Simla, the 3rd August 1897.

Department of Revenue
and Agriculture.
(Famine.)

SIR,

I am directed to acknowledge the receipt of your letter No. 431, dated the 3rd June 1897, regarding the adoption in the Madras Presidency of the intermediate system of relief works introduced in the North Western Provinces and Oudh.

2. The Government of India are very glad to learn that the Government of Madras have decided to introduce the piece-work system in Ganjam and into other affected tracts where similar conditions prevail. With regard to the last ~~section~~ sentence of paragraph 6 of the order, which requires the replacement of piece-works by regular relief works if the demand of inefficient labour for employment is found to be considerable, I am to suggest for the consideration of the Governor in Council that even in the event of the demand for employment by inefficient labour being found to be considerable, it may not on that account be necessary to replace the intermediate works by regular relief works, unless both classes of work cannot be conveniently worked at the same time. If the piece work system is affording employment to efficient, although distressed, labourers on satisfactory and economical terms, it may be possible to retain piece-work for them, unless it is found that without their assistance no employment of

of any kind can be given to inefficient labourers.

3. In this connection I am to invite attention to the report on the working of the intermediate system of relief works in the North Western Provinces and Oudh, contained in the Local Government's letter No. 1525 dated the 10th July 1897, a copy of which was forwarded to you with my Circular No. 24/91-6, dated the 24th July 1897.

I have the honour to be,
Sir,
your most obedient servant,

J. M. M. M.

Deputy Secretary.
