DRAFT NOTIFICATION.

His Excellency the Governor in Council is pleased to notify, under the provisions of section 4 of the Madras Forest Act (V of 1882), that it is proposed to constitute the block of lands described in the schedule hereto annexed "reserved forests" under the Act.

SCHEDULE.

Number.	District.	Taluk.	Name of block.	Boundaries.
38	Vizagapatam.	Golgonda..	Pedimikonda reserve extension block No. I.	<i>North.</i>—Starting from the trijunction boundary station of Chinnabhairavabhupati Sanyasiraju Agraharam and Natavaram villages, the boundary of the reserve runs generally north-east and east-north-eastwards along the southern boundary of Pedimikonda reserve to the trijunction boundary station of Srungavaram, Sanyasiraju Agraharam and Natavaram villages. <i>East.</i>—Thence south-south-eastwards to the first boundary station, south of the trijunction stone of Srungavaram, Sanyasiraju Agraharam and Natavaram villages at the north-east corner of Pilla Ramasami's dry cultivation of Sanyasiraju Agraharam. <i>South.</i>—Thence generally south-westward and westwards along the north sides of Pilla Ramasami's and Adigola Yellayya's dry cultivations to the north-west corner of latter ryot's land. <i>West.</i>—Thence west-north-westwards through jungle to the starting point, distance 18-00 chains.
40	Vizagapatam.	Golgonda..	Karaka reserve extension block No. I.	<i>North.</i>—Starting from a cairn at the south-east corner of Somula Mothayya's dry cultivation of Karaka village, on the south side of Raja's channel, five furlongs south-west of Rajupet (hamlet of Kotta Yellavaram), the boundary of the reserve runs in a north-easterly direction by the side of the abovementioned channel to a cairn by the side of the foot-path from Karaka to Rajupet village, distance 20-4 chains; thence eastwards to a cairn, distance 23-8 chains at the south-east corner of Somula Pentayya's dry cultivation of Rajupet; thence east-north-eastwards to a cairn at the south-west corner of Somula Kannayya's dry cultivation, distance 8-1 chains; thence eastwards by the south side of the abovementioned land and through jungle to a cairn at the south-east corner of Lanka Cheruvu, distance 37-7 chains; thence eastwards to a cairn at the south-east corner of Berajam Gundamayya's dry cultivation of Kotta Yellavaram mokassa village and on the west side of Palagedda, distance 10-9 chains; thence generally south-eastwards and eastwards along the west and south banks of the abovementioned gedda to the trijunction station of Balaghattum, Lingapuram and Kotta Yellavaram villages which is also on the western boundary of Madammakonda reserve. <i>East.</i>—Thence south-westwards and southwards along the western boundary of Madammakonda reserve to the third boundary stone at the north-east corner of Semala Somanna's dry cultivation of Kasmi Agraharam. <i>South.</i>—Thence south-westwards through jungle straight on to the third boundary stone, south of the trijunction station of Kotta Yellavaram, Jammaram and Kasmi villages, situated at the north-west corner of Dhoney Gudappa's dry cultivation of Kasmi Agraharam, distance 82-8 chains; thence north-westwards to cairn No. 2 of Karaka reserve, distance 18-00 chains, situated at the northernmost corner of Nelappa Chendrayya's dry cultivation of Jammaram Agraharam and by the side of the foot-path from Jammaram to Karaka village; thence generally northwards and westwards along the foot-path, being the northern boundary of Karaka reserve to a cairn at the south-east corner of Konaka Yerrayya's dry cultivation of Karaka village, seventeen chains west of the fourth boundary stone, north of the trijunction station of Karaka, Kotta Yellavaram and Jammaram villages. <i>West.</i>—Thence northwards by the east side of Konaka Yerrayya's dry cultivation of Karaka village to a cairn, distance 14-6 chains at the easternmost corner of Konakka Yerrayya's wet cultivation; thence north-westwards through jungle to a cairn, distance 12-7 chains on the foot-path from Karaka to Kotta Yellavaram and at the north-east corner of Bolangi Krishnamma's dry cultivation; thence westwards by its north side to a cairn at the north-east corner of Vongala Pentayya's dry cultivation, distance 10-15 chains; thence west-north-westwards along its north side to a cairn at its north-west corner, distance 13-65 chains; thence north-north-westwards through jungle to the starting point, distance 20-15 chains.
41	Vizagapatam.	Golgonda..	Karaka reserve extension block No. II (d).	<i>North.</i>—Starting from cairn No. 20 of Karaka reserve at the south-east corner of survey No. 106 of Valasampet village, by the side of the foot-path from Tallapalem to Vadaparti villages, the boundary of the reserve runs generally in a north-easterly direction along the foot-path, being the southern boundary of Karaka reserve to a cairn, distance 45-4 chains, at the south-west corner of Jampa Bheemayya's dry cultivation of Vadaparti village, and at the junction of the paths from Vadaparti and Mulagapudi to Tallapalem village; thence in an east-south-easterly direction along the foot-path to Mulagapudi to a cairn, distance 27-25 chains, at the west side of Erray Gunganna's dry cultivation; thence southwards by its west side to a cairn, distance 10-00 chains at the south-west corner of Sagara Buchayya's dry cultivation; thence east-south-eastwards by the south side of the abovementioned field to a cairn at the southernmost corner of Jampa Bheemayya's dry cultivation, distance 11-4 chains; thence north-eastwards to a cairn by the side of the cart-track from Vadaparti to Natavaram, distance 14-45 chains; thence generally in a north-easterly and south-easterly direction along the cart-track to a cairn, distance 19-3 chains by the east side of Addukonda. <i>East.</i>—Thence south-south-westwards by the foot of Addukonda to a cairn, distance 7-55 chains; thence south-westwards to the survey boundary station at the north-west corner of survey No. 494 of Yellavaram Pondapet village, distance 17-00 chains; thence along the west and south sides of survey No. 494 and the south sides of survey Nos. 490, 489 and 488 to a cairn at the southernmost corner of the lastmentioned field; thence across No. 481 in a south-easterly direction to a cairn, distance 7-6 chains by the side of the cart-track to Natavaram, near the south-west corner of No. 487; thence generally southwards along the cart-track to a cairn, distance 47-5 chains near a mango tree. <i>South.</i>—Thence westwards through jungle of survey No. 481 to the north-east corner of No. 501 marked by a cairn, distance 35-9 chains; thence westwards along the north sides of Nos. 501, 504 and 498 to a cairn at the north-west corner of the lastnamed survey number; thence west-south-westwards across No. 481 to the boundary station marked by a cairn at the foot of Gollakonda, distance 20-9 chains; thence due north across survey No. 96 of Valasampet village to a cairn at the north-east corner of Pemada Sanyasi's podu of Venkatapuram (hamlet of Valasampet), distance 33-2 chains at the foot of Partikonda; thence west-south-westwards along its north side by the foot of the abovementioned hill to a cairn at its north-west corner, distance 2-00 chains; thence straight on in the same direction to a cairn, distance 15-35 chains near the north-east corner of Lanka Gongalaya's podu; thence south-westwards to a cairn, distance 8-35 chains at its north-west corner; thence west-north-westwards by the north side of Golla Guravadu's podu to a cairn by the side of the foot-path from Venkatapuram to Vadaparti, distance 21-5 chains. <i>West.</i>—Thence generally northwards and north-eastwards along the foot-path to Vadaparti to a cairn, distance 49-00 chains; thence northwards to a cairn at the south-east corner of survey No. 103 of Valasampet village, distance 7-25 chains; thence north-north-eastwards along its east side to the starting point, distance 11-95 chains.

