Simla, the 13th May 1897.

SIR,

In a case relating to the boundary of a cantonment which recently came under the consideration of the Government of India, it was reported that the boundary was not shown on the Revenue Survey map (as it should have been) as defined by straight lines drawn from each of the cantonment boundary pillars to the next one, the result being that difficulties had arisen regarding the ownership of the land lying between these straight lines and the boundary as shown on the map. I am accordingly to request that in any survey which may in future be made, whether by the revenue establishment, or by the professional survey establishment, so as to include any portion of the boundary of a cantonment, that boundary may invariably be defined by a series of straight lines drawn from each of the cantonment boundary pillars to the next, except where it is distinctly stated to the contrary in the description of the boundary published in G.O.s. I am also to ask that before such a survey is finally accepted, it may be communicated to the military authorities for information and scrutiny.

I have the honour to be,

SIR,

Your most obedient Servant,

Wm. Ibbetson
Secretary to the Government of India.

REVENUE DEPARTMENT.

READ—the following letter from DENZIL IBBETSON, Esq., C.S.I., C.S., Secretary to the Government of India, to the Secretary to the Government of Madras (Department of Revenue and Agriculture—Land-Surveys), dated Simla, the 13th May 1897, Circular No. 7—69-2:—

In a case relating to the boundary of a cantonment which recently came under the consideration of the Government of India, it was reported that the boundary was not shown on the revenue survey map (as it should have been) as defined by straight lines drawn from each of the cantonment boundary pillars to the next one, the result being that difficulties had arisen regarding the ownership of the land lying between these straight lines and the boundary as shown on the map. I am accordingly to request that in any survey which may in future be made, whether by the revenue establishment, or by the professional survey establishment, so as to include any portion of the boundary of a cantonment, that boundary may invariably be defined by a series of straight lines drawn from each of the cantonment boundary pillars to the next, except where it is distinctly stated to the contrary in the description of the boundary published in G.G.Os. I am also to ask that before such a survey is finally accepted, it may be communicated to the military authorities for information and scrutiny.
