Memo.

Kelivela Agraharam, Narsapur Taluk.

The usual wet of this village was fixed by the Inam Commissioner at $41 = 328$ at a. 8 per Putti.

The rate of conversion allowed subsequently since 1871 was a 10-78c and the same (a. 442) has been enjoyed by the Agraharamdars for over 20 years free of charge.

There is besides a. 18-83C. comprising what are called Poramboke Inam. Water rate was to be charged on this extent as per Government order No 661 dated 13th September 1894, which, however, has been cancelled by Government Order No —.

The area a 18-83C also has been under enjoyment for over 20 years, and this title is supported by old blue bands of 71220 and 1228 (Collector's letter 62 dated 17th April 1893 embodied

embodied in Board's Proceedings No
132 dated 31st March 1894)

The area a. 442 + a 18-83 c = 460-83 is
therefore accepted under protest and
localized as follows:-

The average survey rate comes to a 10-74c.
against 10.78 hitherto allowed, the
total survey area being a 934-88c.

The rate already allowed may be
considered as the correct conversion-
rate.

The allowance of a 18-83c of
Poramboke Inam free of charge
will have to be reconsidered.

(Signed) bh. Venkatachalam
Special Deputy Collector
24-5-96.

Proceedings of the Board of Revenue

(Revenue Settlement, Land Records and Agriculture.)

Dated 12th December 1896.

No. 6531 Meis.

READ the following letter from the collector of Godavari, dated 20th October 1896 Reference on current No 4121 / Ver. of 96: —

I have the honor to submit the following matter for the Board's orders. In Government Order No 661 dated 13th September 1894 communicated with Board's Proceedings No 437 dated 13th October 1894 orders have been given on two points
(1) The procedure to be observed in fixing the conversion rate in the Settlement of areas entitled to free irrigation
(2)

(2) The charge of water-rate on a. 18-83 of Poramboke in the Agraharam village of Veli-ocla, which the Agraharam-dar has for upwards of 20 years irrigated free of water-rate.

On the first point, Government ruled in reference to the Settlement made in 1876 in respect of 16 villages by Deputy Collector H. Subba Rao without authority and to the injury of Government Revenue, that "having regard to the official position held by that officer when he made the Settlement, and to the circumstance that in fixing the rates he proceeded under the orders of the then collector of the District and followed the sanctioned rules on the subject, the Settlement made by him should not now be repudiated." Subsequently, however, in reference to the Settlement of Marnul wet now going on, Government having

having laid down in Government Order 2416 dated 17th June 1895 communicated with Board's Proceedings No 3197 mis dated 27th June 1895, a new principle on which the conversion rate is to be fixed, the question was raised in this office No 2466 Ver dated 19th July 1895 whether the more recent order was meant to supersede the Government Order of 1894 in respect of the 16 villages, and Government replied in the affirmative - vide Government Order No 3612 dated 5th September 1895 communicated with Board's Proceedings 4657 dated 16th September 1895 Land Revenue. This, as I understand, affected the earlier Government Order only in respect of the conversion rate. But the Special Deputy Collector has taken the latter Government order

(2) The charge of water-rate order to have superseded the earlier in its entirety - ie in respect not only of the conversion rate about which the question was raised in this office letter above referred to, but also in regard to the charge of water-rate on the acres 18-83 of Poramboke in Velivela about which no question has been raised, and he has accordingly classed that extent also as usual wet - as I think he is wrong, I request that I may be given orders on the subject - a copy of his decision is enclosed.

The History of the Poramboke land is given at length in the memorandum which accompanied this office letter 62 dated 17th April 1893 printed in Board's Proceedings 132 dated 31st March 1894

Resolution

Resolution

The collector is right in his opinion that Government Order No 2416 Mis Revenue dated 17th June 1895, supersedes the earlier Government Order no 661 Revenue dated 13th September 1894 in respect only of the conversion rate to be adopted for the determination of mamul wet areas and that the former does not affect the liability to water-rate of the 18-83 acres of poramboke land referred ~~referred~~ to in para 2 of the letter.