Number.	District.	Taluk.	Name of block.	Boundaries.
41	Vizagapatam.	Golgonda..	Karaka reserve extension block No. II (a).	<i>North.</i>—Starting from cairn No. 26 of Karaka reserve, situated on the foot-path from Kuravada to Vutumalla villages, six chains north-east of Vepamanu cheruvu of Kuravada village, the boundary of the reserve runs in a north-east and easterly direction along the south boundary of Karaka reserve as far as a cairn situated at the north-west corner of Kona Yenka's dry cultivation of Vutumalla village, twenty-five chains east of cairn No. 25 of Karaka reserve. <i>East.</i>—Thence in a straight line southwards to a cairn, distance 39.3 chains, on the foot-path from Kuravada to Vutumalla village by the east side of a Gedda; thence in the same direction southwards to a cairn, distance 10.25 chains, at the south-west corner of Kona Yenka's dry cultivation; thence eastwards to a cairn, distance 18.00 chains at the south-west corner of a palmyra tope; thence north-eastwards by the south side of the above mentioned tope to a cairn distance 21.6 chains, by the side of the foot-path from Vutumalla to Tallapalem village, six chains south-east of Vutumalla village; thence in a south-easterly direction along the path to Tallapalem to a cairn, distance 16.6 chains, on the east side of Mottie gedda, being the westernmost corner Ragay Sanyasi's dry cultivation; thence south-eastwards by the south side of the above mentioned cultivation to a cairn at its south-east corner, distance 8.95 chains; thence due southwards to the survey boundary station marked by a cairn 8.5 chains south-west of the southernmost corner of survey No. 114 of Valasampet village. <i>South.</i>—Thence generally southwards and south-westwards along the survey boundary between Vutumalla and Valasampet villages up to the boundary stone at the junction of survey Nos. 1 and 96 of Valasampet village; thence generally south-westwards along the khandam boundary of Valasampet village to the fifth khandam station, marked by a cairn, on the north side of a large gedda; thence north-westwards across survey No. 1 to the fifth boundary station stone, south-west of the trijunction station stone of Vutumalla, Chemmachinta and Valasampet villages, distance 24.00 chains; thence generally in a south-westerly direction, along the village boundary between Chemmachinta and Valasampet, to the fifth boundary station marked by a cairn near a Channam kiln. <i>West.</i>—Thence northwards across survey No. 1 of Chemmachinta village to a cairn, distance 6.7 chains, at the south-east corner of Nathala Benigadu's dry cultivation (sub-division in survey No. 1 of Chemmachinta) on the north side of a stream; thence north-eastwards to a cairn at its easternmost corner, distance 3.1 chains; thence north-westwards to a cairn, distance 4.5 chains at its north-east corner; thence again across survey No. 1 to the south-east corner of survey No. 3 marked by a cairn, distance 23.45 chains; thence northwards along its east side to its north-east corner marked by a cairn; thence across No. 1 through jungle to the boundary station by the side of the foot-path from Kuravada to Chemmachinta village, distance 35.8 chains; thence north-north-eastwards, through jungle to a cairn, distance 28.65 chains at the foot of Pottimetta of Kuravada village; thence in the same direction a little northwards to the starting point, distance 13.5 chains.
42	Vizagapatam.	Golgonda.	Arlova reserve extension block No. I (a).	and north-eastwards along the southern boundary of Arlova reserve up to the cairn at the north-west corner of the trijunction stone of Nagandhorapalem, Yarravaram and Kotta Yellavaram villages. <i>East.</i>—Thence southwards to the second boundary station, south-east of the trijunction stone of Nagandhorapalem, Yarravaram and Kotta Yellavaram villages, distance 8.38 chains; thence south-south-westwards across jungle to a cairn at the north-west corner of Koda Ramanna's dry cultivation of Kotta Yellavaram, distance 7.65 chains; thence south-westwards and south-eastwards along its west and south sides by four cairns, distances 2.07, 5.65, 1.85 and 13.83 chains, respectively, the last cairn at its south-east corner and on the north side of a gedda; thence south-south-eastwards and southwards through jungle by two cairns, distances 6.00 and 6.55 chains respectively, the last cairn at the north-east corner of Madala Geddayya's dry cultivation; thence south-westwards by west along its north side to its north-west corner distance 8.15 chains; thence south-westwards by the west sides of Dullay Kristamma and Thugeri Mokiyya's dry cultivations to a cairn at the south-west corner of the last-named ryot's land, distance nine chains; thence in the same direction south-westwards to a cairn at the westernmost corner of Dullay Kristamma's dry land, distance thirteen chains; thence southwards and south-westwards through jungle by two cairns, distances 8.2 and 6.35 chains respectively, the last cairn at the easternmost corner of Somali Mathayya's dry cultivation. <i>South.</i>—Thence north-westwards to a cairn at the northernmost corner of Somali Mathayya's dry cultivation, distance 10.3 chains; thence south-westwards to the second boundary station, south of the trijunction station stone of Kotta Yellavaram, Karaka and Nagandhorapalem villages, distance 7.75 chains; thence west-south-westwards to a cairn at the north-east corner of Pulli Svami's dry cultivation of Karaka village, distance 4.23 chains; thence in a north-westerly direction to a cairn at the northernmost point of Kona Yenka's dry cultivation distance 16.65 chains; thence south-westwards and westwards along the north sides of the above-named cultivation by two cairns, distances 12.4 and 7.7 chains, respectively, the last cairn at its north-west corner, by the side of the abandoned cart-track from Karaka to Nagandhorapalem; thence north-westwards to a cairn on the east side of Araku Lakshmayya's dry cultivation of Kotturu (hamlet of Karaka), distance 15.3 chains; thence northwards, north-westwards, westwards and south-westwards along its east, north and west sides by five cairns, distances 3.2, 4.0, 16.25, 5.8 and 7.1 chains, respectively, the last cairn at its south-west corner; thence west-south-westwards to a cairn at the north-west side of Pandra Yerayya's dry cultivation, distance 5.45 chains; thence south-south-westwards through the jungle to a cairn, distance 15.9 chains on the north boundary of Karaka reserve, fourteen chains west of cairn No. 44 of Karaka reserve; thence generally westwards and west-north-westwards along the Karaka reserve boundary to cairn No. 43, distance forty-three chains. <i>West.</i>—Thence northwards to the trijunction boundary stone of Golgonda, Karaka and Jamadavepet villages, distance three chains, at the foot of Dagala Metta; thence north-west and westwards by the foot of the above-mentioned Metta by four cairns, distances 5.15, 3.85, 3.15 and 6.00 chains, respectively, the last cairn at the south-east corner of Thuberi Linganna's dry cultivation; thence northwards to a cairn at its north-east corner, distance 4.85 chains under a tamarind tree; thence north-north-eastwards by the east side of Vamala Soman-na's dry cultivation to a cairn at its north-east corner, distance 5.2 chains; thence north-westwards up the saddle between Dagala Metta and Nuddim Metta to a cairn at the south-west corner of Karapa Ramandhora's dry cultivation, distance 8.00 chains; thence eastwards along its south sides by the north side of Dagala Metta by two cairns, distances 8.35 and 6.00 chains, respectively, the last cairn at the south-east corner of the above-mentioned field; thence north-north-eastwards by its east side to the starting point, distance 23.5 chains.

