Proceedings of the Board of Revenue
 (Revenue Settlement, Land Records & Agriculture)
 Miscellaneous Number 1253 Dated 10 August 1897
 Read endorsement from Government Revenue
 Department Miscellaneous Number 3484 dated
 5 July 1897. Forwarding to the Famine
 Commissioner for necessary action with
 reference to the complaints of irregular
 payment on the fortnightly narrative
 regarding famine relief works in the Cuddapah
 District for the fortnight ending 15 June 1897
 from Government Public Works Department
 Number 718 & Dated 5 July 1897.

Resolution

Extracts from the fortnightly narratives
 received with the Government order read above
 relating to the complaints of irregular
 payments, will be forwarded to the Collector
 of Cuddapah with the request that prompt
 measures may be taken to remedy the
 defects pointed out.

2. Reading Government Order dated
 8 February 1897 Number 133 Financial with
 section 112 of the Famine Code there was
 reason to believe that the Public Works
 Department was responsible for prompt
 and regular payments being made by
 paymasters and that the Collector had
 only to find the required staff of pay-
 masters. The Government has now ruled
 that in ordering that the paymasters
 should be regarded as Public Works District
 it was not intended that they should
 be made subordinate to the Executive Engineer
 or that they should cease to be responsi-
 ble to the Revenue Department. The Collector
 will be requested to see that delays in
 payments do not recur.

3. The supply of sufficient form to

to paymasters should be arranged for by the Collector, timely indent being sent to the Board for the necessary forms. The Collector should have taken proper measures in time to ensure a sufficient supply of small coins to the paymasters. An insufficient supply of small coins necessarily delays payment. The Collector should at once see that Taluk treasuries are supplied with sufficient small coins and he should impress on the treasury officers — concerned the necessity for seeing that the stock with the paymasters is amply replenished from time to time.

4. The Famine Commissioner has not been asked to notice the remarks contained in the papers read above about the management of Kitchens attached to relief works, but he begs to submit that those remarks were unsolicited for and that it would conduce to the maintenance of amicable relations between the Public Works and Revenue officers if the former confined their remarks to what concerned their own — department.
