From
The Secretary to the Commissioner of Salt, Abkari & Excise, Ceylon.

To Orders

Reference is solicited to the H.M.'s ~~Cessake~~ notes under G.O. No. 4474 of 26th August 1897. Assuming that of the six persons estimated for by the Board, three will be of the first grade & three of the second grade, the total cost for every four hours or part of four hours will be Rs 1·7·9 and for twenty four hours Rs 8·14·6 or Rs 9 in round figures. The Railway fare for the round trip, in the case of men from Elmore, will be Rs 1·8·0 & Rs 1·11·0 according as they travel by the local or mail trains. If men are away from Elmore for twenty four hours, the total cost to the importer will be less than Rs 11 which certainly does not seem excessive.

For orders as to whether the Scale already proposed by the H.M. may be

Sanctioned

That the item is small and that the services of these men will only be required but seldom in all the Districts reason why Govt. should avoid putting this exceptional charge on the Fort.

C.R. 17/9/97

18/9/97.

The charge must be on the Port", but on the trade. I don't see anything unreasonable in making the trade pay the cost of overtimes as a working hours granted for their convenience. The scale suggested is very moderate has little as it can be for the men - I should sanction it

G.O. 1st 2004 dy 30th Sept 1897.

The Board's suggestion that the Sea Customs Collector Madras should visit on the Emore Circle, during the manufacturing season, and on the Madras Depot or Madras Town Circle, during the non-manufacturing season, for peons to form a guard in case goods are landed or shipped in Madras out of office hours ~~as the case~~ is approved. But the scale of fee for overtime work in the Division of Govt proposed is wholly inadequate. The men should get a full days extra pay for each four hours or part of four hours worked, counting in the case of the peons from Emore from the time of their leaving Emore to the time of their returning thereto. The fee thus calculated together with the Railway fare to & fro in the case of the Emore Circle peons should be recovered from the applicant for over time work.

2. The necessary Notifn regarding the alteration in the scale of ~~fees~~ allowances for overtime work should be published in the Fort St George Gazette.

GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

Read—again the following G.O., Mis. No. 4474, Revenue, dated 26th August 1897 :—

Read—the following Proceedings of the Board of Revenue (Separate Revenue), Mis. No. 3423, dated 9th August 1897 :—

Read—letter from the Collector of Sea Customs, Madras, No. 4891-G., dated 13th July 1897.

Abstract.—Requesting permission for the employment of temporary men at the expense of the applicants for overtime work when such may be necessary, and to issue instructions to the Inspector in charge of the salt factories at Ennore to supply peons whenever they are required.

Resolution—Mis. No. 3423, dated 9th August 1897.

The Chamber of Commerce brought to notice recently a case in which permission for landing coal on the beach in Madras after office hours was refused by the Collector, although the matter was one of urgent importance and the Collector has been vested with discretion to grant such permission on good cause being shown (*vide* Rule 7, clause (*e*) on page 46 of the pamphlet of Customs Notifications). The reason given was a satisfactory one and the concession might well have been granted, but it was explained by the Collector that he was unable to exercise the discretionary powers vested in him owing to the sanctioned staff of tide-waiters and peons being insufficient to provide a proper guard for a special case of this sort. It appears that for this reason the powers conferred by the notification referred to above have remained a dead letter and are incapable of being exercised. The Board did not think that this is right and in view to putting the Collector in a better position to deal with exceptional cases suggested that a guard of peons might be obtained from the factories at Ennore in the off season at the cost of the applicant for overtime work if a few hours' notice were given. The depôt or Town Circle could probably supply a guard at other seasons.

2. The Collector accepts this suggestion and now requests that orders may be issued to the Inspector at Ennore accordingly. The rate at which the services of the peons are to be remunerated has not, however, been settled. Under the rules relating to overtime work in the Customs Department (*vide* paragraph 3, clause (*c*) of G.O., No. 512, Revenue, dated 2nd July 1890, and G.O., No. 132, Revenue, dated 8th February 1892), they would be entitled to one-fourth of a day's pay for every hour of overtime work; but the Board considers that in view of the inconvenience and hardship to which men sent from Ennore will necessarily be put, this rate is inadequate in their case and recommends that sanction be accorded to the charge of a whole day's pay for work done after office hours and before midnight and an additional day's pay for any work done after that hour, *plus*, in any case, railway fare from and to Ennore. If the men are supplied from the depôt or town the same rates less railway fares might be allowed. Of course, it would rest with the Inspectors to state whether they could supply a guard.

Assistant Secretary.

To the Secretary to Government, Revenue Department.
" Collector of Sea Customs, Madras.

Order—Mis. No. 4474, Revenue, dated 26th August 1897.

The Board is requested to report how many men are likely to be required on each occasion on which the time for the landing or shipping of goods may be extended. This information is required to enable Government to decide whether the overtime allowance would be too heavy a burden on the trade in case the scale of allowance is enhanced.