Number.	District.	Taluk.	Name of block.	Boundaries.
42	Vizagapatam.	Golconda.	Arlova reserve extension block No. I (b).	<i>North.</i>—Starting from the cairn at the north-east corner of Sowralley Kunnayya's dry cultivation of Rajupet (hamlet of Kotta Yellavaram Mokassa) on the southern boundary of Arlova reserve, six chains west of the second boundary station west of Nalla Metta of Kotta Yellavaram, the boundary of the reserve runs generally eastwards and north-eastwards along the southern boundary of Arlova reserve up to the first boundary station north-east of the trijunction boundary stone of Yerravaram, Chedigumala and Yerkampet villages; thence south-south-eastwards to a cairn at the westernmost corner of Gidathura Chellayya's dry cultivation (sub-division of survey No. 1 of Chedigumala village, distance 3.75 chains; thence south-east and north-north-eastwards along its south and east sides to its north-east corner by two cairns, distances 15.00 and 9.00 chains, respectively; thence north-eastwards by the west side of Chedigumala Konda to a cairn distance 7.00 chains; thence eastwards to the south-west corner of survey No. 54, distance 8.70 chains; thence eastwards along the south sides of survey Nos. 54 and 55 to the north-west corner of No. 58. <i>East.</i>—Thence south-south-eastwards and south-westwards along the west sides of Nos. 58 and 57 to the boundary station at the westernmost corner of survey No. 57; thence along the survey boundary south-westwards by the foot of Chedigumala Konda to the third boundary station; thence south-westwards across survey No. 113 of Yerkampet village to the north-west corner of No. 107, distance 6.50 chains; thence southwards along its west side to its south-west corner; thence south-south-westwards again across No. 113 straight on to the north-west corner of No. 116, distance 38.50 chains; thence south-westwards to the third boundary station, north-west of the trijunction station of Gondepala, Yerkampet and Kotta Yellavaram villages, distance 19.00 chains. <i>South.</i>—Thence north-westwards to the next boundary station, distance 13.00 chains at the north-west corner of Kunuru Yerayya's dry cultivation; thence generally west-north-westwards along the north sides of Bemereddy Butchayya's dry cultivation by four cairns, distances 11.30, 6.00, 13.25 and 6.60 chains, respectively, the last cairn at its north-west corner; thence north-westwards straight on to a cairn at the northernmost corner of Padal Yerkenna's dry cultivation, distance 31.00 chains; thence south-westwards through jungle to a cairn, distance 17.9 chains under a tamarind tree; thence north-westwards to a cairn on the abandoned cart-track from Yerravaram to Karaka, distance 6.75 chains; thence south-west and southwards along the cart-track to a cairn where the cart-track from Yerkampet meets it, distance twenty-seven chains; thence south-westwards along the cart-track to a cairn at the north-east corner of Dally Kristnana's dry cultivation of Rajupet (hamlet of Kotta Yellavaram Mokassa), distance 17.45 chains; thence west-north-westwards to a cairn at its north-west corner, on the east side of Palagedda, distance 8.8 chains. <i>West.</i>—Thence generally northwards and north-westwards along the east side of the above-mentioned gedda by four cairns, distances 4.00, 4.00, 4.00 and 10.70 chains, respectively, the last cairn at the southernmost corner of Pombra Palayya's dry cultivation, on the foot-path from Rajupet to Jiladupudi; thence north-eastwards along its east sides by four cairns, distances 5.00, 4.15, 7.70 and 9.00 chains, respectively, the last cairn at its north-east corner; thence due north to the starting point, distance 10.5 chains.

2. His Excellency the Governor in Council is further pleased, under clause (c) of the said section 4, to appoint Mr. R. H. L. Lushington, Special Forest Settlement-officer of Ganjam, &c., districts, for the time being to be the Forest Settlement-officer, who shall inquire into and determine the existence, nature and extent of any right claimed by, or alleged to exist in favour of, any person in or over land comprised within such limits, or to any forest produce of such land; and to deal with the same as provided in chapter II of the said Act, and the District Forest-officer, Vizagapatam, for the time being, to attend on behalf of Government during the inquiry.

3. His Excellency in Council is further pleased, under the powers vested in him by section 14 of the said Act, to appoint the Collector of Vizagapatam to be the officer of Revenue Department, who shall hear appeals from orders of Forest Settlement-officer passed under sections 11, 12 and 13 of the said Act.

(Signed) T. COX,
District Forest-officer.

Secretary.

Karaka Extn I

His Excellency the Governor in Council is pleased to notify under the provisions of Section 4 of the Madras Forest Act (V. of 1882), that it is proposed to constitute the block of lands described in the schedule hereto annexed, "Reserved Forest" under the Act.

Schedule.

No.	District	Taluk.	Name of block -	Boundaries -
41	Viragapale	Golconda	Karaka Reserve Extension block No. II. (b)	North. Starting from Cairn No. 20 of Karaka Reserve at the South-east

Corner of survey No. 106 of Valasaupet village, by the side of the foot path from Tallapalem to Vadaparti villages, the boundary of the Reserve runs generally in a north-easterly direction along the foot-path, being the Southern boundary of Karaka Reserve to a cairn distance 45.4 Chains, at the southwest corner of Jampa Bheemayya's dry cultivation of Vadaparti village, and at the junction of the paths from Vadaparti and Mulagapudi to Tallapalem village; thence in an east South easterly direction along the foot-path to Mulagapudi.

Imulagapudi to a cairn distance 27.25 chains,
 at the west side of Erray Gunganna's dry
 cultivation; thence southwards by its
 west side to a cairn distance 10.00 chains
 at the southwest corner of Sagara Buchayya's
 dry cultivation; thence east southeastwards
 by the south side of the above mentioned field
 to a cairn at the southernmost corner of
 Jampa Phemayya's dry cultivation
 distance 11.4 chains; thence northeastwards
 to a cairn by the side of the Cart track
 from Vadaparti to Natararam distance
 14.45 chains, thence generally in a north-
 easterly and south-easterly direction along
 the cart track to a cairn distance 19.3 chains
 by the east side of Addukonda.

East: - Thence south, southwestwards
 by the foot of Addukonda to a cairn distance
 7.55 chains; thence southwestwards to
 the survey boundary station at the north
 west corner of survey no. 494 of Yellavaram
 Gondapet village distance 17.00 chains; thence
 along the ^{west and south sides of survey no. 494} south sides of survey nos. ~~494~~ 490, 489
 and

and 488 to a cairn at the southernmost corner
 of the last mentioned field; thence across no.
 481 in a south easterly direction to a cairn
 distance 7.6 chains by the side of the cart track
 to Natararam, near the south west corner of
 no. 487; thence generally southwards along
 the cart track to a cairn distance 47.5
 chains near a mango tree.

South: - Thence westwards through jungle
 of survey no. 481 to the north-east corner of
 no. 501 marked by a cairn distance 35.9 chains
 thence westwards along the north sides of
 nos. 501, 504 and 498 to a cairn at the north
 west corner of the last named survey no.;
 thence west south westwards across no. 481
 to the boundary station marked by a cairn
 at the foot of Golla Konda distance 20.9
 chains; thence due north across survey
 no. 96 of Valasampet village to a cairn at
 the north-east corner of Pemada Sanyasi's
 podu of Neukatapuram (hamlet of Valasampet)
 distance 33.2 chains at the foot of Partikonda;
 thence west south-westwards along its north

North side by the foot of the above mentioned hill to a cairn at its North-west corner, distance 2.00 chains; thence straight on in the same direction to a cairn distance 15.35 chains ^{at} the North east corner of Lanka Gungalaya's Poodi; thence South-westwards to a cairn distance 8.35 chains at its Northwest corner; thence west North westwards by the North side of Golla Gharavan's path to a cairn by the side of the foot path from Venkatapuram to Vadaparthi distance 21.5 chains.

West: - Thence generally northwards and North eastwards along the foot path to Vadaparthi to a cairn distance 49.00 chains; thence northwards to a cairn at the South east corner of Survey No. 103 of Valasampet village distance 7.25 chains; thence North, North-eastwards along its ^{Foot} West side to the starting point distance 11.95 chains. -

Con. S.S.O.
14. IV 97.

2. His Excellency the Governor in Council is further pleased, under clause (C) of the said Section 4, to appoint Mr. R.H.D. Lushington, Special Forest Settlement Officer of Ganjam & District, for the time being, to be the Forest Settlement Officer, who shall enquire into and determine the existence, nature, and extent of any right claimed by, or alleged to exist in favor of, any person in or over the land comprised within such limits, or to any forest produce of such land and to deal with the same as provided in Chapter II of the said Act, and the District Forest Officer, Viragapatam for the time being, to attend on behalf of Government during the Enquiry.

3. His Excellency the Governor in Council is further pleased under the powers vested in him in Section 14 of the said Act, to appoint the Collector of Viragapatam to be the Officer of Revenue Department who shall hear appeals from orders of the Forest Settlement Officer passed under Sections 11, 12 & 13 of the said Act.

For Collector

His Excellency the Governor in Council is
 pleased to notify under the provisions of
 Sec 4 of the Madras Forest Act (V of 1882)
 that it is proposed to constitute the block
 of lands described in the Schedule hereto
 annexed "Reserved Forest under the Act"
Schedule

No.	District	Taluk	Name of block	Boundaries
41	Virudachari	Golconda	Karaka Reserve Extension block No. II. a.	North. - Starting from Cairn No. 26 of Karaka Reserve situated on the foot

path from Kuravada to Vutuncalla villages
 6 chains northeast of Vepamane Chervu
 of Kuravada village, the boundary of the
 Reserve runs in a northeast and easterly
 direction along the South boundary of
 Karaka Reserve as far as a cairn
 situated at the northwest corner of
 Kona Yenkayya's dry cultivation of
 Vutuncalla village, 25 chains east of
 Cairn No. 25 of Karaka Reserve.

