No 58

DIRECTOR'S OFFICE,
OOTACAMUND, 1st September 1897.

From

W. M. STANDEN, ESQ.,
DIRECTOR OF THE GOVERNMENT
CINCHONA PLANTATIONS,
Nilgiris.

To

The Secretary to Government
Revenue Department
Ootacamund

SIR,

With reference to G. O. No 620 Revenue — dated the 29th June 1897, I have the honor to submit the following forecast of the Stores, which will be required during the Coming official year, Viz 1898-99:—

20 Tons Water white Diesel oil @ £17-17-0 per Ton	£	357—0—0
6 Tons Sulphuric acid @ £8-6-8 per Ton	"	50—0—0
10 Quires Filtering paper @ 2s-6d per Quire	"	1—5—0
5 Cwt animal Charcoal @ £15 per Ton	"	3—15—0
4 Tons Hydrochloric acid @ £7-15-0 per Ton	"	31—0—0
	£	443—0—0

2. The above forecast is a little below that, which accompanied my letter No 78 dated the 7th September 1896, and

and this is due to the fact, that, no Caustic Soda will be required during the next year, as there is a sufficient stock to meet the normal requirements of the Factory during that period, and to leave a substantial reserve stock. A large quantity of Fusel oil will be required, in order that a reserve stock of this oil may be kept, after meeting the requirements of the Factory for one year, to provide against such a Contingency, as that which occurred this year, when the manufacture of Quinine had to be suspended owing to the loss of Fusel oil at sea.

3. It may be mentioned that the above forecast provides sufficient provision only for the manufacture of such quantities of Quinine and Febrifuge, as Constitute the ordinary demands on the Factory, based on the actuals of previous years. If at any time it is decided that the output should be increased, a larger quantity of Chemicals and oil will be required.

I have the honor to be
Sir
Your most obed^{t} Servant.

Wm Standen
