PROCEEDINGS OF THE MADRAS GOVERNMENT.

READ the following paper :—

From the Sanitary Commissioner for Madras, No.1572/S., dated 31st July 1897.

With reference to G.O.No.3200 L.Mis., dated 1st December 1896, L.Sl., I have the honour to request the favour of an expression of the wishes of Government as to the use of the time at my disposal for the remainder of the year 1897. From the 10th December 1896 to the 8th March 1897, I was on constant inspection work in the districts affected with famine. On my return from this duty, I proceeded to Rajahmundry under the special orders of Government, in reference to an outbreak of cholera in the Central Jail there; a second visit was also paid to this jail, under special orders, for the carrying out of a joint enquiry as to mortality from general causes with the Surgeon General. Subsequently, I visited Nuzur with the object of making certain enquiries there as to fever prevalence, but the outbreak of cholera in the Coimbatore Central Jail demanded urgent investigation there, and I had to abandon this in favour of a journey to Coimbatore. I also made a special tour with the object of ascertaining the conditions under which the examination of plague suspects was being conducted at Arkonam and Podanur, Guntakal having been inspected on my way from Rajahmundry; Kondapalle was not at ~~all~~ that time sufficiently advanced. I had then to wait at Madras for the arrival of Dr. Lowson, the Plague Commissioner, and in the meantime performed certain microscopical work at Nuzur. Coonoor was then inspected as to the new water supply scheme. Lately I have met Mr. Higham at Cuddapah and have just returned after investigating special points in famine administration with the Famine Commissioner—Adoni, Dhone, Kocheru, Chintalpand, Gooampalle, Pergaud and Kurnool having been visited.

2. It will be seen from the above that I have had no time during this year for routine sanitary inspections of Municipal towns, and

it

it seems to me from what I have seen of the physical conditions of the people and having regard to the still unsettled problem as to what may be expected in certain parts of the Presidency in the near future, and the advance of cholera in Districts suffering from famine, that if I devote my time to work in connection with famine and effect the inspection required by Government and local authorities from time to time with regard to special sanitary points, I shall have fulfilled all that is urgently necessary and possible before the end of the year.

3. Under the above circumstances, I would respectfully request the orders of Government as to whether the routine inspection of Municipalities by me may not be allowed to be in abeyance, until famine shall have been declared officially to have been brought to a close.

Order No.1545 L.Mis., dated 15th August 1907.

The Sanitary Commissioner's suggestion in para.3 of his letter is approved.