East

East. — Thence in a straight line south-
wards to a cairn distance 39.3 chains,
on the foot path from Kuravada to
Vutimalla village by the east side of a
Gedda; thence in the same direction
southwards to a cairn distance 10.25
chains, at the southwest corner of Kona
Venuyya's dry cultivation; thence
eastwards to a cairn distance 18.00
chains at the southwest corner of a
palmyra tope; thence northwards
by the south side of the above mentioned
tope to a cairn distance 21.6 chains,
by the side of the foot path from Vutimalla
to Talloipaleem village, 6 chains south-
east of Vutimalla village; thence in a
south-easterly direction along the path to
Talloipaleem to a cairn distance 16.6
chains, on the east side of Mottie gedda,
being the westernmost corner Ragay
Sanyasi's dry cultivation; thence
southeastwards by the south side of the
above mentioned cultivation to a cairn
at its southeast corner distance 8.95 chains;
thence

thence due southwards to the Survey boundary
station marked by a cairn, 8.5 chains
southwest of the southernmost corner of
Survey No. 114 of Valasampet village.

South — Thence generally southwards, and
southwestwards along the survey boundary
between Vutimalla and Valasampet
villages up to the boundary stone at the
junction of Survey Nos. 1 and 96 of
Valasampet village; thence generally
southwestwards along the Khundam
boundary of Valasampet village to the fifth
Khundam station, marked by a cairn, on
the north side of a large gedda; thence
northwestwards across Survey No. 1 to the
5th boundary station stone, southwest
of the trijunction station stone of Vutimalla,
Chennamachinta and Valasampet villages,
distance 24.00 chains; thence generally in
a southwesterly direction, along the village
boundary between Chennamachinta and
Valasampet, to the fifth boundary station
marked

marked by a cairn near a chunam kiln.
West:— Thence northwards across Survey No. 1 of Chemmachinta village to a cairn distance 6.7 chains, at the southeast corner of Nathala Benigara's dry cultivation (subdivision in Survey No. 1 of Chemmachinta) on the north side of a stream; Thence northeastwards to a cairn at its easternmost corner distance 3.1 chains; Thence northwestwards to a cairn distance 4.5 chains at its north-east corner; Thence again across Survey No. 1 to the south-east corner of Survey No. 3 marked by a cairn distance 23.45 chains; Thence northwards along its east side to its north-east corner marked by a cairn; Thence across No. 1 through jungle to the boundary station by the side of the foot path from Kuravada to Chemmachinta village distance 35.8 chains; Thence north, northeastwards, through jungle to a cairn distance 28.65 chains at the foot of Pottimetta of Kuravada village; Thence in the same direction

a

a little northwards to the starting point distance 13.5 chains.

2. His Excellency the Governor in Council is further pleased, under clause (c) of the said section 4, to appoint Mr. R. H. L. Lushington, Special Forest Settlement Officer of Ganjam &c districts, for the time being, to be the Forest Settlement Officer, who shall enquire into and determine the existence, nature, and extent of any right claimed by, or alleged to exist in favor of, any person in or over the land comprised within such limits, or to any forest produce of such land and to deal with the same as provided in Chapter II of the said Act, and the District Forest Officer, Visagapatnam, for the time being, to attend on behalf of Government during the enquiry.
3. His Excellency in Council is further pleased under the powers vested in him in Section 14, of the said Act, to appoint the Collector of Visagapatnam to be the Officer of Revenue Department, who shall hear appeals from orders of Forest Settlement Officers passed under Sections 11, 12, and 13 of the said Act.

For Collector

His Excellency the Governor in Council
is pleased to notify under the
provisions of Section 4 of the Madras
Forest Act (No. 1882) that it is
proposed to constitute the block of lands
described in the Schedule hereto annexed
"Reserve Forest" under the Act.

Schedule.

No.	District	Taluk.	Name of Block.	Boundaries.
42	Viragapalem	Golconda.	Arlova Reserve Extension Block No. I (a).	North:— Starting from the Survey Boundary Stone on the East side of Badu Metta, being the 2 nd Station Stone North West of the trijunction Stone of Karak, Naganthorapalem & Tamadaupet Villages, the boundary of the Reserve runs generally Eastwards and North Eastwards along the Southern boundary of Arlova Reserve up to the Cairn at the North West corner of Souralley. Benayya's dry cultivation of Tilledupudi (hamlet of Yarravaram 19 chains East of the trijunction Stone of Naganthorapalem, Yarravaram and Kotta Yellavaram Villages.

East:— Hence Southwards to the 2nd boundary Station, South East of the trijunction Stone of Naganthorapalem, Yarravaram and Kotta Yellavaram Villages.

distance 8.38 chains; thence South,
South Westwards across jungle to a
cairn at the North West corner of
Koda Ramanna's dry cultivation
of Kotta Yellavaram distance 7.65-
chains; thence South Westwards
and South Eastwards along its
West and South Sides by 4 Cairns
distances 2.07, 5.65-1.83 and 13.83
chains respectively, the last cairn at
its South East corner and on the
North Side of a gidda; thence
South, South Eastwards and Southwards
through jungle by 2 cairns distances
6.00 and 6.56 chains respectively, the
last cairn at the North East corner of
Madala Geddappa's dry cultivation;
thence South Westwards by West along
its north side to its North West corner
distance 8.15 chains; thence South
Westwards by the West sides of
Dullay Kristamma and Thugeri
Mokkappa's dry cultivations to a
cairn at the South West corner of
the last named ryots' land distance
9 chains; thence in the same direction
South Westwards to a cairn at the
Westernmost corner of Dullay Kristamma's
dry land distance 13 chains; thence
Southwards and South Westwards
through jungle by 2 cairns distances

8.2 and 6.35 chains respectively,
the last cairn at the Easternmost
corner of Somali Mathayya's
dry cultivation

South: — thence North Westwards
to a cairn at the Northernmost corner
of Somali Mathayya's dry cultivation
distance 10.3 chains; thence South
Westwards to the Second boundary
Station, South of the trijunction
Station Stone of Kotta Yellavaram,
Karaka and Nagandhorapalem
Villages distance 7.75 chains; thence
West South Westwards to a cairn at
the North East corner of Pulli Sivanis
dry cultivation of Karaka Village
distance 4.23 chains; thence in a
North Westerly direction to a cairn at
the Northernmost point of Kovala
Yerappa's dry cultivation distance
16.55 chains; thence South Westwards
and Westwards along the North Sides
of the above named cultivation
by 2 cairns distances 12.4 + 7.7
chains respectively, the last cairn
at its North West corner, by the
side of the abandoned cart tracks
from Karaka to Nagandhorapalem;
thence North Westwards to a cairn
on the East side of Araku Lakshmayya

dry cultivation of Kotturu (hamlet of Karaka) distance 15.3 chains; thence Northwards, North Westwards, Westwards and South Westwards along its East, North, and West Sides by 5 cairns, distances 3.2, 4.0, 18.25, 5.3 and 7.1 chains respectively, the last cairn at its South West corner; thence West South Westwards to a cairn at the North West side of Pundra Yerappa's dry cultivation distance 5.45 chains; thence South South Westwards through jungle to a cairn distance 15.9 chains, on the North boundary of Karaka Reserve 14 chains West of Cairn No. 44 of Karaka Reserve; thence generally Westwards and West North Westwards along the Karaka Reserve boundary to Cairn No. 43 distance 4.3 chains.

