BOARD OF REVENUE (LAND REVENUE), No. 6, 6TH JANUARY 1897.

PROCEEDINGS OF THE BOARD OF REVENUE (LAND REVENUE).

READ—statements from Collectors reconciling the differences between the collections of land revenue and cesses relating to fasli 1304 as reported to this office by the Accountant-General and those appearing in the Collectors' jamabandi demand, collection and balance returns for the fasli.

RESOLUTION—No. 6, dated 6th January 1897.

A statement reconciling the collections of land revenue and cesses relating to fasli 1304 as reported to this office by the Accountant-General and those appearing in the jamabandi demand, collection and balance statements for that fasli is appended to these Proceedings with reference to paragraph 47 of Board's Proceedings, No. 48 (Revenue Settlement), dated 21st March 1896.

2. It will be observed from the statement above referred to that the amount shown in column 3 (collections for other districts) is considerably less than that appearing in column 11 (collections in other districts) with which it ought to correspond. The difference is due to (1) payments made at the Presidency Bank during the fasli on account of Kistna, Nellore, Anantapur, North Arcot and Madura and included in the revenue accounts of those districts, and (2) to the sums collected in one district on account of another not having been fully included within the fasli in the revenue accounts of the districts on account of which the collections were made.

3. Columns 4 to 8 and 12 to 17 show the adjustments made on account of excess collections and transfers necessitated by the rectification of errors of classification. The amount appearing in column 8 against Bellary includes a sum of Rs. 43,272 representing the collections relating to villages transferred to the Anantapur district while the amount appearing against Anantapur in column 17 includes only Rupees 42,346 as relating to those villages. The difference of Rs. 926 presumably represents excess collections. The sum of Rs. 80,388 appearing in column 17 against Bellary includes Rs. 59,884 which, the Collector reports, was twice adjusted by debit to Land Revenue in March 1895.

Treasury figures as shown in column 19 of the statement ...	Rs. 6,24,14,157
Collections shown as per Collector's jamabandi returns as shown in column 20 of the statement ...	6,24,11,185
Net difference ...	2,972

4. After making the adjustments referred to above, the treasury figures and the collections in the Collector's jamabandi returns will be as shown in the margin. The net difference of Rs. 2,972 relates to the nine districts noticed below:—

Vizagapatam.—The difference of Rs. 15,553 is made up of (1) a sum of Rs. 121 collected on account of a village in the Ganjam district, which was subsequently transferred to the Vizagapatam district in the revenue accounts of which the amount was not included, and (2) of Rs. 15,432 representing the revenue from village service inams due for fasli 1303 which was included in the Accountant-General's figures but not in the jamabandi returns.

427
28-8-96

The variations appearing against *Góddavari*, *Cuddapah* and *Tinnevely* have not been explained. The Collectors of these districts are requested to supply the omission at an early date. In *Cuddapah*, the difference between the amount as worked out in the Collector's reconciliation statement and that shown in column 20 is Rs. 24; but a sum of Rs. 3-6-8 (or Rs. 3 in round figure) which was credited to Land Revenue and Cesses in May 1895 as collected on account of North Arcot having been reported by the Collector of that district to relate to the Punganur zemindari, it has been excluded from the amount shown in column 3 of the statement. The difference has therefore been shown as Rs. 21.

Tanjore.—The sum of Rs. 12,950 shown against this district represents the sale-proceeds of certain *lineparivarthanai* gardens which were sold in fasli 1304. The amount was kept under deposit and was adjusted to Land Revenue only in November 1895. It was included in the jamabandi demand, collection and balance statement for the fasli but had been excluded from the treasury figures.

South Canara, Rs. 175.—The difference of Rs. 173 is due to certain recoveries ordered by the Accountant-General in December 1894 and June 1895 which were not included in the jamabandi accounts of the fasli, and the remainder Rs. 2 is due to rounding of fractions.

The variations in the remaining districts are small and were due to rounding of fractions of a rupee.

(True Copy and Extract.)
