MISCELLANEOUS SERIES.

G.O., No. 4682.

DATED 6 Sept

[Despatch Abstract.]

Referring to an application for opening
Relief works near Rayachoti & to open
new works elsewhere, the Col. of Bellary
requested by wire to state whether the
recent rains have not altered the
situation & whether sanction to his
application is still necessary.

H. A. Stuart Esq.
Ag. Collector of
Bellary.

To.

The Finance Secretary
Board of Revenue
Chepauk, Madras

Sir,

With reference to G. O
473 dated 18th June 1897, I
have the honor to request
that the sanction of Govern-
ment may be sought to
the opening of relief work
in the Rayadung Taluk if
no rain falls there during
the

the next week. Although there were fairly good rains in that Taluk in May and June, there was only 0.28 inch, distributed over these days, in July, and in this month up to date there have been only two falls, one of 0.08 inch and the other of 0.39 inch.

The taluk only just escaped distress last year, and indeed considerable remissions had to be granted. The people were then saved by their wells, but there is not now sufficient ^{employment} for the agricultural

labourers and I found a month ago, when I visited the taluk, that numbers of them were going to relief works in the Bellary, Kallandurg, and Gooty Taluks. The numbers requiring relief will increase very rapidly if all hope of saving during this monsoon disappears and I, therefore, request sanction for the opening of intermediate works in the affected ~~district~~ villages. There are a number of works in the Famine programme suitable for

execution under that system,
and I request that a sum
of Rs 10,000 may be allotted
for this purpose. I also
request that I may be
permitted to open a regular
relief work on the Bellary-
Kanekallu road if the
numbers seeking employment
on these small works are
so large as to render this
course desirable.

2. In the Bellary Taluk
also another relief work
is necessary for the western
villages. Many of the
inhabitants of these villages
now

now go to the Bellary -
Simgappa Road, on which
the number of relief workers
has been rising rapidly
of late and is at the present
moment 16,400. I propose,
therefore, to start the new
road from Emmiganur,
through Karmgodu to the
Bellary - Simgappa road.
The amount of the estimate
is Rs 31,400.

3. No new works, in the
strict sense of the term,
are needed elsewhere, but
additional

additional work for existing
Camps must be provided
in several instances, and
I understand that the
sanction of the Government
is necessary in each case.
I accordingly request
sanction for the commence-
ment of (1) Halvichyagi road
upon the completion of the
Kosigi - Halvi road, (2) of
the Kantalam - Katskolli
road on the completion
of the Kuppal - Kantalam
road; (3) of the Alur Singatha-
halli road upon the
completion

Completion of the northern
Section of the Alur - moka
road, (4) of the Nagarur
feeder road and filling
up the fault-ditch and
digging a well in Johannapuram
upon the completion of the
Alur Section of the Aspari-
adoni road; (5) of Certain
village works in Peddabotum
and Chinabotum upon
the completion of the Alur-
Aspari road (6) of the
moka channel on the
completion of the Bellary-
moka road, and (7) of the

the Halagalli Halagondi
road on completion of
the Devagondanahalli tank.

I further request sanction
to transfer the gangs now
working on the Gannipur-

Kudligi road to the
Shaniyammahalli - Bellahundi
road as the work on the
former road is getting
beyond the affected
villages. Lastly I ask that

I may be permitted to
undertake the supply of
metal ballast to the
Madras Railway. The

Chief

Chief Engineer, in answer to
an enquiry from me, stated
that he would take 20,000
Cubic yards of metal
ballast for the portion
of the line within this
District at an average
rate of about 8 annas
per 27 Cubic feet, which
the Executive Engineer of
this District considers a
fair rate. This work
will be particularly useful
between Halaganahalli and
Adoni, for there is great
difficulty in finding
suitable

1 Suitable employment for
4 relief workers in that
neighbourhood.

4. I have deferred asking
for the sanctions now applied
for till the latest possible
moment in the hope that
we might yet get a fairly
favourable monsoon; but
there seems now little prospect
of it and I anticipate that
the numbers requiring employ-
ment on relief works
will steadily, and perhaps
rapidly increase. I beg
therefore that this application
may

may be treated as
urgent and that the
orders of Government may
be communicated to me
direct by the telegraph
5. I append a list
showing the amounts of
estimates of the proposed
new works.

I have &c.

Proceedings of the Board of Revenue

(Revenue Settlement, Land Records and Agriculture),

Dated 25th August 1897.
No. 6816 mis

+ Copy attached READ...

Letter from the Collector of Bellary Ref. on C No 3075 dated 22nd August 1897.

Resolution

Submitted for the early orders of Government.

2. The Famine Commission supports the collector's proposals to open Relief works in Rayachoddi Taluk. The allotment of Rs 10,000 for this purpose is requested. The Taluk has had only 70 cents of rain in the last $9\frac{1}{2}$ weeks.

3. The opening of the new works proposed in para 3 of the Collector's letter to take the place of completed works requires the sanction of Government under G. O 679 dated 7th August 1897, and it is requested that the Collector may be authorised to commence the works, as they become necessary. The cost of breaking up metal for the Railway will be recouped in part or in whole, and the work is therefore to be recommended. It is hoped that the Collector
has

has made a definite agreement with the Chief Engineer, for, the latter, in answer to a similar ^{informed} purpose, the Famine Commissioner a few weeks ^{back} ~~last~~ that he had no money for this purpose.

4. It is requested that orders may be issued to the Collector direct by telegram. Government has already been apprised of the Collector's application by telegram, copy of which is herewith ^{not} furnished:—

Collector Bellary requests sanction to open relief
works

works Rayadrug Taluk,
and new works elsewhere
to replace completed works.
These works are necessary
Please wire sanction
direct to Collector Proceedings
follows:
