To the Fam. Comm.

SUBJECT.

Forwarding with remarks letter from Collector of Cuddapah regarding the closure of Samudram pallu channel took in Cuddapah Taluk and suggesting the advisability of bringing to the Famine operations drafts employed thereon, the season having become unfavourable.

Where is the quotation about "ordinary conditions" taken from? How that the people of two districts have found out how to get grain from the Deccans, prices would fall to their former level for a long time — perhaps never. The Bd's para 3 seems rather too restrictive, & as remarks will be made about effect on

Please see Conclusion portion of Ordinary letter in P. No. (3 A)

Proceedings of the Board of Revenue

(Revenue Settlement, Land Records and Agriculture.)

Dated 23rd September 1897.

No. 7845 mo

W.J.H. Le Fanu Esquire.

(Famine Commissioner).

READ the following letter from the Collector of Cuddapah Dep. on. No. 1897/7 dated 13th September 1897:-

I have the honor to report that the Samundrampalli channel work in Cuddapah Taluk has been closed as the Coolies have left the works.

2. The season has turned so favourable and is now so good that a very speedy closure of famine operations seems advisable.

Resolution

Recorded.

2. The Collector should bear in mind that the employment now found in the fields is probably

to a considerable extent only temporary, and that there is likely to be a lull in the demand for labour between this and harvest time. It is quite possible that many of those who have recently quitted the works will require relief again until the time comes to reap the crops now being sown.

3. The orders of the Government of India are to close relief "as soon as ordinary conditions are re-established." Ordinary conditions mean ordinary prices which have not yet been reached in Cuddapah.

C. No. 8326

G.O. mis No 5240 dy 7 Oct 97.

Now that a trade in grain has been established between this Presy and the northern parts of India ~~the conditions~~ prices may perhaps never fall to their former level. at any rate it will be a long time before they do so. The instructions in para 3 will therefore prolong relief operations indefinitely even after the necessity for them has ceased to exist and should be modified
