JUNE.

Wenters' Relief.—Recording, with remarks, Ganjam Collector's letter proposing modifications in the rules for — in the district.

PROCEEDINGS OF THE BOARD OF REVENUE
(REVENUE SETTLEMENT, LAND RECORDS AND AGRICULTURE).

Read—again the following Proceedings of the Board of Revenue (R.S., L.R. and Agri.), dated 3rd May 1897, Mis. No. 3090:—

Read—the following letter from H. D. TAYLOR, Esq., I.C.S., Acting Collector of Ganjām, to the Secretary to the Commissioner of Revenue Settlement and Director of the Department of Land Records and Agriculture, dated 5th April 1897, R.C. No. 579-F:—

In Board's Proceedings, No. 230, dated 15th March 1897, paragraph 5, (R.S.), it has been now laid down that the wage of labourers on relief works shall not be reduced by fining so as to lessen the wage for more than three days to a D-class wage or for more than seven days below C-class wage without the fact being reported.

2. In the case of weavers it has been prescribed that the rate of remuneration shall be permanently calculated as a C-class wage. By the analogy of the recent ruling, I have the honour to enquire whether the rate should not be raised to that of B-class labour.

3. I may note, with reference to the concluding sentence of paragraph 2 of Board's Proceedings, No. 46, dated 22nd January 1897 (R.S.), that nothing whatever could induce a weaver in this district to send his children to a public kitchen and if bare maintenance only is given to a weaver, his children will have to receive gratuitous relief by grain-doles.

4. I have already prepared a provisional task-table (copy enclosed) calculated strictly with reference to previous orders. This has been explained to all, but no one has as yet come in for any advance, though many are wavering.

5. The general task-table for submission to Government has been prepared and has been circulated to Divisional Officers for further revision with the object of reducing the number of sample cloths to be woven and checking certain variations given by different officers.

6. It appears to be the generally accepted opinion that for a day's work on the part of a man, each woman contributes half a day's work so far as weaving operations are concerned. The man, however, has a ten hours day. He cannot cook or draw water for himself. The woman's spare hours are fully occupied in domestic duties. She cannot be reasonably expected to do half a day's work and busy herself about the house for the rest of the day on half a C ration. Hence I would ask that the full labour of one man and one woman may be taken in calculating wage according to the task-table instead of one man and half a woman which is the correct proportion and could be adopted according to existing orders on the subject.

7. It may seem paradoxical to say it, but unless my proposal is approved, weavers will suffer in comparison with labourers upon ordinary relief works, because it is impossible to reduce their wages by fining.

Resolution—dated 3rd May 1897, Mis. No. 3090.

Recorded.

2. The Collector will be informed that the question of paying a B-class wage to weavers has been referred to the Special Deputy Collector on Weavers Relief Operations for enquiry and report.

3. With regard to the difficulty raised by the Collector in paragraph 3 of his letter, he is referred to paragraph 7 of G.O., No. 216 of 1897, and also to Board's Proceedings, No. 308 of 1897, wherein he is asked to report whether the adoption of the Adóni task-table will obviate the necessity of making separate arrangements for the relief of the dependants of weavers.

4. The Board agrees with the Collector that women weavers should be paid a full day's wage, though they may do only half a day's work. It is not their fault that the share of the work they can perform is so little, and it is obviously impossible for them to exist on half a C ration, or $\frac{4}{7}$ ths of the minimum. The case is met by the spirit of paragraph 5 of G.O., No. 216 of 1897.

(True Copy and Extract.)

(Signed) L. E. BUCKLEY,
Famine Secretary.

To the Collector of Ganjām.

Copy to the Secretary to Government, Revenue Department,
with an enclosure, in original (to be returned).

Read—again the following Proceedings of the Board of Revenue (R.S., L.R. and Agri.), dated 24th May 1897, Mis. No. 3675:—

Read—the following letter from H. D. TAYLOR, Esq., I.C.S., Acting Collector of Ganjām, to the Famine Secretary to the Board of Revenue, dated Johomi, 10th May 1897, R. C. No. 817-F:—

With reference to B.P., dated 22nd April 1897, Press, No. 308, and paragraph 3 of Mis. No. 3090, dated 3rd May 1897, I have the honour to state that a separate task-table for the district has already been approved in B.P., dated 27th April 1897, No. 319. Printed copy of the same is herewith forwarded.

