ENCLOSURES Nos. 6 to 9.—Sketch-maps.

Endorsement by A. W. PEET, Esq., Conservator of Forests, Northern Circle, dated Camp, Palkonda, 6th February 1897, R. C. No. 1459.

Forwarded.

RESOLUTION—Forest No. 298, dated 22nd July 1897.

The draft notifications in respect of the marginally-noted blocks received with the letter read above will be submitted to Government for approval and publication in the *Fort St. George Gazette*, the 30th November next being recommended as the date from which the reservation shall take effect.

2. (i) *Claim X of Block A.*—The point of entrance of the foot-path leading to the Ramalingaswami temple not being fixed with precision, the Board has made the necessary correction in the B register and the notification.

(ii) *Block B.*—It would appear from the sketch-map that the Yellarti village-site lies close to the reserve boundary. It is, however, presumed that the exclusion of survey No. 172 $\frac{1}{2}$ of Yellarti just below the village-site will provide for the requirements of the village.

3. (i) *Block C.*—The foot-path admitted in claim XI appears from the sketch-map to run north-north-west and not north-north-east as given in the register and notification. The necessary correction has been made in both documents.

(ii) The Suluvayi village-site near the north-west corner of block C appears from the map to be about 100 yards from the reserve boundary. This margin, the Board presumes, is considered sufficient by the District Forest-officer and the Forest Settlement-officer.

4. *Claims III to V, Block D.*—The subsequent insertions made in the draft notification in the description of the foot-paths dealt with in these claims in view to secure accuracy have not been carried out in the claim register. The Board has now supplied the omission so as to make the documents correspond with each other and with the map. Such omissions should not recur.

5. The blocks lie in the Alur taluk, and cover an aggregate area of 9,876 acres as finally settled. Although the individualwar area of the blocks is recorded in the sketch-map, it has not been entered in the area statement. The omission has now been supplied.

3. (i) *Block C*.—The foot-path admitted in claim XI appears from the sketch-map to run north-north-west and not north-north-east as given in the register and notification. The necessary correction has been made in both documents.

(ii) The Suluvayi village-site near the north-west corner of block C appears from the map to be about 100 yards from the reserve boundary. This margin, the Board presumes, is considered sufficient by the District Forest-officer and the Forest Settlement-officer.

4. *Claims III to V, Block D*.—The subsequent insertions made in the draft notification in the description of the foot-paths dealt with in these claims in view to secure accuracy have not been carried out in the claim register. The Board has now supplied the omission so as to make the documents correspond with each other and with the map. Such omissions should not recur.

5. The blocks lie in the Alur taluk, and cover an aggregate area of 9,876 acres as finally settled. Although the individualwar area of the blocks is recorded in the sketch-map, it has not been entered in the area statement. The omission has now been supplied.
