From

The Board of Revenue, Land Revenue.

Dated

13.1.1897.

FOR ORDERS.

In paragraph 52 of the report on the inspection of the Amindini group of the Laccadive islands made in December 1892, Mr Slight, the inspecting officer, recommended that a few of the local teachers should be trained at the Calicut Normal School.

This recommendation was supported by the Collector and the Board of Revenue.

The Educational department to which the matter was remitted for consideration referred it to the Director of Public Instruction who in his letter D.24 "Deer 1895" stated that arrangements would be made "for receiving teachers from the Amindini islands to undergo training at the Calicut Training College". The D.P.I. also proposed that as an inducement to the teachers to overcome their reluctance to leave the islands and come and live for a time on the mainland, a stipend of Rs per mensem should be given to each teacher.

Re: training of the teachers of the Amindini islands.

FOR ORDERS.

in addition to the Rs 5 which the Board recommended might be paid out of the general revenues of the islands. This proposal received the sanction of Govt in the Educational Dept.

2 In the current read alone, the Collector of South Canara reports that no one of the teachers is willing to undergo training at Calicut though allowed a stipend of Rs 12 per mensem. It is not known whether the reluctance of the teachers is due to their inherent prejudice to go and live on the mainland or to the amount of the stipend not being a sufficient inducement. The first is probably the cause as Rs 12 p.m. must be tempting to inhabitants of the islands.

Orders are requested as to whether the Collr should be asked to submit further information or the current may be recorded and ~~sent to~~ communicated to the Educational Dept. for information. It is ~~not likely that~~ the Educational Dept will be prepared to give more than Rs 12 p.m. Submitted that the Collector should be directed to ascertain what causes the reluctance of teachers to undergo training & to report how he proposes to overcome the difficulty & increase the educational facilities of the islands.