2. The figures entered in column 14 will require some modification with reference to paragraph 4 of B.P., dated 3rd May 1897, Mis. No. 3090, as the figures for the time occupied by the woman's labour will have to be equalised to that fixed for the man.

3. I may here state that the Adóni task-table is not suitable for this district as that table prescribes only one count of thread, viz. 20, whereas 12, 14, 16, 20 are selected for this district. The length of the cloth also differs in parts of this district and these again differ from the Adóni pattern. Hence a separate task-table is necessary.

4. I may note, however, that I have compared the tasks in the table for this district and find that they closely approximate. Take for instance Adóni No. 1 and Ganjām No. 13. The size for the Adóni cloth (carpet) in No. 20 twist is $4\frac{1}{4} \times 2\frac{1}{4}$ cubits and that for Ganjām No. 13 is $13 \times 2\frac{1}{4}$ cubits. The difference in width may be disregarded as practically involving no extra labour. The Adóni task for $4\frac{1}{4}$ cubits is 1 man and 1 woman for 1 day; the Ganjām task for 13 cubits is 3 men and 3 women for 1 day. This could not be nearer. The margin, if any, is here in favour of the Ganjām task.

5. Another reason why the Adóni tables cannot be adopted is the fact that there the labour of the women preponderates, whereas here the men do most of the work and I have been directed to fix the task jointly for 1 man and 1 woman for a period based on the main labour.

6. I find from actual result at Sompéta that a family of three working members earn Rs. 1-14-0 in nine or ten days. This comes to about an anna a day per man. Hence there is no margin left for dependants.

7. I consider that by the grant of B wages, it would not be necessary to make separate provision for dependants except in very special cases where working members of the family are few and non-working members numerous.

8. If the B wage be adopted it will be necessary to take very careful steps and see that only destitute and necessitous weaver families are allowed advance of thread, otherwise our staff will be overwhelmed with work.

Resolution—dated 24th May 1897, Mis. No. 3675.

Recorded.

2. It was not intended that the Adóni task-table should be adopted, as it stands, but only the principles of it, the aim being to secure for weavers in other centres a similar wage for a similar amount of labour, as far as possible.

3. The Famine Code contemplates the admission to relief of all applicants, who are willing to submit to the conditions, and the Collector's proposal, to select only the really destitute, if it is determined to pay a B wage, cannot be approved. The Collector considers that the payment of a C wage gives only enough for actual workers. The condition of the weavers in Ganjam is, however, far better than in the Ceded Districts, for they are most of them in easy circumstances, and accept the Government terms only as a means of supplementing their other resources. Pending further orders, the payment of a C wage should be adhered to.

(True Copy and Extract.)

(Signed) L. E. BUCKLEY,
Famine Secretary.To the Collector of Ganjam.
" Secretary to Government, Revenue Department.

READ—also the following letter from H. D. TAYLOR, Esq., I.C.S., Acting Collector of Ganjam, to the Famine Secretary to the Board of Revenue, dated Chatrapur, 2nd June 1897, R. C. No. 1067-F.:

With reference to B.P., dated 12th May 1897, No. 361, and Mis. No. 3675 of 24th May 1897, I have the honour to forward herewith for the Board's approval copy of a circular issued by me for the guidance of officers in charge of weavers' depôts.

2. As rule 2 of the District Rules for weavers, which have been approved of by Government, provides for the grant of relief to destitute weavers only, these amendments appear also to require the sanction of Government.

3. I fear that if all weavers are admitted to Government relief without any enquiry into their circumstances, there will be a very large crowd of applicants for advances and additional establishments will have to be maintained on a very considerable scale.

4. I request permission to open a depôt at Ichchhápura if found necessary. This place is 14 miles from both Berhampur and Sompéta and some relief to those two depôts may prove necessary under the revised rules.

5. As regards the pay of the storekeeper, I do not think that in this district, where the depôts are numerous, the storekeeper should get Rs. 50. The appraiser has to perform the real work of the office. I intend shortly to open a central depôt at Berhampur under rule 29. The storekeeper of the central depôt may be paid Rs. 50 and required to furnish a security of Rs. 2,000.

