The telegram referred to is now in circulation

2. An allotment of Rs 10000 is required for the Raydrug Taluk.

3. The Collr speaks of starting some of these works on the intermediate system, but it was decided in the case of Cuddapah that in Districts to which distress may extend test works should be opened

I submit to Govt that open test works and when distress is found expand them into relief works.

PS 27/8/97

SUBJECT.

Applying for sanction to open relief works in Rayadrug taluk, and to replace comple works by new works

FURTHER PAPERS.

G.O.	No.	Department.	Date.

In the table above the Collr. asks for sanction to open a new road - work in the Bellary taluk, & 9 works elsewhere, & of which are Wks started in substitution for old works as they are finished, & the 9th is the Construction of Ballast for the Railway, wh will be paid for. Of the Bellary work, & the 8 other works are roads, a well, two forest ditches & a channel, four sand-choked works, I think the permission asked be granted, but the recent rain-falls will make some of them unnecessary.

J.S.
3/9/97

I agree with the Hon. the Legal Member suggesting that we should, before sanctioning, call upon the Collector to say whether the recent rains have not changed the situation and whether he wishes the proposals made in his letter of the 22nd inst. to hold good.

Secretary

Bellary Collector's Office
Dated 22nd August 1897

Ref. on C No. 3075/97.

From.

H. A. Stuart Esq:
Ag. Collector of
Bellary.

To.

The Famine Secretary
Board of Revenue
Chepauk, Madras

Sir,

With reference to G. O 473 dated 18th June 1897, I have the honor to request that the sanction of Government may be sought to the opening of relief work in the Rayadrug Taluk if no rain falls there during the

BP 468/28/6/97

the next week. Although there were fairly good rains in that Taluk in May and June, there was only 0.28 inch, distributed over three days, in July, and in this month up to date there have been only two falls, one of 0.08 inch and the other of 0.39 inch. The taluk only just escaped distress last year, and indeed Considerable remissions had to be granted. The people here then saved by their wells, but there is not now sufficient employment for the agricultural labourers and I found a month ago, when I visited the taluk, that numbers of them were going to relief works in the Bellary, Kalliandeng, and Gooty Taluks. The numbers requiring relief will increase very rapidly if all hope of sowing during this monsoon disappears and I, therefore, request sanction for the opening of intermediate works in the affected ~~districts~~ villages. There are a number of works in the Famine programme suitable for

execution under that system, and I request that a sum of Rs 10,000 may be allotted for this purpose. I also request that I may be permitted to open a regular relief work on the Bekamy-Kanekallu road if the numbers seeking employment on these small works are so large as to render this Course desirable.

2. In the Bekamy Taluk also another relief work is necessary for the western villages. Many of the inhabitants of these villages now go to the Bekamy — Siingappa Road, on which the number of relief workers has been rising rapidly of late and is at the present moment 16,400. I propose, therefore, to start the new road from Emmiganur, through Kamgadu to the Bellary - Siingappa road. The amount of the estimate is Rs 31,400/-

3. No new works, in the strict sense of the term, are needed elsewhere, but additional

additional work for existing Camps must be provided in several instances, and I understand that the sanction of the Government is necessary in each Cases. I accordingly request sanction for the Commence-ment of (1) Kalvichyagi road upon the Completion of the Koziqi - Kalvi road, (2) of the Kantalam - Kalstolli road on the Completion of the Kupgal - Kantalam road; (3) of the Alur Singatha-halli road upon the Completion

Completion of the northern Section of the Alur - Moka road, (4) of the Nagamur feeder road and filling up the faut - ditch and digging a well in Johanapuram upon the Completion of the Alur Section of the Aspari-adani road; (5) of Certain village works in Peddahotoor and Chinnahotoor upon the Completion of the Alur-Aspari road (6) of the Moka Channel on the Completion of the Bellary-Moka road, and (7) of the

the Halagatti Halagondu
road on Completion of
the Devagondanahalli tank.
I further request sanction
to transfer the gangs now
working on the Ganeipur-
Kudligi road to the
Maniyammanahalli - Bellahunnsi
road as the work on the
former road is getting
beyond the affected
villages. Lastly I ask that
I may be permitted to
undertake the supply of
metal ballast to the
Madras Railways. The
Chief

Chief Engineer, in answer to
an enquiry from me, stated
that he would take 20,000
Cubic yards of metal
ballast for the portion
of the line within this
District at an average
rate of about 8 annas
per 27 Cubic foot, which
the Executive Engineer of
this District considers a
fair rate. This work
will be particularly useful
between Halagavatti and
Adoni, for there is great
difficulty in finding
Suitable

suitable employment for
relief workers in that
neighbourhood.

4. I have deferred asking
for the sanctions now applied
for till the latest possible
moment in the hope that
we might yet get a fairly
favourable monsoon; but
there seems now little prospect
of it and I anticipate that
the numbers requiring employ-
ment on relief works
will steadily, and perhaps
rapidly increase. I beg
therefore that this application
may be treated as
urgent and that the
orders of Government may
be communicated to me
direct by the telegraph

5. I append a list
showing the amounts of
estimates of the proposed
new works.

I have &c.

Signed/ J. D. Lever

REVENUE BOARD OFFICE * MADRAS *

Proceedings of the Board of Revenue

(Revenue Settlement, Land Records and Agriculture),

Dated 25th August 1897.

No. 6816 mis

* Copy attached

READ * letter from the Collector of Bellary Report no 3075 dated 22d August 1897.

Resolution

Submitted for the early orders of Government

2. The Famine Commissioner supports the Collector's proposals to open Relief works in Rayadrug taluk. The allotment of Rs 10,000 for this purpose is requested. The taluk has had only 70 cents of rain in the last 9½ weeks

3. The opening of the new works proposed in para 3 of the Collectorio letter to take the place of completed works requires the sanction of Government under G. C. 679 dated 7th August 1897, and it is requested that the Collector may be authorised to commence the works, as they become necessary, the cost of breaking up metal for the Railway will be recouped in part or in whole, and the work is therefore to be recommended. It is hoped that the Collector has made a definite agreement with the Chief Engineer, for the latter, in answer to a similar purpose, informed the Famine Commissioner a few weeks back that he had no money for this purpose.

4. It is requested that orders may be issued to the Collector direct by telegram. Government has already been apprised of the Collectors' application by telegram, copy of which is herewith furnished:—

Collector Bellary requests sanction to open relief works

works Rayadrug taluk,
and new works elsewhere
to replace completed works.
These works are necessary
Please wire sanction
direct to Collector Proceedings
