Dis No 1836 of 97.

From

The Tahsildar of
Jammalamadugu

To

The Collector of Cuddapah

Honored Sir,

In reply to the telegram of today calling for a full explanation for the increase of the No of bearers during the week ending 7th August 1897, I beg to submit that during the previous week Jarnot Count No 30 was exhausted and the fresh stock which had arrived at Muddanur could not be got to Jammalamadugu owing to the castmen refusing to bring them at the rates then in force. Consequently there was

No

no issue for 662 turban looms that returned cloths in the week. Hence there was a fall in the number of weavers relieved from 9809 to 6378. In the week under reference the arrears of the previous week were cleared and yarn issued to the looms not issued for during the previous week. Hence the number rose to its former strength.

I beg to remain
Sir,
Your most Obedient Servant

REVENUE BOARD OFFICE. MADRAS.

Proceedings of the Board of Revenue

(Revenue Settlement, Land Records and Agriculture),

Dated 27th August 1897.

No. 596 Revs.

READ letter from the Special Deputy Collector in charge of Weavers' Relief operations, Deccan districts. Reference No. 124, dated 22nd June 1897 reporting with reference to para 8 of Board's Proceedings No. 309 dated 22nd April 1897, on the method of calculating the number of persons relieved, for the purposes of the Fortnightly narration.

Read also letter from the Collector of Cuddapah. Reference on C. No. 309/F, dated 28th June 1897, submitting the impossibility of ascertaining the actual number of persons relieved by the advances given to the Weavers.

Resolution.

Collectors will in future calculate the number of weavers receiving relief by multiplying the average daily receipt of woven clothes of each kind

during the week by the number of operatives allowed by the task-table to weave one cloth of that kind in one day. The latter factor may be found thus; if the weaving of x clothes requires the work of a men for p days, b women for q days, and c children for r days, the number of operatives required to weave one cloth in one day is $\frac{ap}{x}$ men $\frac{bq}{x}$ women and $\frac{cr}{x}$ children.