ENCLOSURE.

Circular R.C. No. 1067-F.

With reference to B.P., dated 12th May 1897, No. 361, and 24th May 1897, Mis. No. 3675, the subjoined rules should be substituted for rules 2, 19, 20 and 26 of rules for relief of weavers printed in B.P., dated 5th March 1897, No. 191 (R.S.):—

Rule 2.—Relief will be granted to all applicants who are willing to submit to the conditions laid down below.

Rule 19.—The Paying department will consist of a paymaster on Rs. 30, a gumastah on Rs. 15, and an attender on Rs. 7.

8 BOARD OF REVENUE (REV. SETT., L. RDS. AND AGRI.), 16TH JUNE 1897, No. 440.

Rule 20.—The paymaster will be in charge of the entire stock of materials and maintain in form L a stock register showing the materials received, the total daily issues made to the weavers and the balance on hand.

Rule 26.—In line 3 the word "paymaster" should be substituted for the word "store-keeper." The rest of the rule may stand as it is.

2. The word "destitute" should be eliminated wherever it occurs in the rules. These modifications will do away with registers N and O prescribed in the rules.

(Signed) D. SRINIVASA RAO,
for Acting Collector.

Copies to all Divisional officers, Taluk officers,
including two Special Deputy Tahsildars and two Estate managers and
the Special Deputy Collector, Chatrapur, two stock files.

RESOLUTION—dated 16th June 1897, No. 440.

Recorded, with the remark that the last sentence of rule 18 of appendix to B.P., dated 5th March 1897, No. 191, should also be expunged, as it conflicts with rule 20 as now revised.

2. The Collector fears that if all weavers are admitted to relief without any enquiry into their circumstances, there will be a very large crowd of applicants for advances. It will be pointed out to him that the very fact that they seek relief on the conditions offered by Government is an indication of their necessity, provided the task-table has been properly drawn up.

3. The proposal in paragraph 5 of the Collector's letter last read above is approved. The paymaster should also be required to furnish security as required in B.P., dated 4th June 1897, No. 418.

Weavers' Relief.

Recording Board's Proceedings on letter from the Collector of Ganjam proposing modifications in the rules for — in the district.

GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

Read—the following Proceedings of the Board of Revenue (Revenue Settlement, Land Records and Agriculture), dated 16th June 1897, No. 440:—

Read—again the following Proceedings of the Board of Revenue (R.S., L.R. and Agri.), dated 3rd May 1897, Mis. No. 3090:—

Read—the following letter from H. D. TAYLOR, Esq., I.C.S., Acting Collector of Ganjám, to the Secretary to the Commissioner of Revenue Settlement and Director of the Department of Land Records and Agriculture, dated 5th April 1897, R.C. No. 579-F:—

In Board's Proceedings, No. 230, dated 15th March 1897, paragraph 5, (R.S.), it has been now laid down that the wage of labourers on relief works shall not be reduced by fining so as to lessen the wage for more than three days to a D-class wage or for more than seven days below C-class wage without the fact being reported.

2. In the case of weavers it has been prescribed that the rate of remuneration shall be permanently calculated as a C-class wage. By the analogy of the recent ruling, I have the honour to enquire whether the rate should not be raised to that of B-class labour.

3. I may note, with reference to the concluding sentence of paragraph 2 of Board's Proceedings, No. 46, dated 22nd January 1897 (R.S.), that nothing whatever could induce a weaver in this district to send his children to a public kitchen and if bare maintenance only is given to a weaver, his children will have to receive gratuitous relief by grain-doles.

4. I have already prepared a provisional task-table (copy enclosed) calculated strictly with reference to previous orders. This has been explained to all, but no one has as yet come in for any advance, though many are wavering.

5. The general task-table for submission to Government has been prepared and has been circulated to Divisional Officers for further revision with the object of reducing the number of sample cloths to be woven and checking certain variations given by different officers.

