Sir,

FROM

R. H. Shipley

Esq.,

COLLECTOR

Anantapur.

TO

THE SECRETARY TO THE COMMISSIONER OF

Land Revenue

Madras.

SIR,

In reply to B. P. No. 1308
6.4.97 I —

have the honour to state that 16.73 acres of land reported in this office letter Dis. No. 3128
19.8.96. was the area —

liable to Submersion. had the weir of the tank been raised to 6 feet as originally proposed by the D. P. W. authorities of the Mysore Province. According to the present proposals sanctioned by the Mysore Durbar the extent of land liable to Submersion at

weir level and when weir is discharging
2 feet depth of water over it are 7.60
and 11.67 respectively. A statement —
showing the fieldwork particulars of
these areas is herewith submitted.

These extents have been arrived at by
measuring the plots marked on the land
by the D. P. W authorities of the Mysore
Province. It is not understood how
6.75 and 8.6 acres referred to in the
copy of letter to the First Assistant
to the Resident in Mysore received with
the Board's Proceedings under reply —
were arrived at when the measurements
of the plots marked on the land give
quite a different result. The Tahsildar
of Perintonda has, however, asked
the Tahsildar of Panagudoo Taluq where
the tank is situated about the cause
of discrepancy and his reply is awaited.

2. The papers received with B. 7
under reply are returned thereon.

I have the honour to be,
Sir,
Your most obedient servant.

Proceedings of the Board of Revenue (Land Revenue).

No. 5555 Misc., dated 7th September 1897.

Read Letter from R.H. Shipley, Esquire, Collector of Anantapur, to the Secretary to the Commissioners of Land Revenue, Madras, Dis. No. 4832, dated 26th August 1897.

-----:0:-----

Resolution.

Submitted to Government with reference to its Endorsement No. 1745 Misc., dated 31st March 1897.

2. The Board adheres to the opinion already expressed in para 2 of its Proceedings disposed of in Government Order, No. 612 Rev., dated 11th November 1896, viz., that compensation should be levied also for occasional submergence of the lands in question.

3. The explanation already called for as regards the discrepancy noticed in para 1 of the letter read above, should be forwarded to the Board as early as possible.

(Signed) Secretary.

Board of Revenue
(Land Revenue),
MADRAS.

Pro.No.5555 Misc.
Dated 7th September 1897.

Subject.

G.O.No.1001 of 1897.

G.O. No. 4980, of 20 Sept 97

The Board's report in para 2 of its proceedings held above that it refers to the opinion already expressed in para 3 of its proceedings dated 20th G.O. No. 612, dated 11th November 1896 - viz - that compensation should be accorded also for consequential damage of the lands in question is not understood. What the Board suggested in para 3 of its former proceedings referred to, was that the consequential damage of the 10.75 acres of land might be permitted on the condition of the State Government paying the capitalized value of the assessment of the Government waste land and agreeing to pay or allow compensation for the occupied land besides compensating the occupants in the event of its being requisitioned owing to damage from damage. The above suggestion in so far as it relates to Government waste land is clear. In regard to the occupied patta lands with reference to which it was stated that the patta holders had no objection to their being requisitioned and that the

T compensation, provided that they are allowed to retain the land and cultivate it. When the order is given, it was assumed that the proprietors would continue to pay the assessment to Government so long as they retained the land. But it was only when they relinquished the land that the Government should be called upon to pay the capitalized value of the assessment on such lands, besides compensating the proprietors. If this was what was intended, it is not clear what the result would be. It is said that 'compensation should be made also for occasional suffering of the lands in question'. It is expected to express the view of the Government to the proprietors and also explain what it offers to the 'lands in question'. It is observed from the statement submitted by the Collector, that the only Government waste lands which are liable to be taken over in any case are fields to and 50 mas. 12, 7.05 mas. 12, which will be given to the Government and the Government will have to pay compensation for such lands.

The other lands are all patta lands.
