G.O., No. 779

Dated 10th September 1897

[Despatch Abstract.]

Taddy-yielding trees on Government lands.

Considering that the maximum rate per tree chargeable to tappers for the right to tap may be fixed at eight annas and the ordinary rate at four and that cases in which it is desired to charge a higher rate than four annas should be reported to the Board for orders; and approving, subject to the above modification, the Board's proposals on the subject.
