The Board's view that it will
suffice to state for each work the aggregate
particulars as directed in paras 7-9 of G.O. 257
of 26 Dec. 1896 appears to be correct. De-
tails for each gang appear to be un-
necessary.

2. The Pub. Works Dept. appears to
be right in insisting on check measur-
ing being done, in the case of works under
its control, by the officers of that
Dept.

BOARD OF REVENUE (REV. SETT., L. RDS. AND AGRI.), 23RD JAN. 1897, No. 49.

PROCEEDINGS OF THE BOARD OF REVENUE (REVENUE SETTLEMENT, LAND RECORDS AND AGRICULTURE).

READ—the following letter from R. H. CAMPBELL, Esq., Collector of Bellary, to the Secretary to the Commissioner of Revenue Settlement and Director of the Department of Land Records and Agriculture, dated 15th January 1897, Ref. on C. No. 64-G. and B. :—

In the last clause of paragraph 2 of G.O., Mis. No. 751, dated 26th December 1896, embodied in B.P., No. 8, dated 5th January 1897, it is stated that the return should give particulars for each gang, while paragraph 5 of the same directs that the aggregate of workers and the aggregate task should be reported. It would be a tedious task involving much clerical work to give gangwar particulars, for if there are 300 gangs in a district the return will be unusually lengthy and it may not be possible to gather at one glance the required particulars. I think that the object will be gained if the aggregate of the day is given for each description of the work in each class.

2. I presume that statement No. II should give particulars for the fortnight and not for the last day of the fortnight as in the case of statement No. I, for it would be obviously impossible for the Tahsildar to check-measure the work of that day the same day for all the works.

3. In the case of works under Public Works Department, the check-measuring will be done by the officers of that department. The Executive Engineer is opposed to any interference in this matter on the part of Revenue officers and I think rightly so.

RESOLUTION—dated 23rd January 1897, No. 49.

With reference to the point raised in paragraph 1 of the letter read above, the Collector will be informed that it will suffice to state, for each work, the aggregate particulars required in paragraph 5 of G.O., No. 751, Revenue, dated 26th December 1896, and not details for each gang.

2. Form No. II should show the check-measurements made during the fortnight by superior officers, not being the officers in charge of the works.

3. The view expressed in paragraph 3 of the Collector's letter commends itself to the Board, so far as relates to works in charge of the Public Works Department.

2. under para 3 of G.O. 668
25-11-96
in all relief works placed in
charge of the P.W.D. the system
of working detailed in Appendix
VI of the Famine Code should
be followed. It is presumed
that under Rule 29 of the ap-
pendix, Tahsildars have power
to check measurements on such
works. But this may possibly
produce friction between the
officers of the two Depts, and
this is apparently the reason
why the Board says that such
measurements should be
made by officers of the P.W.D.
If the Board's view is approved
it will be necessary for the
check-measuring officers of
the P.W.D. to forward returns

The Govt agrees with the
Board of Revenue in thinking
that in the case of works
in charge of the P.W.D. the
check-measurements should
be made by officers of the

Orders will issue in the
P.W.D. directing check-measuring
officers to forward fortnightly
