Proceedings of the Board of Revenue
(Revenue Settlement, Land Records & Agriculture)
Miscellaneous Number 6258 dated 10th August 1897

Read endorsement from Government Revenue Department Miscellaneous Number 3484 dated 5th July 1897 forwarding for necessary action with Commissioner for necessary action with reference to the complaints of irregular payment on the fortnightly narrative regarding famine relief works in the Cuddapah District for the fortnight ending 15th June 1897

Also from Government Public Works Department Number 718 dated 5th July 1897.

Resolution Extracts from the fortnightly narratives received with the Government order read above relating to the complaints of irregular payments, will be forwarded to the Collector of Cuddapah with the request that prompt measures may be taken to remedy the defects pointed out.

2. Reading Government order dated 5th February 1897 number 132 Financial with section 112 of the Famine Code there was reason to believe that the Public Works Department was responsible for prompt and regular payments being made by Paymasters and that the Collector had only to find the required staff of paymasters. The Government has now ruled that in ordering that the paymasters should be regarded as Public Works disbursers it was not intended that they should be made subordinate to the Executive Engineer or that they should cease to be responsible to the Revenue department. The Collector will be requested to see that delays in payments do not occur.

3. The supply of sufficient [illegible]

to paymasters should be arranged for by the Collector, timely indents being sent to the Board for the necessary forms. The Collector should have taken proper measures in time to ensure a sufficient supply of small coins to the paymasters. An insufficient supply of small coins necessarily delays payment. The Collector should at once see that Taluk treasuries are supplied with sufficient small coins and he should impress on the necessary officers concerned the necessity for seeing that the stock with the paymasters is amply replenished from time to time.

4. The Famine Commissioner has not been asked to notice the remarks contained in the papers read above about the management of kitchens attached to relief works, but he begs to submit that those remarks were enclosed for and that it would conduce to the maintenance of amicable relations between the Public Works and Revenue officers if the former confined their remarks to what concerned their own department.