West: — thence Northwards to the trigunction boundary stone of Gogonda, Karaka and Tamadeupet Villages distance 3 chains, at the foot of Bagala Metta; thence North West and Westwards by the foot of the above mentioned Metta by 4 cairns distances 5.15, 3.85, 3.15 and 6.00 chains respectively, the last cairn at the South East corner of Shuberi Linganna's dry cultivation; thence Northwards to a cairn at its North East corner distance 4.85 chains under a laminated

tree; thence North, North Eastwards by the East side of Kamala Somanna's dry cultivation to a cairn at its North East corner distance 5.2 chains; thence North Westwards up the saddle between Bagala Metta and Nuddim Metta to a cairn at the South West corner of Karapu Ramandhara's dry cultivation distance 8.00 chains; thence Eastwards along its South side, by the North side of Bagala Metta by 2 cairns distances 8.35 and 6.00 chains respectively, the last cairn at the South East corner of the above mentioned field; thence North, North Eastwards by its East side to the starting point, distance 23.5 chains. ✓

2. His Excellency the Governor in Council is further pleased under clause (C) of the said Section 4, to appoint Mr. R. H. L. Lushington, Special Forest Settlement Officer of Gangam, &c, Districts, for the time being to be the Forest Settlement Officer who shall enquire into and determine the existence, nature and extent of any right claimed by, or alleged to exist in favor of, any person in or over land comprised within such limits, or to any forest produce of such land and to deal with the same as provided in Chapter II of the said act, and the District Forest Officer, Vizagapalem, for the time being, to attend on behalf of Government during the enquiry.

3. His Excellency in Council is further pleased, under the powers vested in him by section 14 of

The said act, to appoint the Collector of Vizagapatam to be the officer of Revenue Department, who shall hear appeals from orders of Forest Settlement Officer passed under Sections 11, 12 and 13 of said act.

District Forest Officer
For Collectors

His Excellency the Governor in Council is pleased to Notify under the provisions of Section 4 of the Madras Forest Act (V of 1882) that it is proposed to — constitute the block of lands described in the Schedule hereto annexed "Reserve Forest", under the act.

Schedule.

No.	District	Taluk.	Name of Block	Boundaries:—
42	Vizagapatam	Golconda	Arlova Reserve Extension Block	North:— Starting from the cairn at No I (b) the North East corner of Sowralley Kunnayya's dry cultivation of Rajupet (hamlet of Kotta Yellavaram Mokassa) on the Southern boundary of Arlova Reserve, 6 chains West of the 2 nd boundary Station West of Nalla Metta of Kotta Yellavaram, the boundary of the Reserve runs generally Eastwards and North Eastwards along the Southern boundary of Arlova Reserve up to the 1 st boundary station North East of the trijunction boundary stone of Yarravaram, Chedigumala and Yerikampet Villages; thence South South Eastwards to a cairn at the Westernmost corner of Gidathum Chellayya's dry cultivation (sub-division of Survey No 1 of Chedigumala Village) distanced 3.75 chains; thence South East

and North North Eastwards along its South and East Sides to its North East corner by 2 cairns distances 15.00 and 9.00 chains respectively; thence North Eastwards by the West Side of Chedigumala Konda to a cairn distance 7.00 chains; thence Eastwards to the South West corner of Survey No 54 distance 8.70 chains; thence Eastwards along the South Sides of Survey Nos 54 and 53 to the North West corner of No 58.

East: — thence South South Eastwards and South Westwards along the West Sides of Nos 58 and 57 to the boundary station at the Westernmost corner of Survey No 57; thence along the Survey boundary South Westwards by the foot of Chedigumala Konda to the 3rd boundary station; thence South Westwards across Survey No 113 of YerKampet Village to the North West corner of No 107 distance 6.50 chains thence Southwards along its West Sides to its South West corner; thence South South Westwards again across No 113 straight on to the North West corner of No 115 distance 38.50 chains; thence South Westwards to the 3rd

boundary station North West of the trigunetion station of Gundepala, YerKampet and Kotta Yellavaram Villages distance 19.00 chains.

South: — thence North Westwards to the next boundary station distance 13.00 chains, at the North West corner of Kummur Yerayya's dry cultivation; thence generally West North Westwards along the North Sides of Bennereddy Butchayya's dry cultivation by 4 cairns distances 11.30, 5.00, 13.25 and 6.60 chains respectively, the last cairn at its North West corner; thence North Westwards straight on to a cairn at the Northernmost corner of Padal YerKanna's dry cultivation distance 31.00 chains; thence South Westwards through jungle to a cairn distance 17.9 chains under a tamarind tree; thence North Westwards to a cairn on the abandoned cart track from Yarravaram to Karaka distance 6.75 chains; thence South West and Southern along the cart track to a cairn where the cart track from YerKampet meets it distance 27 chains. thence South Westwards along the cart track to a cairn at the North East corner of Dallya Kristnama's dry

Cultivation of Rajupet (hamlet of Kotta Yellavaram Mokka) distance 17.45 chains thence West North Westwards to a cairn at its North West corner, on the East side of Pala gadda, distance 8.8 chains.

West: — thence generally Northwards and North Westwards along the East Side of the above mentioned gadda by 4 cairns distances 4.00, 7.00, 4.00 and 10.70 chains respectively the last cairn at the Southernmost corner of Pombra Palayya's dry cultivation on the foot path from Rajupet to Tilladupudi; thence North Eastwards along its East sides by 4 cairns, distances 5.00, 4.15, 7.70 and 9.00 chains respectively, the last cairn at its North East corner; thence due north to the starting point distance 10.5 chains.

Cor.
District Forest Officer
For Collector.
12. IV. 97.

2. His Excellency the Governor in Council is further pleased, under clause (C) of the said section 4, to appoint Mr. R.H.L. Lushington, Special Forest Settlement Officer of Ganjam, etc, District, for the time being to be the Forest Settlement Officer, who shall enquire into and determine the existence, nature and extent of any right claimed by, or alleged to exist in favor of, any person in or over land comprised within such limits, or to any forest produced of such land, and to deal with the same as provided in Chapter II of the said act, and the District Forest Officer, — Vizagapatam, for the time being, to attend on behalf of Government during the enquiry.

3. His Excellency in Council is further pleased, under the powers vested in him by Section 14 of the said act, to appoint the Collector of Vizagapatam to be the officer of Revenue Department who shall hear appeals from orders of Forest Settlement officers passed

under Sections 11, 12 and 13 of
the said act.

Proceedings of the Board of Revenue

(Land Revenue),

Dated 17 May 1897.
Forest No. 442 Miscellaneous

READ the following Endorsement of the Conservator of Forests,
Northern Circle, dated 25 March 1897. R.E. No.
1182 on the following letter from the Collector of
Vijayapattinam, dated 19 February 1897, Ref. No. 695
to the Secretary to the Commissioners of Land
Revenue, Madras.

In continuation of my R.E. No. 695 dated
8 November 1894, I have the honor to make a
further report on the advisability or otherwise of
reserving certain blocks and extensions to be reserved
returned by the Board in the Proceedings No. 1241

in P.O. 154
11.3.97 Mi, dated 8 September 1896

2. Chinagoza Extensions 16 vi

All these blocks have been inspected by
the District Forest Officer while on tour with
the Conservator in Palkonda.

Block

Block I in Veeragattam village is made up of part of Survey Nos 512 and 15. Survey No 512 mentioned in the District Gazette notification is a misprint.

Owing to the absence of both the village Karanam and Muniff it was not possible at the time of inspection to obtain detailed information of the extent of land available for cultivation. The extension however is small and consists of rocky ground for the most part, its abandonment or reservation will not affect the cultivable area while it straightens the reserve boundary line. There is also plenty of uncultivable ^{and} waste land in the vicinity.

Block II and III in Gopalpuram village.

By including these blocks the boundary of the Reserve is improved. The proposed extensions contain only scrub jungle. From the village accounts the District Forest Officer reports that the area left for cultivation after the addition of these blocks to the Reserve is greater than the area at present cultivated, and that at present only 20% of the cattle are grazed in the Reserve on permit owing to the amount of waste land available.

Block IV in Pedduru village.

Comprises a hill which forms one of the chain of hills already reserved. There is no cultivation within the block and ample waste land in the village which is devoted

Block

Block V of Chinagora village

The details in the map submitted are correct and are copied from the village maps. The omission of certain fields in the gazette notification is a mistake. The area of the village is 1800 acres approximately, the area of cultivation 200 acres, and the area of land available for cultivation after the Reservation of this extension will be about 400 or 500 acres. There is no reason to abandon it, as it contains no cultivation and a promising growth of young forest.

I recommend all the above reservations.

3. Block VI. Palkonda Agency.

This small extension is hardly justified as it does not contain anything very promising in the way of Forest and has a very tortuous boundary on the eastern side. I think it may be abandoned and the village boundary continued to be the limits of this part of the Reserve.

4. In continuation also of para 3 on the advisability of constituting Peddumikonda Extension No I Block 38 as a separate reserve. I am now able to report that the area is too limited to do so, and I therefore am willing to abandon it as suggested by the Board.

15. The notifications of the above blocks have been rewritten and the previous errors corrected. The District Gazette notification and a reference map of the District were forwarded with my previous letter.

Forwarded. I was in camp with the District Forest officer and endorse the statements here. A few further enquiries have only tended to verify the statements that sufficient land is left outside.

Resolution

In the circumstances now reported by the Collector, the Board approves of the Collector's proposal to reserve the first five extensions to the Chinagora Reserve. The Collector is accordingly requested to submit the necessary papers at a very early date.

REVENUE DEPARTMENT.

1897.

Board of Revenue

(Land Revenue),

MADRAS.

Printed July 16th.

Proceedings, Forest No. 250, 29th June 1897.

JUNE.

Submitting to Government, for approval and publication in the Fort St. George Gazette, draft notification under section 4 of the Madras Forest Act for the proposed constitution of Pedimikonda extension No. I and certain other blocks in the Golconda taluk, Vizagapatam district, as reserved forests.

PROCEEDINGS OF THE BOARD OF REVENUE
(LAND REVENUE).

READ—the following letter from W. O. HORNE, Esq., Collector of Vizagapatam, to the Secretary to the Commissioners of Land Revenue (through the Conservator of Forests, Northern Circle), dated 3rd May 1897, Ref. No. ⁶⁹⁵₈₋₅₋₉₇ :—

With reference to Board's Proceedings, Forest No. 1241, dated 8th August 1896, and in continuation of my letter, R. C. No. 695, dated 18th November 1896, and R. C. No. 695, dated 9th February 1897, I have the honour to return the revised notification of blocks Nos. 38, 40, 41 and 42, which have been re-inspected by my District Forest officer.

2. Block No. 38 is an extension of the Pedimikonda reserve and is a part of the original extension to the reserve which it was decided to abolish. The piece now notified is the outer slope of a hill on the southern side of the reserve and is the only portion of the hill not reserved. There seems to be no reason for its previous exclusion and I propose to include it and obtain a better boundary at the foot of the hill.

3. The extension block No. 40 of the Karaka reserve has been since surveyed and the boundary has been taken some distance north of the Kasimi village.

4. Block No. 41 has since been surveyed and remapped. The block has now been divided into two parts so as to allow free access to Tallapallem and Vutumalla. The north-western boundary now runs more to the east to give room for extension to the village of Kuruvada. The area of the block as now proposed is considerably less than before.

5. Block No. 42 has also been surveyed and remapped. The proposed reserve has been divided into two portions to allow access to Jilledapudi in accordance with the suggestion of the Board.

ENCLOSURE No. 1.

AREA Statement to accompany notification under section 4 of the Forest Act of Pedimikonda reserve extension block No. I of Golconda taluk of the Vizagapatam District.

Total area of the taluk.	Extent of Government land in the taluk.		Area of reserves already notified under section 4 which have not been yet finally notified.	Area of reserves under settlement. dated Waltair, 11th May 1897, R. C. No. 2243.

Forwarded.

RESOLUTION—Forest No. 250, dated 29th June 1897.

With reference to paragraph 2 of the Proceedings disposed of in Government Order, No. 154, Revenue, dated 11th March 1897, the Collector of Vizagapatam now submits revised proposals in respect of the marginally-noted blocks. Of these the Pedimikonda extension I block is, it is noted, a part of the original extension to the main reserve, and forms the outer slope of a hill on the south side of that reserve. Though the Collector had proposed that the extension, as originally selected, should be abandoned (*vide* paragraph 4 of his letter disposed of in Board's Proceedings, Forest Mis. No. 442, dated 17th May 1897), the portion referred to is now recommended for reservation in view to secure a better boundary at the foot of the hill. The Board acquiesces in the Collector's proposal and accordingly submits the draft notifications under section 4 in respect of this and of the other three blocks, with the following remarks, for approval and publication in the *Fort St. George Gazette*.

2. It is observed that the village-site of Vutumalla is about 100 yards from the proposed boundary of Karaka extension block II (a). The Collector is requested to see that, if necessary, the boundary is shifted during settlement, so as to leave a larger margin between the reserve and the village-site.

3. (i) The villagewar statistics furnished in respect of the Arlova reserve extension No. I (a and b) give no figures under columns 5 to 9 of the statement against Cheedigumala and Karakampeta villages comprised within the extension. If the portion included really consists of the unsurveyed area of the villages, an entry to that effect, specifying the area, should have been made in the statement.

(ii) Column 2 of the villagewar statements submitted by the Collector should have given the total area of each village inclusive of poramboke, village-sites, roads, &c.

4. Columns 4 and 6 of the area statements accompanying the notification for Karaka extension No. II give the same information. The same remark holds good in respect of columns 4 and 5 of the area statements of the other three blocks. One of these columns seems unnecessary and has been omitted. Column 4 in each case is apparently intended to show the area of reserves already finally notified.

Reserved Forests.

The draft notification, under section 4 of the Madras Forest Act, for the proposed constitution of the Pedimikonda reserve extension No. I block and five other extensions in the Golconda taluk, as —, ordered to be published in the Fort St. George and the Vizagapatam District Gazettes.

GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

READ—the following Proceedings of the Board of Revenue (Land Revenue), Forest No. 250, dated 29th June 1897:—

Read—the following letter from W. O. HORNE, Esq., Collector of Vizagapatam, to the Secretary to the Commissioners of Land Revenue (through the Conservator of Forests, Northern Circle), dated 3rd May 1897, Ref. No. ⁶⁹⁵ 8-5-97:—

With reference to Board's Proceedings, Forest No. 1241, dated 8th September 1896, and in continuation of my letter, R. C. No. 695, dated 18th November 1896, and R. C. No. 695, dated 9th February 1897, I have the honour to return the revised notification of blocks Nos. 38, 40, 41 and 42, which have been re-inspected by my District Forest officer.

2. Block No. 38 is an extension of the Pedimikonda reserve and is a part of the original extension to the reserve which it was decided to abolish. The piece now notified is the outer slope of a hill on the southern side of the reserve and is the only portion of the hill not reserved. There seems to be no reason for its previous exclusion and I propose to include it and obtain a better boundary at the foot of the hill.

3. The extension block No. 40 of the Karaka reserve has been since surveyed and the boundary has been taken some distance north of the Kasimi village.

4. Block No. 41 has since been surveyed and remapped. The block has now been divided into two parts so as to allow free access to Tallapallem and Vutumalla. The north-western boundary now runs more to the east to give room for extension to the village of Kuruvada. The area of the block as now proposed is considerably less than before.

5. Block No. 42 has also been surveyed and remapped. The proposed reserve has been divided into two portions to allow access to Jilledapudi in accordance with the suggestion of the Board.

ENCLOSURE.

Read—the following Proceedings of the Board of Revenue (Land Revenue), Forest Mis. No. 442, dated 17th May 1897 :—

Read—the following letter from the Collector of Vizagapatam, to the Secretary to the Commissioners of Land Revenue, Madras, dated 19th February 1897, Ref. No. 695 :—

In continuation of my R.C. No. 695, dated 8th November 1894, I have the honour to make a further report on the advisability or otherwise of reserving certain blocks and extensions to reserves returned by the Board in the Proceedings, Mis. No. 1241, dated 8th September 1896.

2. *Chinagora extensions (i) to (vi).*—All these blocks have been inspected by the District Forest officer while on tour with the Conservator in Palkonda.

Block I in Veeragattam village is made up of part of Survey Nos. 5, 12 and 15. Survey No. 572 mentioned in the District Gazette notification is a misprint.

