To,

The Collector of Nandapur.

Sir,

I have the honor to
reply to your reference on
C. No 1255 dated 8th September
1897.

2. In my opinion it is not
desirable that any existing
private rights of individuals
or of Communities should be
interfered with by the new
boundary. It must, however,
be

be remembered that the present dispute partly arose out of the allegations of the Lalepalli ryots that they were not allowed to take their cattle across the portion of land marked on the sketch by the letters P. R. y. S. R. G. P. Hence it is obvious that, if the existing private rights of any individual should interfere with this, the proposed arrangements would only give rise to further disputes on the part of the Lalepalli ryots. This portion of

Enacting
Hence the warning
of the ryots
the
the

of land is I believe, at present in the path of a Mysore ryot, if it should continue to be in his possession after its cession to the Madras Government, he might cultivate it and prevent the passage of cattle across it. I should therefore recommend that this piece of land should be classed as poramboke and that its cultivation or occupation should be prevented on pain of penal assessment. If this is done, there ought to be no more disputes on either side

P. No. 1255 dated 17th September

With reference to concluding
sentence of Miscellaneous Board's
Proceedings No. 7134 dated 2nd

to forward herewith a copy

previously inspected the disputed tract and arrived at the Settlement with the Subdivision Officer of Chikkabalapur. From this, it appears that the dispute arose partly out of the allegations of the Lalapady ryots that they were not allowed to take their Cattle across the portion of the land marked on the sketch by letters P, X, Y, S, R, G and that this portion is a patta land of a mysoore ryot. Mr Macmichael thinks that if this patta should continue to

216
to be in his possession even after its Cession to the Madras Government, it is likely that he might cultivate the land and prevent the passage of Cattle and this would give rise to further dispute. He therefore recommends that the land should be classed as Poramboke and its Cultivation or occupation be prohibited on pain of heavy penal assessment. If this is done, the existing Communal rights of either village, will, I think, be not interfered with.

2. The three enclosures received with the above are submitted.

Resolution

The collector is requested to report when and under what circumstances the patta was granted to the Mysore ryot.

2. If the land is to be declared to be poramboke, the questions arise as to whether the patta-dar is entitled to Compensation, if so, to how much, and who should pay it.

Enclosure 2 & 3 showing the Mysore authorities' report with reference to the difference of the patta-dar's claim.

2f

220
If the patta was granted after the erroneous demarcation of the boundary, and under the erroneous assumption that the land was at the disposal of the Mysore Government, that Government is responsible for any Compensation to which the patta-dar may be entitled.

The material for disposing of the said questions should be supplied by the collector.
