Issued [initials] 6.9.97

The draft notification in respect of the Singampalli and Ultima Thule (formerly Kondapalli) blocks ~~is~~ will be published in the Fort St George and Godavari Dt gazettes.

2 As regards the Rajavommangi block, it is observed that in the papers contained in G.O 877 & 17th December 94 it was proposed to divide the ~~Rajavommangi block~~ into two parts of about 1000 acres on the west and 3,000 acres on the east leaving out the low hills on the N.W. Corner and taking the line close to the foot of the other hills. From the map however it appears that the above proposals have not been fully carried out. The Board is requested to report ~~whether~~ on the point. ~~the proposals above referred to should not~~

ENCLOSURES NOS. 2, 3 AND 4.—Draft notifications.

ENCLOSURES NOS. 5, 6 AND 7.—Villagewar statements.

ENCLOSURES NOS. 8, 9 AND 10.—Sketch-maps.

Endorsement by A. W. PEET, Esq., Conservator of Forests, Northern Circle, dated Waltair, 24th June 1897, R.C. No. 2649.

Forwarded.

RESOLUTION—Forest No. 322, dated 29th July 1897.

The draft notifications in respect of the marginally-noted blocks, the selection of which was approved in Government Order, No. 877, Revenue, dated 17th December 1894, will be submitted to Government for approval and publication in the *Fort St. George Gazette*.

1. Rajavommangi.
2. Singampalli.
3. Ultima Thule.

2. From the sketch-maps submitted, it would appear that the proposed blocks, especially the Singampalli reserve, are very close to the village-sites and cultivation of the villages of which portions are comprised within the reserves. The Board, however, observes from paragraph 3 of the Collector's letter that, in selecting the boundaries, only the hills were included, leaving a large cultivable area outside the reserves for the extension of cultivation, and that every endeavour has been made to exclude all podu cultivation except small areas in the centre.

3. The Collector's proposal to change the name of the Kondapalli block into "Ultima Thule" has the Board's approval.

4. The usual paragraphs 2 and 3 relating to the appointment of a Forest Settlement-officer, &c., are omitted in the draft notifications. The omission has been supplied in the Board's office. Such omissions should not recur.

5. The area of the Singampalli block, as given in the villagewar statement now submitted, differs from that shown in the area statement and the sketch-map. The discrepancy requires explanation.

6. The certificates prescribed in Board's Proceedings, Forest No. 296, dated 26th April 1893, have not been submitted by the Collector. As the Collector, however, states in paragraph 1 of his letter that the blocks have been completely demarcated, the Board has not deemed it necessary to detain the proposals on this account.

Submitting to Government, for approval and publication in the *Fort St. George Gazette*, draft notification under section 4 of the Madras Forest Act for the proposed constitution of Rajavommangi and two other blocks, in the Yellavaram division, Gódávari district, as reserved forests.

PROCEEDINGS OF THE BOARD OF REVENUE

(LAND REVENUE).

READ—the following letter from V. A. BRODIE, Esq., Collector of Gódávari, to the Secretary to the Commissioners of Land Revenue (through the Conservator of Forests, Northern Circle), dated 4th June 1897, Dis. No. 2515-For. :—

In paragraph 1 of Government Order, No. 877, Revenue, dated 17th December 1894, communicated with Board's Proceedings, Forest No. 1, dated 8th January 1895, it was ordered by Government that further reservation in the Agency division of Yellavaram in this district should be limited to the three blocks named Rajavommangi, Singampalli and Kondapalli. The District Forest-officer reports that, on his arrival in the district last September, he found hardly anything had been done to select, demarcate or map these blocks. He accordingly obtained the Board's sanction for a surveyor and selected the boundaries himself last November. The blocks have now been completely demarcated. Three maps and three draft notifications under section 4 of the Madras Forest Act, together with the area statement and statements prescribed in Board's Proceedings, Forest No. 459, dated 2nd October 1896, have been prepared and are herewith submitted. I have therefore the honour to request that the Board may be pleased to submit them to Government to be published in the *Fort St. George Gazette* at an early date.

2. The name of the Kondapalle block has been changed into "Ultima Thule" with the approval of the Conservator, inasmuch as it is near the boundary of the Vizagapatam district and as there is a block of the former name in Kistna district.

3. In selecting the boundaries, only the hills were included, while a large area of forest on cultivable land has been excluded for the extension of cultivation. Every endeavour was made to exclude all podu cultivation from the reserve, but in a few cases small areas, which were situated right in the centre of the block had to be included. These can be cultivated until settlement is completed, by which time, the soil will have become exhausted and the cultivators will prefer to move elsewhere.