Owing to the absence of both the village karnam and munsif it was not possible at the time of inspection to obtain detailed information of the extent of land available for cultivation. The extension, however, is small and consists of rocky ground for the most part, its abandonment or reservation will not affect the cultivable area while it straightens the reserve boundary line. There is also plenty of uncultivated waste land in the vicinity.

Blocks II and III in Gopalpuram village.—By including these blocks the boundary of the reserve is improved. The proposed extensions contain only scrub jungle. From the village accounts the District Forest officer reports that the area left for cultivation after the addition of these blocks to the reserve is greater than the area at present cultivated, and that at present only 20 per cent. of the cattle are grazed in the reserve on permit owing to the amount of waste land available.

Block IV in Pedduru village.—Comprises a hill which forms one of the chain of hills already reserved. There is no cultivation within the block and ample waste land in the village which is deserted.

Block V of Chinagora village.—The details in the map submitted are correct and are copied from the village maps. The omission of certain fields in the Gazette notification is a mistake. The area of the village is 1,800 acres approximately, the area of cultivation 200 acres, and the area of land available for cultivation after the reservation of this extension will be about 400 or 500 acres. There is no reason to abandon it, as it contains no cultivation and a promising growth of young forest.

I recommend all the above reservations.

3. *Block VI—Palkonda Agency.*—This small extension is hardly justified as it does not contain anything very promising in the way of forest and has a very tortuous boundary on the eastern side. I think it may be abandoned and the village boundary continue to be the limits of this part of the reserve.

4. In continuation also of paragraph 3 on the advisability of constituting Pedimikonda extension No. I, block 38, as a separate reserve, I am now able to report that the area is too limited to do so, and I therefore am willing to abandon it as suggested by the Board.

5. The notifications of the above blocks have been re-written and the previous errors corrected. The District Gazette notification and a reference map of the district were forwarded with my previous letter.

Read—the following endorsement of the Conservator of Forests, Northern Circle, dated 25th March 1897, R.C. No. 1662 :—

Forwarded. I was in camp with the District Forest officer and endorse the statements here. A few further enquiries have only tended to verify the statements that sufficient land is left outside.

Resolution—Forest Mis. No. 442, dated 17th May 1897.

In the circumstances now reported by the Collector, the Board approves of the Collector's proposal to reserve the first five extensions to the Chinagora reserve. The Collector is accordingly requested to submit the necessary papers at a very early date.

(True Copies and Extract.)

NOTIFICATION.

His Excellency the Governor in Council is pleased to notify, under the provisions of section 4 of the Madras Forest Act (V of 1882), that it is proposed to constitute the block of lands described in the schedule hereto annexed "re-erected forests" under the Act.

SCHEDULE.

Number.	District.	Taluk.	Name of block.	Boundaries.
38	Vizagapatam.	Golconda..	Pedimikonda reserve extension block No. I.	North.—Starting from the trijunction boundary station of Chinnabhairavahpatti Sanyasiraju Agraharam and Natavaram villages, the boundary of the reserve runs generally north-east and east-north-eastwards along the southern boundary of Pedimikonda reserve to the trijunction boundary station of Srangavaram, Sanyasiraju Agraharam and Natavaram villages. East.—Thence south-south-eastwards to the first boundary station, south of the trijunction stone of Srangavaram, Sanyasiraju Agraharam and Natavaram villages at the north-east corner of Pilla Ramasami's dry cultivation of Sanyasiraju Agraharam. South.—Thence generally south-westward and westwards along the north sides of Pilla Ramasami's and Adigola Yellayya's dry cultivations to the north-west corner of latter ryot's land. West.—Thence west-north-westwards through jungle to the starting point, distance 18-00 chains.
40	Vizagapatam.	Golconda..	Karaka reserve extension block No. I.	North.—Starting from a cairn at the south-east corner of Somula Mothayya's dry cultivation of Karaka village, on the south side of Raja's channel, five furlongs south-west of Rajupet (hamlet of Kotta Yellavaram), the boundary of the reserve runs in a north-easterly direction by the side of the abovementioned channel to a cairn by the side of the foot-path from Karaka to Rajupet village, distance 20-4 chains; thence eastwards to a cairn, distance 23-8 chains at the south-east corner of Somula Pentayya's dry cultivation of Rajupet; thence east-north-eastwards to a cairn at the south-west corner of Somula Kannayya's dry cultivation, distance 8-1 chains; thence eastwards by the south side of the abovementioned land and through jungle to a cairn at the south-east corner of Lanka Cheruvu, distance 37-7 chains; thence eastwards to a cairn at the south-east corner of Berajam Gundamayya's dry cultivation of Kotta Yellavaram mokassa village and on the west side of Palagedda, distance 10-9 chains; thence generally south-eastwards and eastwards along the west and south banks of the abovementioned gedda to the trijunction station of Balaghattum, Lingapuram and Kotta Yellavaram villages which is also on the western boundary of Madalammakonda reserve. East.—Thence south-westwards and southwards along the western boundary of Madalammakonda reserve to the third boundary stone at the north-east corner of Samala Somanna's dry cultivation of Kasmi Agraharam. South.—Thence south-westwards through jungle straight on to the third boundary stone, south of the trijunction station of Kotta Yellavaram, Jammaram and Kasmi villages, situated at the north-west corner of Dhoney Gadappa's dry cultivation of Kasmi Agraharam, distance 82-8 chains; thence north-westwards to cairn No. 2 of Karaka reserve, distance 18-00 chains, situated at the northernmost corner of Nelappa Chendrayya's dry cultivation of Jammaram Agraharam and by the side of the foot-path from Jammaram to Karaka village; thence generally northwards and westwards along the foot-path, being the northern boundary of Karaka reserve to a cairn at the south-east corner of Konaka Yerrayya's dry cultivation of Karaka village, seventeen chains west of the fourth boundary stone, north of the trijunction station of Karaka, Kotta Yellavaram and Jammaram villages. West.—Thence northwards by the east side of Konaka Yerrayya's dry cultivation of Karaka village to a cairn, distance 14-6 chains at the easternmost corner of Konakka Yerrayya's wet cultivation; thence north-westwards through jungle to a cairn, distance 12-7 chains, on the foot-path from Karaka to Kotta Yellavaram and at the north-east corner of Bolangi Krishnamma's dry cultivation; thence westwards by its north side to a cairn at the north-east corner of Vongala Pentayya's dry cultivation, distance 10-13 chains; thence west-north-westwards along its north side to a cairn at its north-west corner, distance 13-65 chains; thence north-north-westwards through jungle to the starting point, distance 20-15 chains.
41	Vizagapatam.	Golconda..	Karaka reserve extension block No. II (a).	North.—Starting from cairn No. 20 of Karaka reserve at the south-east corner of survey No. 106 of Valasampet village, by the side of the foot-path from Tallapalem to Vadaparti villages, the boundary of the reserve runs generally in a north-easterly direction along the foot-path, being the southern boundary of Karaka reserve to a cairn, distance 45-4 chains, at the south-west corner of Jampa Bheemayya's dry cultivation of Vadaparti village, and at the junction of the paths from Vadaparti and Mulagapudi to Tallapalem village; thence in an east-south-easterly direction along the foot-path to Mulagapudi to a cairn, distance 27-25 chains, at the west side of Erray Gunganna's dry cultivation; thence southwards by its west side to a cairn, distance 10-00 chains at the south-west corner of Sarara Buchayya's dry cultivation; thence east-south-eastwards by the south side of the abovementioned field to a cairn at the southernmost corner of Jampa Bheemayya's dry cultivation, distance 11-4 chains; thence north-eastwards to a cairn by the side of the cart-track from Vadaparti to Natavaram, distance 14-45 chains; thence generally in a north-easterly and south-easterly direction along the cart-track to a cairn, distance 19-3 chains by the east side of Addukonda.