6. It appears to be the generally accepted opinion that for a day's work on the part of a man, each woman contributes half a day's work so far as weaving operations are concerned. The man, however, has a ten hours day. He cannot cook or draw water for himself. The woman's spare hours are fully occupied in domestic duties. She cannot be reasonably expected to do half a day's work and busy herself about the house for the rest of the day on half a C ration. Hence I would ask that the full labour of one man and one woman may be taken in calculating wage according to the task-table instead of one man and half a woman which is the correct proportion and could be adopted according to existing orders on the subject.

7. It may seem paradoxical to say it, but unless my proposal is approved, weavers will suffer in comparison with labourers upon ordinary relief works, because it is impossible to reduce their wages by fining.

Resolution—dated 3rd May 1897, Mis. No. 3090.

Recorded.

2. The Collector will be informed that the question of paying a B-class wage to weavers has been referred to the Special Deputy Collector on Weavers Relief Operations for enquiry and report.

3. With regard to the difficulty raised by the Collector in paragraph 3 of his letter, he is referred to paragraph 7 of G.O., No. 216 of 1897, and also to Board's Proceedings, No. 308 of 1897, wherein he is asked to report whether the adoption of the Adóni task-table will obviate the necessity of making separate arrangements for the relief of the dependants of weavers.

4. The Board agrees with the Collector that women weavers should be paid a full day's wage, though they may do only half a day's work. It is not their fault that the share of the work they can perform is so little, and it is obviously impossible for them to exist on half a C ration, or $\frac{4}{7}$ ths of the minimum. The case is met by the spirit of paragraph 5 of G.O., No. 216 of 1897.

(True Copy and Extract.)

(Signed) L. E. BUCKLEY,
Famine Secretary.

To the Collector of Ganjám.

Copy to the Secretary to Government, Revenue Department,
with an enclosure, in original (to be returned).

Read—again the following Proceedings of the Board of Revenue (R.S., L.R. and Agri.), dated 24th May 1897, Mis. No. 3675:—

Read—the following letter from H. D. TAYLOR, Esq., I.C.S., Acting Collector of Ganjám, to the Famine Secretary to the Board of Revenue, dated Johomi, 10th May 1897, R. C. No. 817-F:—

With reference to B.P., dated 22nd April 1897, Press, No. 308, and paragraph 3 of Mis. No. 3090, dated 3rd May 1897, I have the honour to state that a separate task-table for the district has already been approved in B.P., dated 27th April 1897, No. 319. Printed copy of the same is herewith forwarded.

2. The figures entered in column 14 will require some modification with reference to paragraph 4 of B.P., dated 3rd May 1897, Mis. No. 3090, as the figures for the time occupied by the woman's labour will have to be equalised to that fixed for the man.

3. I may here state that the Adóni task-table is not suitable for this district as that table prescribes only one count of thread, viz. 20, whereas 12, 14, 16, 20 are selected for this district. The length of the cloth also differs in parts of this district and these again differ from the Adóni pattern. Hence a separate task-table is necessary.

4. I may note, however, that I have compared the tasks in the table for this district and find that they closely approximate. Take for instance Adóni No. 1 and Ganjám No. 13. The size for the Adóni cloth (carpet) in No. 20 twist is $4\frac{1}{4} \times 2\frac{1}{4}$ cubits and that for Ganjám No. 13 is $13 \times 2\frac{1}{4}$ cubits. The difference in width may be disregarded as practically involving no extra labour. The Adóni task for $4\frac{1}{4}$ cubits is 1 man and 1 woman for 1 day; the Ganjám task for 13 cubits is 3 men and 3 women for 1 day. This could not be nearer. The margin, if any, is here in favour of the Ganjám task.

5. Another reason why the Adóni tables cannot be adopted is the fact that there the labour of the women preponderates, whereas here the men do most of the work and I have been directed to fix the task jointly for 1 man and 1 woman for a period based on the main labour.

6. I find from actual result at Sompéta that a family of three working members earn Rs. 1-14-0 in nine or ten days. This comes to about an anna a day per man. Hence there is no margin left for dependants.

7. I consider that by the grant of B wages, it would not be necessary to make separate provision for dependants except in very special cases where working members of the family are few and non-working members numerous.

8. If the B wage be adopted it will be necessary to take very careful steps and see that only destitute and necessitous weaver families are allowed advance of thread, otherwise our staff will be overwhelmed with work.

