AUGUST.

Submitting to Government, for approval and publication in the *Fort St. George Gazette*, draft notification under section 16 of the Madras Forest Act for the constitution of the Vallam extension No. 2 block, in the Chingleput taluk, Chingleput district, as a reserved forest.

PROCEEDINGS OF THE BOARD OF REVENUE

(LAND REVENUE).

READ—the following letter from Dewan Bahadur A. PINTO, Esq., Deputy Collector and Forest Settlement-officer, Chingleput, to the Collector of Chingleput, dated Saidapet, 20th July 1894, No. 225-F. :—

I have the honour to report the conclusion of the settlement of the proposed extension No. 2 to the Vallam reserved forest, block No. 16, Chingleput taluk.

2. The extension takes in portions of two villages Senneri and Peruntandalam and as notified under section 4 comprises acres 193·97. Deducting acres 2·15, being the area excluded at settlement, leaves a net area of acres 191·82 or ·29 of a square mile in extent.

3. The notification under section 4 appeared in the *Fort St. George Gazette*, dated 4th July 1893, and the proclamation under section 6 was issued in the District Gazette supplement for July 1893. Time was allowed for preference of claims up to 30th November 1893 and was subsequently extended to 15th June 1894. The extension was perambulated by me on 25th June 1894.

4. Only two claims were received in respect of this block. One was to two inam fields which were excluded from the forest by revising its boundary. The other was by the District Forest-officer to two public rights of way which were admitted.

5. Access will have to be allowed under Government Order, No. 74, Revenue, dated 11th February 1889, over the following feeder channels of the Senneri tanks :—

(1) *Feeder channel No.* 1.—It rises at the foot of the hill in survey No. 132 about nine chains north of the north-east corner of survey No. 131 and running southwards leaves the forest at the south-east corner of survey No. 131 both of Senneri village.

(2) *Feeder channel No.* 2.—It enters the west boundary of the reserve near the north-west corner of survey No. 128 and running south-east leaves the south boundary a chain south of the south-west corner of survey No. 131 both of Senneri village. The channels are two yards broad on an average between banks.

This channel falls outside the reserve owing to the District Forest-officer revision of boundary.

6. There are within this block a *burial and a burning ground* of Peruntandalam village. They were shown to me by the ryots at the time of perambulation and measurements were duly taken. The ryots, however, did not come to my camp and formally claim the same and I could not make any order respecting them. The ryots will probably move to a place south of the south boundary of the block and outside it.

7. I beg that two months' time be allowed for promulgation of the notification under section 16 in the towns and villages concerned as required by the Act from the probable date of its appearance in the *Fort St. George Gazette*.

Brings to notice the following important rights of way through the proposed extension :— (1) *Foot-path* from Hchamkaranai to Senneri. It enters the west boundary one and a half chains north of the north-west corner of survey No. 128 and leaves * the south boundary three chains west of the north-west corner of survey No. 130 both of Senneri, four feet broad and open for people, cattle and carts. (2) † *Cart-track* from Peruntandalam to Madras. The alterations will be adopted. Instead of half a chain, it must be one chain south of the south-west corner of survey No. 131. (Signed) A. PINTO, Forest Sett.-officer. SAIDAPET, 6th July 1894.

* Owing to the District Forest-officer's revision of boundary the path leaves the forest about five chains west of the north-west corner of survey No. 131 of Senneri. This path may be diverted along the boundary-line when cleared.

ENCLOSURE No. 3.—Sketch-map.

Endorsement by D. D. MURDOCH, Esq., Acting Collector of Chingleput, dated Saidapet, 30th March 1897, C. No. 1094.

The required statement of area and condition is enclosed.

With reference to paragraph 6 of the Forest Settlement-officer's report, Mr. Thomson, the then Collector, remarked that the burial and burning grounds with the right of way No. 2 might very well have been thrown out of the block. These and the portion of the Senneri tank and its feeder channel have now been excluded and the right of way to the north of it may be diverted along the south boundary when cleared.

The extension may be reserved as the Conservator of Forests has recommended its retention in appendix I attached to his inspection report, dated 24th September 1895, printed in Board's Proceedings, Forest No. 382, dated 18th August 1896.

The area of the extension as finally settled is 165 acres.