Number.	District.	Taluk.	Name of block.	Boundaries.
				East.—Thence south-south-westwards by the foot of Addukonda to a cairn, distance 7-55 chains; thence south-westwards to the survey boundary station at the north-west corner of survey No. 494 of Yellavaram Dondapet village, distance 17-00 chains; thence along the west and south sides of survey No. 494 and the south sides of survey Nos. 490, 489 and 488 to a cairn at the southernmost corner of the lastmentioned field; thence across survey No. 481 in a south-easterly direction to a cairn, distance 7-6 chains by the side of the cart-track to Natavaram, near the south-west corner of No. 487; thence generally southwards along the cart-track to a cairn, distance 47-5 chains near a mango tree. South.—Thence westwards through jungle of survey No. 481 to the north-east corner of No. 501 marked by a cairn, distance 35-9 chains; thence westwards along the north sides of Nos. 501, 504 and 498 to a cairn at the north-west corner of the lastnamed survey number; thence west-south-westwards across No. 481 to the boundary station marked by a cairn at the foot of Gollakonda, distance 20-9 chains; thence due north across survey No. 96 of Valasampet village to a cairn at the north-east corner of Pemada Sanyasi's podu of Venkatapuram (hamlet of Valasampet), distance 33-2 chains at the foot of Partikonda; thence west-south-westwards along its north side by the foot of the abovementioned hill to a cairn at its north-west corner, distance 2-00 chains; thence straight on in the same direction to a cairn, distance 15-35 chains near the north-east corner of Lanka Gongalaya's podu; thence south-westwards to a cairn, distance 8-35 chains at its north-west corner; thence west-north-westwards by the north side of Golla Guravadu's podu to a cairn by the side of the foot-path from Venkatapuram to Vadaparti, distance 21-5 chains. West.—Thence generally northwards and north-eastwards along the foot-path to Vadaparti to a cairn, distance 49-00 chains; thence northwards to a cairn at the south-east corner of survey No. 103 of Valasampet village, distance 7-25 chains; thence north-north-eastwards along its east side to the starting point, distance 11-95 chains.
Vizagapatam.	Golconda..		Karaka reserve extension block No. II (a).	North.—Starting from cairn No. 26 of Karaka reserve, situated on the foot-path from Kuravada to Vutumalla villages, six chains north-east, of Vepamanu cheruvu of Kuravada village, the boundary of the reserve runs in a north-east and easterly direction along the south boundary of Karaka reserve as far as a cairn situated at the north-west corner of Kona Yenkeyya's dry cultivation of Vutumalla village, twenty-five chains east of cairn No. 25 of Karaka reserve. East.—Thence in a straight line southwards to a cairn, distance 39-3 chains, on the foot-path from Kuravada to Vutumalla village by the east side of a Gedda; thence in the same direction southwards to a cairn, distance 10-25 chains, at the south-west corner of Kona Yenkeyya's dry cultivation; thence eastwards to a cairn, distance 18-00 chains at the south-west corner of a palmyra top; thence north-eastwards by the south side of the above mentioned top to a cairn distance 21-6 chains, by the side of the foot-path from Vutumalla to Tallapalem village, six chains south-east of Vutumalla village; thence in a south-easterly direction along the path to Tallapalem to a cairn, distance 16-6 chains, on the east side of Mottie gedda, being the westernmost corner of Ragay Sanyasi's dry cultivation; thence south-eastwards by the south side of the above mentioned cultivation to a cairn at its south-east corner, distance 8-95 chains; thence due southwards to the survey boundary station marked by a cairn 8-5 chains south-west of the southernmost corner of survey No. 114 of Valasampet village. South.—Thence generally southwards and south-westwards along the survey boundary between Vutumalla and Valasampet villages up to the boundary stone at the junction of survey Nos. 1 and 96 of Valasampet village; thence generally south-westwards along the khandam boundary of Valasampet village to the fifth khandam station, marked by a cairn, on the north side of a large gedda; thence north-westwards across survey No. 1 to the fifth boundary station stone, south-west of the trijunction station stone of Vutumalla, Chemmachinta and Valasampet villages, distance 24-00 chains; thence generally in a south-westerly direction, along the village boundary between Chemmachinta and Valasampet, to the fifth boundary station marked by a cairn near a Chunam kiln. West.—Thence northwards across survey No. 1 of Chemmachinta village to a cairn, distance 6-7 chains, at the south-east corner of Nathala Benigadu's dry cultivation (sub-division in survey No. 1 of Chemmachinta) on the north side of a stream; thence north-eastwards to a cairn at its easternmost corner, distance 8-1 chains; thence north-westwards to a cairn, distance 4-5 chains at its north-east corner; thence again across survey No. 1 to the south-east corner of survey No. 3 marked by a cairn, distance 23-45 chains; thence northwards along its east side to its north-east corner marked by a cairn; thence across No. 1 through jungle to the boundary station by the side of the foot-path from Kuravada to Chemmachinta village, distance 35-8 chains; thence north-north-eastwards, through jungle to a cairn, distance 28-65 chains at the foot of Pottimetta of Kuravada village; thence in the same direction a little northwards to the starting point, distance 13-5 chains.
42	Vizagapatam.	Golconda.	Arlova reserve extension block No. I (a).	North.—Starting from the survey boundary stone on the east side of Dady Metta, being the second station stone north-west of the trijunction stone of Karaka, Nagandhorapalem and Jamadavepet villages, the boundary of the reserve runs generally eastwards and north-eastwards along the southern boundary of Arlova reserve up to the cairn at the north-west corner of Sowralley Benayya's dry cultivation of Jilledupudi (hamlet of Yerravaram), nineteen chains east of the trijunction stone of Nagandhorapalem, Yerravaram and Kotta Yellavaram villages. East.—Thence southwards to the second boundary station, south-east of the trijunction stone of Nagandhorapalem, Yerravaram and Kotta Yellavaram villages, distance 8-38 chains; thence south-south-westwards across the foot-path to a cairn at the north-west corner of Koda Ramanna's dry cultivation of Kotta Yellavaram, distance 7-65 chains; thence south-westwards and south-eastwards along its west and south sides by four cairns, distances 2-07, 6-65, 1-85 and 13-83 chains, respectively; the last cairn at its south-east corner and on the north side of a gedda; thence south-south-eastwards and southwards through jungle by two cairns, distances 6-00 and 6-55 chains respectively, the last cairn at the north-east corner of Madala Geddayya's dry cultivation; thence south-westwards by west along its north side to its north-west corner distance 8-15 chains; thence south-westwards by the west sides of Dullay Kristamma and Thugeri Mokiyya's dry cultivations to a cairn at the south-west corner of the last-named ryot's land, distance nine chains; thence in the same direction south-westwards to a cairn at the westernmost corner of Dullay Kristamma's dry land, distance thirteen chains; thence southwards and south-westwards through jungle by two cairns, distances 8-2 and 6-35 chains respectively, the last cairn at the easternmost corner of Somali Mathayya's dry cultivation. South.—Thence north-westwards to a cairn at the northernmost corner of Somali Mathayya's dry cultivation, distance 10-3 chains; thence south-westwards to the second boundary station, south of the trijunction station stone of Kotta Yellavaram, Karaka and Nagandhorapalem villages, distance 7-75 chains; thence west-south-westwards to a cairn at the north-east corner of Pulli Svanu's dry cultivation of Karaka village, distance 4-23 chains; thence in a north westerly direction to a cairn at the northernmost point of Konala Yerrayya's dry cultivation distance 16-65 chains; thence south-westwards and westwards along the north sides of the above named cultivation by two cairns, distances 12-4 and 7-7 chains, respectively, the last cairn at its north-west corner, by the side of the abandoned cart-track from Karaka to Nagandhorapalem; thence north-westwards to a cairn on the east side of Araku Lakshmayya's dry cultivation of Kotturu (hamlet of Karaka), distance 15-3 chains; thence northwards, north-westwards, westwards and south-westwards along its east, north and west sides by five cairns, distances 3-2, 4-0, 16-25, 5-3 and 7-1 chains, respectively, the last cairn at its south-west corner; thence west-south-westwards to a cairn at the north-west side of Pundra Yerrayya's dry cultivation,

Number.	District.	Taluk.	Name of block.	Boundaries.
42	Vizagapatam.	Golconda.	Arlova reserve extension block No. I (b).	distance 5.45 chains; thence south-south-westwards through the jungle to a cairn, distance 15.9 chains on the north boundary of Karaka reserve, fourteen chains west of cairn No. 44 of Karaka reserve;