Resolution—dated 24th May 1897, Mis. No. 3675.

Recorded.

2. It was not intended that the Adóni task-table should be adopted, as it stands, but only the principles of it, the aim being to secure for weavers in other centres a similar wage for a similar amount of labour, as far as possible.

3. The Famine Code contemplates the admission to relief of all applicants, who are willing to submit to the conditions, and the Collector's proposal, to select only the really destitute, if it is determined to pay a B wage, cannot be approved. The Collector considers that the payment of a C wage gives only enough for actual workers. The condition of the weavers in Ganjam is, however, far better than in the Ceded Districts, for they are most of them in easy circumstances, and accept the Government terms only as a means of supplementing their other resources. Pending further orders, the payment of a C wage should be adhered to.

(Signed) L. E. BUCKLEY,
Famine Secretary.

To the Collector of Ganjam.
" Secretary to Government, Revenue Department.

Read—also the following letter from H. D. TAYLOR, Esq., I.C.S., Acting Collector of Ganjam, to the Famine Secretary to the Board of Revenue, dated Chatrapur, 2nd June 1897, R. C. No. 1067-F.:

With reference to B.P., dated 12th May 1897, No. 361, and Mis. No. 3675 of 24th May 1897, I have the honour to forward herewith for the Board's approval copy of a circular issued by me for the guidance of officers in charge of weavers' depôts.

2. As rule 2 of the District Rules for weavers, which have been approved of by Government, provides for the grant of relief to destitute weavers only, these amendments appear also to require the sanction of Government.

3. I fear that if all weavers are admitted to Government relief without any enquiry into their circumstances, there will be a very large crowd of applicants for advances and additional establishments will have to be maintained on a very considerable scale.

4. I request permission to open a depôt at Ichchhápura if found necessary. This place is 14 miles from both Berhampur and Sompéta and some relief to those two depôts may prove necessary under the revised rules.

5. As regards the pay of the storekeeper, I do not think that in this district, where the depôts are numerous, the storekeeper should get Rs. 50. The appraiser has to perform the real work of the office. I intend shortly to open a central depôt at Berhampur under rule 29. The storekeeper of the central depôt may be paid Rs. 50 and required to furnish a security of Rs. 2,000.

ENCLOSURE.

Circular R.C. No. 1067-F.

With reference to B.P., dated 12th May 1897, No. 361, and 24th May 1897, Mis. No. 3675, the subjoined rules should be substituted for rules 2, 19, 20 and 26 of rules for relief of weavers printed in B.P., dated 5th March 1897, No. 191 (R.S.):—

Rule 2.—Relief will be granted to all applicants who are willing to submit to the conditions laid down below.

Rule 19.—The Paying department will consist of a paymaster on Rs. 30, a gumastah on Rs. 15, and an attender on Rs. 7.

No. 564, REVENUE, 13TH JULY 1897.

Rule 20.—The paymaster will be in charge of the entire stock of materials and maintain in form L. a stock register showing the materials received, the total daily issues made to the weavers and the balance on hand.

Rule 26.—In line 3 the word "paymaster" should be substituted for the word "store-keeper." The rest of the rule may stand as it is.

2. The word "destitute" should be eliminated wherever it occurs in the rules. These modifications will do away with registers N and O prescribed in the rules.

(Signed) D. SRINIVASA RAO,
for Acting Collector.

Copies to all Divisional officers, Taluk officers,
including two Special Deputy Tahsildars and two Estate managers and
the Special Deputy Collector, Chatrapur, two stock files.

Resolution—dated 16th June 1897, No. 440.

Recorded, with the remark that the last sentence of rule 18 of appendix to B.P., dated 5th March 1897, No. 191, should also be expunged, as it conflicts with rule 20 as now revised.

2. The Collector fears that if all weavers are admitted to relief without any enquiry into their circumstances, there will be a very large crowd of applicants for advances. It will be pointed out to him that the very fact that they seek relief on the conditions offered by Government is an indication of their necessity, provided the task-table has been properly drawn up.

3. The proposal in paragraph 5 of the Collector's letter last read above is approved. The paymaster should also be required to furnish security as required in B.P., dated 4th June 1897, No. 418.

(True Copy and Extract.)
