On verifying the boundary description on the sketch-map submitted, it is found that the terminal point of the northern boundary has not been fixed at its proper place. It is also noted that the south boundary from the northernmost point of survey No. 103 of Adapur—at least the portion from the said point up to its junction with the village boundary between Adapur and Nandalore, does not run in a straight line according to the map. The Board has made the necessary alteration in the draft notification which, as thus amended, will be submitted to Government for approval and publication in the *Fort St. George Gazette*.

2. The village-sites of Peddagantigaripalli and Chinnagantigaripalli appear from the sketch-map to lie close to the northern boundary of the block. A larger margin should be left at settlement between the reserve boundary and the villages concerned.
