(LAND REVENUE).

READ—the following letter from J. N. ATKINSON, Esq., Collector of Kistna, to the Secretary to the Commissioners of Land Revenue (through the Conservator of Forests, Northern Circle, dated Kondapalli, 21st October 1896, C. No. 1284-For.:—

I have the honour to forward herewith draft notification under section 4 for the reservation of two extensions of Tangeda reserve (No. 72), amounting to 920 and 1,100 acres, respectively.

These areas, together with the proposed Madinapad extension 3 and Rekullagadda reserves and the whole of the waste area south of the village of Tangeda were originally selected as one extension of Tangeda reserve. The District Forest-officer, however, on inspection last February deemed it better to separate these two different portions and to leave a good deal more waste land out for extension of cultivation and agricultural purposes. Moreover the northern boundary of Madinapad extension 3 (western boundary of the main reserve) has not yet been surveyed; and the dotted line shown for it on the plan herewith sent is only taken from the sketch-map, which cannot be trusted.

3. The demarcation was completed in June last by the Assistant Surveyor, S. Lakshmanachari, under instructions from the District Forest-officer, and has not been subsequently checked.

4. The forest growth is dense Sandra (*Accacia sundra*), and the reserves will form part of the Alugurazupalli working circle, together with Rekullagadda, Govindapuram, Vemavoram, &c., reserves.

5. Nearly 1,700 acres of waste land have been left out for extension of cultivation and agricultural requirements within this village.

I have the honour to forward herewith draft notifications under section 4 for the reservation of Rekullagadda block, which has an area of 3,450 acres.

2. It was originally selected by Ranger P. Ananda Row as part of Tangeda extension, as reported in my letter C. No. 1284, Forest, dated 21st October 1896, but was with certain other modifications formed into a separate reserve by the District Forest-officer, A. W. Lushington, Esq., on his inspection in February last. It was demarcated according to his instructions in April last by Assistant Surveyor S. Lakshmanachari, whose work has not since been checked by the District Forest-officer.

3. It contains very dense Sandra (*Accacia sundra*) forest, and will form part of the Alugurazupalli working circle, with Tangeda and other reserves.

4. The area of waste land left outside the reserve for Vemavaram and Tadutla villages for extension of cultivation and communal privileges is (excluding the area taken up in Vemavaram reserve) shown, by the table required by Board's Proceedings Forest No. 459, dated 2nd October 1896, to be 2,745 acres, which is ample.

5. The statement of area and condition and the demarcation certificate are herewith submitted.
