Proceedings of the Board of Revenue

(Revenue Settlement, Land Records and Agriculture.)

Dated 7th September 1897.

No. 7326 M.D.

Read the following letter from the Collector of Kilgiris No. 164 dated 18th August 1897.

I have the honor to lay before the Board a suggestion in connection with the Barley Shows.

2. The Shows have been a failure since 1891 and this year no Ryots have registered their name.
3. It appears to me that the regulations for the shows are unpopular, requiring previous registration, a minimum area, inspection of the growing crop by Revenue Inspectors etc. etc.
4. I am a firm believer in the

to be effected by annual prizes but I deprecate official interference at any earlier stage.

5. There is a machinery which Government might well take advantage of, existing in the newly resuscitated Nilgris Agri-Horticultural Society which holds shows in May and September.

6. I recommend that the Board place at the disposal of the Society annual prizes for the best barley grown in the District (no exhibit to be less than one bushel), the first prize being Rs. 30, the second 20, the third 15. If these attract exhibits similar prizes, if necessary, can later on, be given for each of the three crops. It may be left to the Society to offer the prizes at whichever show is the more convenient to growers.

Resolutions

The collector's recommendation in para 6 of the letter read above is submitted to Government

Revenue department for favourable consideration.

Note

The idea of granting prizes for the best English barley grown on the hills originated in 1887 when the Govt sanctioned the allotment for the purpose of not less than Rs 50. In Jan'y 1888, the Board fixed the number of prizes at three - of the value of Rs 30, 20 and 15 and in March of the same year the concern was extended to all barley grown on the hills. The regulations, ^{drawn} issued by the Board on the subject, ^{soon after} gave details.

indistinct as to how the
 prizes were to be distributed but
 these regulations appear to have
 been mislaid and no action
 was taken in the matter until
 1889. In Nov: of that year
 a distribution of prizes was
 made after inspection appeared
 of the standing crops and also
 of the barley harvested and
 this was repeated in Nov 1890.
 Since the latter year however
 there has been no exposition
 of barley on the hills, the
 main reason assigned being
 failure of crops.

If it ~~the~~ can be grown
 with success, then is apparently
 no reason why it should not have
 been during all this years of
 encouragement. It seems useless
 to continue offering prizes further
 but the system may perhaps be
 given one more trial under the
 proposed agency of the Agri Horticultural
 Society.
