From
The Under Secretary to Govt.
P.W. Department.

To
The Secretary to Government,
Revenue Department.

Draft order on Revenue Department C.No. 4856.

The undersigned feels himself unable to counterinitial this draft order on behalf of the P.W. Department. This Department has all along been acting on the assumption that it was responsible for the provision of an adequate supply of Famine tools, and has been supported in this belief by G.O. 3116 W. dated 2nd December 1893 paras 4 and 5, and Section 42 of the Famine Code. The effect of the

the present order would, they undersigned believes, place this matter entirely in the hands of the Collector, and relieve the Superintending Engineer and his staff of all responsibility, as these officers are to accept the Collector's estimate "without demur".

2. It is probably not the intention of the Government to produce a result of this kind, and the undersigned begs to submit that this note should be sent up with the draft order for consideration.

It was not relieved them of any responsibility for one to famine. During famine, the Collector's responsibility for seeing that a sufficient number of tools are provided in his district. This was a matter of a merely technical nature, or a point strictly professional. I have joined to order.
