Calcutta, the 5th August 1897.

Sir,

It has been brought to the notice of the Lieutenant-Governor that considerable loss is occasioned by the sticking together of adhesive stamps. Large quantities of these are returned to Calcutta every year from the different treasuries, and have to be destroyed. I am directed, therefore, to request that with the permission of His Excellency the Governor this Government may be informed whether any steps have been taken in Madras to prevent the sticking together

Proceedings of the Board of Revenue

(Separate Revenue.)

Dated 24th August 1897.

Inis No. 3672

Read Government Order Inis No 4232 Revenue dated 13th August 1897.

Resolution

With reference to the Government Order read above the Board beg to state that no special measures have been taken in this Presidency to prevent adhesive labels from sticking together, except in the districts of South Canara and Malabar, in which air-tight tin boxes are used for keeping the Stock under the Sanction conveyed in Board's Proceedings Inis No 4361 dated 18th November 1892 and Inis No 29 dated 9th January 1894. Since the introduction of

of these receptacles no complaints of damage by damp have been received and the System appears to work well. In other districts, Collectors are authorised to take such precautions as appear to them to be necessary, using tin or zinc lined boxes if it appears that the Stamps cannot be efficiently protected otherwise, but except on the west Coast the precautions required seems to be against accidental wetting from a leaky roof or the like rather than against the consequence of Excessive humidity of the air.

Sir,

With reference to your letter of 3 August 1897 No 4288 S.R., I am directed to state that ~~the Board of Revenue, Madras, reports that~~ no special measures have been taken in the Madras Presidency to prevent the sticking together of adhesive labels except in the districts of S. Canara and Malabar in which air-tight tin boxes are used for keeping the stock and that since the introduction of this scheme no complaints of damage by damp have been received. It is reported that in other districts Collr

of Collectors are authorized to take
such precautions as appear to them to
be necessary, using tin or zinc lined
boxes if it appears that the stamps
cannot be efficiently protected otherwise,
but that except in the two West Coast
districts the precautions required
are against accidental wetting
from a leaky roof or the like, rather
than against the consequence of
excessive humidity of the air.
