BOARD OF REVENUE (REV. SETT., L. RDS. AND AGRI.), 17TH OCT. 1896, No. 275.

PROCEEDINGS OF THE BOARD OF REVENUE (REVENUE SETTLEMENT, LAND RECORDS AND AGRICULTURE).

READ—the following letter from Miss E. ISIS POGSON, F.R.M.S., Meteorological Reporter to the Government of Madras, to the Secretary to the Commissioner of Revenue Settlement, Land Records and Agriculture, dated Madras, 28th August 1896, No. 814:—

I have the honour to forward herewith a copy of my administration report for 1895-96.

ENCLOSURE.

ADMINISTRATION report of the Meteorological Reporter to the Government of Madras for the year 1895-96.

8. In addition to the seventeen Meteorological Observatories, there were 346 Revenue Board Rain-recording Stations in the Madras Presidency on the 1st of April 1895. This number does not include the twenty Meteorological Observatories which now furnish rain returns in lieu of separate stations being maintained. To these one more was added and two abolished during the year, making the total number 345 on the 31st of March 1896. In consequence of the Surgeon-General with the Government of Madras having represented that the absence of District Medical Officers on rain station inspection duty was a source of inconvenience to the department, this work was transferred to the Revenue Divisional Officers from the 1st of April 1895. Each Divisional Officer was accordingly supplied with the necessary instruments, viz., a spirit level and measuring scale. Only 74 stations were, however, inspected by these officers during the year, and 4 by the Deputy Director of Land Records and Agriculture, making the total number 78 against 180 last year, showing a regrettable diminution of 102 visits. Monthly rainfall registers were regularly received from the twenty-one districts, as also from the Pudukkottai State, and tabulated at the Madras Meteorological Office for publication in the *Fort St. George Gazette* each month. Seven hundred and twenty copies of the Madras Presidency monthly rainfall table were regularly supplied to the Imperial Meteorological Office, Calcutta.

RESOLUTION—dated 17th October 1896, No. 275.

Recorded.

2. Paragraph 8 of the report received with the letter read above will be communicated to the Collectors of all districts, except Madras, whose attention will be drawn to the unsatisfactory inspection of rain-gauges. They will be requested to impress on the Divisional Officers that the inspection of rain-gauges should form part of their duty when touring in their divisions.
