Sanctioned.

2. It is presumed that the value of the land proposed to be granted to the landowner does not exceed that of the land taken up from him.

12/11/97

3. As survey field No. 218 of which a portion is proposed to be granted in exchange, is stated to be path poramboke, the portion occupied by and required for the path must be divided off after measurement and carefully reserved.

Note 8/10/97

17/10/97

Survey field No. 218 in Vaigai nallur village, a portion of which is proposed to be granted to the landowner in exchange for the land acquired from him, is stated to be path poramboke. It is not clear what this means. If it be land reserved for communal purposes, grant is clearly objectionable.

25/10/97

In para 12 of S.O. No. 11, it is distinctly stated that "the assignment of lands in exchange should be restricted to such lands as would otherwise be assigned under the ordinary darkhast rules".

But it is possible that all that is meant is that there is a path running through the field and if the portion of the field proposed to be granted does not interfere with the path, its grant would be unobjectionable.

For orders as to whether the Board's attention should be drawn to the point.

(A) The grant of path 28 Sep 77 preamble is objectionable unless

the portion occupied by and adjacent to the path is carefully reserved. Such portion should be subdivided off after measurement and the rest may be granted as proposed. 20/4/87.