4. These three blocks contain good timber and bamboos.

G.O., No. 762, 7th September 1897.

SEPTEMBER.

Reserved Forests.

The draft notification under section 4 of the Madras Forest Act, for the proposed constitution of the Singampalli and Ultima Thule blocks in the Yellavaram division as —, ordered to be published in the Fort St. George and the Gódávari District Gazettes, and the Board requested to report on a certain point in regard to the reservation of Rajavommangi block.

GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

Read—the following Proceedings of the Board of Revenue (Land Revenue), Forest No. 322, dated 29th July 1897:—

Read—the following letter from V. A. BRODIE, Esq., Collector of Gódávari, to the Secretary to the Commissioners of Land Revenue (through the Conservator of Forests, Northern Circle), dated 4th June 1897, Dis. No. 2515-For.:—

In paragraph 1 of G.O., No. 877, Revenue, dated 17th December 1894, communicated with Board's Proceedings, Forest No. 1, dated 8th January 1895, it was ordered by Government that further reservation in the Agency division of Yellavaram in this district should be limited to the three blocks named Rajavommangi, Singampalli and Kondapalli. The District Forest-officer reports that, on his arrival in the district last September, he found hardly anything had been done to select, demarcate or map these blocks. He accordingly obtained the Board's sanction for a surveyor and selected the boundaries himself last November. The blocks have now been completely demarcated. Three maps and three draft notifications under section 4 of the Madras Forest Act, together with the area statement and statements prescribed in Board's Proceedings, Forest No. 459, dated 2nd October 1896, have been prepared and are herewith submitted. I have therefore the honour to request that the Board may be pleased to submit them to Government to be published in the *Fort St. George Gazette* at an early date.

2. The name of the Kondapalle block has been changed into "Ultima Thule" with the approval of the Conservator, inasmuch as it is near the boundary of the Vizagapatam district and as there is a block of the former name in Kistna district.

3. In selecting the boundaries, only the hills were included, while a large area of forest on cultivable land has been excluded for the extension of cultivation. Every endeavour was made to exclude all podu cultivation from the reserve, but in a few cases small areas, which were situated right in the centre of the block, had to be included. These can be cultivated until settlement is completed, by which time, the soil will have become exhausted and the cultivators will prefer to move elsewhere.

4. These three blocks contain good timber and bamboos.

Resolution—Forest No. 322, dated 29th July 1897.

The draft notifications in respect of the marginally-noted blocks, the selection of which was approved in G.O., No. 877, Revenue, dated 17th December 1894, will be submitted to Government for approval and publication in the *Fort St. George Gazette*.

1. Rajavommangi.
2. Singampalli.
3. Ultima Thule.

2. From the sketch-maps submitted, it would appear that the proposed blocks, especially the Singampalli reserve, are very close to the village-sites and cultivation of the villages of which portions are comprised within the reserves. The Board, however, observes from paragraph 3 of the Collector's letter that, in selecting the boundaries, only the hills were included, leaving a large cultivable area outside the reserves for the extension of cultivation, and that every endeavour has been made to exclude all podu cultivation except small areas in the centre.

3. The Collector's proposal to change the name of the Kondapalli block into "Ultima Thule" has the Board's approval.

4. The usual paragraphs 2 and 3 relating to the appointment of a Forest Settlement-officer, &c., are omitted in the draft notifications. The omission has been supplied in the Board's office. Such omissions should not recur.

5. The area of the Singampalli block, as given in the villagewar statement now submitted, differs from that shown in the area statement and the sketch-map. The discrepancy requires explanation.

6. The certificates prescribed in Board's Proceedings, Forest No. 296, dated 26th April 1893, have not been submitted by the Collector. As the Collector, however, states in paragraph 1 of his letter that the blocks have been completely demarcated, the Board has not deemed it necessary to detain the proposals on this account.

Order—No. 762, Revenue, dated 7th September 1897.

Forest No. 166.

The draft notification in respect of the Singampalli and Ultima Thule (formerly Kondapalli) blocks will be published in the Fort St. George and Gódávari District Gazettes.

2. As regards the Rajavommangi block, it is observed that in the papers contained in G.O., No. 877, dated 17th December 1894, it was proposed to divide the block into two parts of about 1,000 acres on the west and 5,000 acres on the east leaving out the low hills on the north-west corner and taking the line close to the foot of the other hills. From the map, however, it appears that the above proposals have not been fully carried out. The Board is requested to report on the point.
