Resolution

With reference to the concluding sentence of para 4 of Board's Proceedings No. 2412 dated 9th June 1897 disposed of in Government

18/12/97

Government Order No 3601 Revenue, dated 14th July 1897, the Board begs to submit its proposals for the entertainment of Sub-Inspectors and peons to supervise the harvesting of the Ganja crops on the javadi hills, North Arcot District.

2. It is reported that the portion of the hills comprised in the Polur taluk is divided into 11 nâds and that cultivation of Ganja will take place in 64 villages belonging to 9 nâds but will be chiefly confined to six nâds. The Assistant Commissioner, Arcot Sub-Division, proposes to divide the tract into 6 ranges with due regard to the extent of Ganja cultivation therein and to place each of them in charge of a Sub-Inspector on Rs 50. As cultivation is carried on in small patches he considers it essential that each of the Sub-Inspectors should have an Orderly of not less than six peons and suggests that they should all be entertained in the second grade. The Deputy Commissioner supports the Assistant Commissioner's proposals and considers that the establishment should be sanctioned for six months at any rate for

for the current season. He reports that owing to the lateness of the season and the delay on the part of the cultivators in applying for cultivation licences (I.D.2) the crop will not be ready for harvesting till January though the usual period is from December to March. To admit of the men being trained to their work, the Deputy Commissioner recommends that the establishment may be entertained from the 1st December next. The Board approves of the formation of the six ranges, each with a Sub-Inspector and 6 orderlies, as also of the recommendation to entertain the men in the current season for six months from 1st December 1897. As the work of supervision is responsible, permanent Sub-Inspectors and peons of special merit will be deputed to the duty, their places being taken by the temporary officers who will all be in the last grade. In filling up the vacancies of Sub-Inspectors the Deputy Commissioner recommends that experienced and trustworthy petty officers should be selected although they may not have the necessary educational qualifications. He

He points out that it is difficult to obtain passed candidates for temporary appointments and that even if obtained they, being altogether new to the work of the Department, are rather a hindrance than an assistance in the despatch of business. The Board agrees with the Deputy Commissioner and will, if the proposal is approved, submit a list of selected petty officers for exemption.

3. In view of the unhealthiness of the Jaradi hills the Assistant Commissioner recommends that a hill allowance of 50 percent of their pay may be sanctioned for the establishment. But the Deputy Commissioner considers that Rs 15 for each Sub Inspector and Rs 2 for each peon will be sufficient as in the case of the men employed in the Kollegal Taluk and the Talavadi firkas of the Satyamangalam Taluk (Vide Government order No. 5224 Revenue dated 7th October 1897). The Board agrees with the Deputy Commissioner.

4. Two proposition statements in duplicate are herewith submitted for sanction. The cost in the current year can be met from the provision in the budget. If possible

possible the establishment will be dispensed with within the period of six months for which sanction is requested.

5. The Inspector, Arni Circle, proposes to allow the Sub-Inspectors and peons to live at the foot of the hills but both the Assistant and Deputy Commissioners are opposed to this and suggest that temporary huts should be erected for them in the ranges. The Board considers it most desirable that the men should live in their ranges and will call upon the Deputy Commissioner to submit estimates for the necessary huts at an early date.

6. The question of what establishment will be required in the Bapatla taluk of the Kistna district is under Correspondence and proposals will be submitted on receipt of further information.
