Since this rainfall has
reported. Why was this letter
delayed.

Government does not appear to be a
very intelligent authority.

I can find Government as the
there seems to have been no rainfall
reported any where in the

No. 6541 Miscellaneous

Read the following letter from the
Sub collector of Buddapak to
the collector of Buddapak
dis no. 2879 dated 3rd August 1897.
Per

I have the honor to inform
you that there was an inch
and a half of rain at
Gurumkonda on the 27th night
and one inch on the 28th
night. When I arrived at
the place on the 23rd night I

I found there had been rain there estimated by the Revenue Inspector at $\frac{1}{2}$ inch but which I after looking round the place estimated at one inch ^{as} also did the Local Fund Officer when speaking to me. This should be sufficient for Cultivation for the present.

2. The Local Fund Officer who was carrying out a Local Fund, well work report that on the 28th and 29th the men all left the work to go and do Cultivation. I have ordered the Local Fund works there to be stopped

stopped as no labour is available. There is therefore no necessity now for opening a test work at the place.

3. I have been unable to ascertain upto date how far this rain extended. The first shower that of 22nd went towards Kalsada about $\frac{1}{4}$ inch falling at Chulapalli.

Read also the following Endorsement thereon by the Collector of Cuddapah Refon C No. $\frac{1312}{7}$ dated 7th August 1897.

Copy forwarded to the Famine Secretary to the Board of Revenue for information

in Continuation of this office
 Ref on C no. $\frac{1312}{7}$ dated 1st
 August 1897. Instructions have
 been issued to the Executive
 Engineer not to start the
 Guvumbonda test work till
 further notice.
