With the close of the official year 1896-97, registration of road traffic for three years will be completed at the seventeen stations noted in the margin, and as fresh ones have to be selected in their stead, the Board proposes to take up those mentioned in the list hereto appended.

2 Traffic has already been registered for one year at fourteen of those stations as shown in column 4 of the Appendix and it will probably suffice to continue the

the registration at these for
for two years only. At the
remaining stations, traffic
will be registered for three
years. At all stations such
cross traffic as may be possible
will also be registered.

3. The Chief Engineer is requested
to favour the Board with his
opinion on the above proposals.
