 26th May 1897, Mis. No. 3739.

Submitted for the orders of Government.

2. The Board cannot insist too strongly on the risks involved by the paucity of medical subordinates, but from the replies of the Secretary to the Surgeon-General it would appear that there is very little probability that more men will be immediately available for distribution.
